Handicaps

Against

Coffee isn't a food. Anything not a food which is taken into the system makes the eliminative processes work overtime to throw it off. Often the unprofitable thing, when taken regularly, ac-cumulates faster than it can be eliminated, and becomes a destroyer.

Besides, coffee contains caffeine, a subtle, poisonous drug—about 2½ grains to the cup. It is well known that caffeine frequently causes heart trouble, nervousness, sleeplessness and biliousness-serious handicaps to progress and comfort.

If something is hindering your efforts, try the simple test of leaving off coffee ten days and using **Postum**.

If after a few days you begin to feel bettersleep well, nerves steady up and brain gets clear, you will know how to avoid that kind of trouble.

Postum, made only of prime wheat and a small eent of New Orleans molasses, is a pure food-k—wholesome, nourishing and delicious. It is absolutely free from caffeine or any other drug.

Postum now comes in two forms.

Regular Postum-must be well boiled to bring out its delightful flavour and food value

Instant Postum-(the new form) is a soluble powder. A teaspoonful stirred in a cup of hot water makes a delicious beverage instantly. Add sugar and cream to taste.

# Want Ad Brings Man From Canada to Atlanta Finds Him Truck Farm, Partner,

Home and Equipment

Long Pull and Wonderful Power of Constitution Ads Proven to Citizen of Quitman, Ga.

EDITOR THE CONSTITUTION,

DEAR SIR :--

DEAR SIR:
Last year I had to leave Canada on account of my wife's health. As I had no acquaintances and no business connections anywhere I decided to make a systematic study of local conditions as set forth in the representative newspapers of various sections of the West and South.

In my reading I made a list of what seemed the most suitable places. Against the various sections of the country I marked 'for' and 'sgainst.'

I sifted the list down to states, the states to towns, the towns to Atlanta.

I chose The Constitution as a safe guide and the Went Ad Columns as a comprehensive directory.

I had a little money to invest in a small truck farm and wanted a partner. Through one ad I found my man. Together through the Went Ad Columns we found the farm.

This is how I sum it up: Through The Constitution I chose the town near which to settle.

From the Want Ad Columns I settled all other questions from the man and the farm through a long list of household furniture, farm implements and supplies, stock, chickens, farm help, and the best time and place to market the products of my farm.

# YOUNG WOMEN OF THIS TYPE ARE **BELL OPERATORS**

Not every girl can become a Bell telephone operator. Each applicant must possess a pleasant, well-modulated voice, her eyesight and hearing must be good, and she must be even tempered and of a patient disposition.

We are as careful in selecting operators as we are in training them. They must live at home with their parents or guardians and must furnish satisfactory references.

Applicants are given several weeks' training in the theories and practices of telephone operating. They are then given actual experience at a dummy switchboard not connected with any subscriber. The training of operators therefore does not interfere with the service.

The importance of giving prompt and efficient service and of treating the public with courtesy and consideration are features which we insist upon and impress upon operators constantly from the moment the application is accepted.

The public today demands personal attention. Human intelligence is essential to render proper service to a modern community. A scream, a cry for help in the ear of a Bell telephone operator, sets in motion a vast, resourceful organization which brings quick relief.

In times of emergency the Bell operator never fails to meet the situation in an admirable manner. She is the hero of modern business life.

She is a human being of quick intelligence, trained to meet the requirements of an advanced age, and science has not yet been able to devise any invention that can successfully and satisfactorily fill her place.

Such are the young women who respond "Number, please" to your calls, making some human errors, but standing ready at all times to give you the intelligent personal attention so essential to efficient telephone service.

There is now pending in the house committee on interstate commerce a resolution addressed to President Wilson rectiling that the failure to reappoint Judson Clements to the interstate commerce commission will be equivalent to a "national calamity." TERMINAL DISTRICT AUCTION DECEMBER 12, 10 A. M.

The Southern tracks will soon absorb all the eastern side of Peters Street, and this will force the retailers off this street to Walker.

Located in close proximity to outbound and inbound freight depots of Southern Railway at Nelson, Madison avenue and Mitchell street, also to Central of Georgia depot on Madison avenue, and Atlanta. Birmingham and Atlantic depot on Haynes street. Less than carload shipments can be made by any of these routes, with a wagon haul of only a few blocks over a good pavement, with viaducts over railroad tracks.

Located within two blocks of the Atlanta Terminal Station, through which the greater part of the passenger business at Atlanta moves, and in which the main freight delivery and receiving business of the Southern Express Company is located.

Located in close proximity to Mitchell street and Madison avenue team track yards of Southern Railway and to Madison avenue team track yards of Central of Georgia and Mangum street yards of Atlanta, Birmingham and Atlantic Railway. giving ample facilities at convenient distances for handling such carload shipments as are not handled on house tracks.

> Mr. Ansley sold 20x100 at James and Forsyth streets, six years ago, for \$6,000, or \$300 per foot. He then put a 3-story building upon this lot and sold it for \$35,000. An offer was made a few days ago of \$90,000, and the offer was refused. All this in six years. History will repeat itself in this new Terminal District.
