Famous Hotels, City Water and Supply Plants All Destroyed—The Flames Burn Themselves Out.

**BUILDINGS DYNAMITED IN PATH OF THE FLAMES**

Famous Arkansas Watering Place in Danger of Being Completely Wiped Off the Map—Call Sent for Help.

Hot Springs, Ark., September 5.—Fire which started in a narrow cabin at 1:30 o'clock this afternoon is now flying out at the foot of West Mountain, the southern extremity of the city, and is now burning in length and from even to ten blocks wide in the eastern section of the city. An accurate statement of the monetary loss is not possible tonight, but is roughly estimated at ten million dollars.

Governor Hays arrived in Hot Springs late tonight and will probably order a military patrol of the water district tomorrow morning. United States troops are also expected from Little Rock to add to the guard on the military reservation.

In the path of the flames were manufacturing establishments, hotels, a number of the more pretentious residences and public buildings. All were destroyed.

It is estimated that two thousand persons are homeless.

**Victims Lost in Flames.**

Few of those whose homes were burned saved any of their belongings and guests of the hotels gave little heed to their valuables and luggage in their efforts to escape their lives.

A police patrol of 250 men were sworn in to patrol the fire swept district. So far there has been no disorder. All the homeless have been cared for temporarily and plans have been started to systematic relief of succor tomorrow. Many offers of assistance in fire fighting apparatus, financial aid, food and clothing have been received but it is believed that outside aid will not be needed.

Business was practically suspended tonight except the hotels which provide for the immediate wants of those who suffered the loss of their homes. The lack of light rendered impossible the operation of the street car system, the publication of newspapers and other industries depending on motive power from the city's plant.

**Utilities Suspended for Month.**

General Manager Dillon, of the public utility commission, says that temporary light and power service will be established within thirty days and in three months the utilities will be working to their capacity again. The natural gas supply was not interfered with.

More than thirty square blocks on the eastern edge of the business district had been swept clean at 9 o'clock tonight by the fire, which, at that hour, threatened to eat its way toward Central avenue, the main business thoroughfare. A high wind was blowing and the iron springs and Little Rock fire departments the latter hurried to this city abroad special trains, have made but little headway in checking the flames of the plant.

**Sidney Dillon, commissioner of public utility, estimated that at least \$100,000 of property had been destroyed.**

**Originated in Negro Dwelling.**

The fire, first located in a negro dwelling on Church street and near the corner of the city, spread to the west, then to the south and east. A number of small dwellings, dry as tinder, as a result of an extended drought, were easy prey for the flames, which within a few minutes were beyond control of the local fire department.

From this origin the fire spread to a manufacturing section, then to

**GETS OFF MUCH LIGHTER THAN DID MAURY DIGGS**

Maximum Sentence for the Count on Which Caminetti Was Convicted Is 5 Years and Fine of \$5,000.

San Francisco, September 5.—Parley P. Caminetti, son of the commissioner general of immigration, was found guilty late today on one count of the indictment charging him with violation of the Mann white slave act.

The jury was out three hours, and took eight ballots. From the first the jury was divided and finally the two contestants agreed to compromise by finding a guilty on one of the four counts charged.

Bail in the sum of \$10,000 was furnished. Sentence will be pronounced Wednesday, September 16, the day set for sentencing Maury I. Diggs, jointly indicted with Caminetti and convicted on four counts.

Exemption to the charge of Judge Van Fleet as a whole and in part taken by counsel in the case of Diggs, smiling at the verdict lightly. Caminetti, on the other hand, was carefully in her mother's lap, who he shook hands with his lawyers and with Diggs, who had been sitting nearby. His mother and wife appeared no emotion.

**Caminetti Gets Off Light.**

Caminetti and Maury I. Diggs, former assistant of the commissioner, were jointly indicted on six counts. Diggs was found guilty on four of the counts, while Caminetti was found guilty on one of the counts. The charges against Caminetti's individual part in the flight from Sacramento and Reno, Nev., with Marsha Warrington and Norris, the government elected in the first two counts charged the flight. The first two counts charged the flight and aided in transporting the two young women from Sacramento to Reno in violation of the Mann act.

**Five Year Maximum Sentence.**

This Diggs is liable to a maximum term of five years imprisonment and \$5,000 fine. Caminetti is liable to a maximum term of five years and \$5,000 fine.

The verdicts correspond with the charges against Diggs, which were that he violated the Mann act, aided in transporting the two girls to Reno, and here again one count applied to each girl.

The finding of the jury the single count of transporting and aiding in transporting Lola Norris, Reno, in violation of the Mann act, rendered Caminetti responsible for Marsha Warrington's elopement with Diggs, and it returned to believe that Miss Norris had been enticed into going.

**Indictments Still Pending.**

There remain over the heads of both Diggs and Caminetti indictments charging conspiracy to violate the Mann act and a third indictment hanging over them.

With Charles E. Harris, of Sacramento, his former attorney, is accused of subornation of perjury. Neil Barton, attorney and ex-counsel for Marsha Warrington, testified during the trial that Harris and Diggs had conspired to obtain a writ of habeas corpus for her. If Jerome is arrested, it would be to bring her to trial on the charge of conspiracy to violate the Mann act.

Testimony in the New Haven Railroad Investigation Shows That Road Knew Its System Was Faulty.

New Haven, Conn., September 5.—The so-called "banjo" signal system installed on the New Haven railroad nearly 20 years ago, was charged in sworn testimony today with responsibility for the death of twenty-one persons in the wreck on the Bar Harbor line Tuesday. The testimony was given at the Interstate Commerce Commission's inquiry to determine the cause of the disaster.

The "banjo" system was admitted by officers of the road to be inferior to the more modern systems in use on other roads. Lacking a "caution" signal as protection against a danger signal, as in modern systems, the "banjo" type, according to half a dozen trainmen, caused engineers to mistook their signals in foggy weather before they could stop their trains.

**Protect Made by Speeders.**

More than a year ago the Brotherhood of Locomotive Engineers protested against the "banjo" system, and asked that it be abolished. Correspondence to this effect was placed before the Interstate Commerce Commission. That an order to stop the White

When Harry K. Thaw was taken from the county jail at Sherbooke, Va., and placed in the hands of the immigration authorities, crowds of Canadians thronged the sidewalk in front of the courthouse and the steps of the building. They cheered Thaw as he entered and waved their hats. They seemed to be with him to a man in his fight against the New York law which would deprive him of his citizenship. They were cheering for him to win his fight against the New York law which would deprive him of his citizenship.

**Many in Field.**

Soon the focus began to give way beneath the load, and a fast as a gap appeared the crowd would come crashing unchecked. There were uncounted thousands of people who gathered in this way. Then it was "Ladies' day," too, and the fair fans were there in goodly numbers.

All told, there were full 15,000 people who saw the game, and never before has there been witnessed such a scene in the entire history of the Southern league. **Shocks Cunningham as He Goes to Her Aid—Was in Bath Room.**

Athens, Ga., September 5.—(Special.)—Mrs. W. A. Cunningham, wife of the manager of the University of Georgia, was killed by an electric shock in the bathroom of their home on Chestnut street at 10 o'clock tonight.

She stepped into the bathroom for washing and Mr. Cunningham heard her fall. He entered the room and found her unconscious. He was also shocked severely as he tried to turn on the light and from that shock died. The cause of her death, it is believed, was a gas leak in the bathroom. Physicians worked for an hour and there was at first a deep breath, but no other sign of life was noted. The cause of the heavy voltage on the incandescent light cannot be explained till further inspection of the outside wires and gas can be made.

City Recorder Nash R. Broyles is the foremost authority on crime and crime conditions in the city of Atlanta.

One thing noticeable upon my return to the city of Atlanta is the fact that the city is in a state of excitement over the fact that it is next to impossible to detect and to prevent in handling cotton without detection and punishment.

Unless the department of justice has been more active than it has been in the past, the enforcement of the act has thus far been confined to a few sensational cases, such as the one now on trial, not to mention the unspeakable "Jack" Johnson case.

WHY COTTON IS MASTER.
The southern farmer raises cotton by force of habit. It has come to be regarded by the thinking as the only money crop of the south.

SMITH FAILS IN FIGHT ON COTTON FINANCIAL TAX.

The Return of Senator Newlands Brings Relief to Minds of Administration Leaders.

Washington, September 5.—Senator Francis G. Newlands of Nevada, whose stand on the tariff bill had caused his Democratic colleagues some concern, brought relief to the minds of administration leaders upon his return from the west today. The Nevada senator, though determined to make a fight within the party lines, assured his colleagues that he would stand by the bill as it reached the senate.

Senator Simmons, chairman of the senate committee on Finance, declared that he would not seek to limit Senator La Follette in his discussion of the textile schedule and that the bill would go to a vote Saturday night.

Senator Smith, of South Carolina, failed in the democratic caucus to notify the proposed tax on cotton futures.

Income tax differences within the majority were settled with an agreement compromising between the highest rates on large incomes advocated by the original democratic managers.

In the senate Senator Brady of Idaho, opposed free trade in all cotton sold for future delivery, the tax to be refunded when deliveries actually are made.

Senator Thurston discussed the provision which would admit cigars free of duty from the Philippines, contending it would not be a source of cheap labor to compete with that of American workmen.

Work was resumed on re-commissioned portions of the bill, and Senator Williams submitted a substitute for the inspection portion of the bill.

Senator Williams submitted a substitute for the inspection portion of the bill, and the senate approved by the senate provision that no meat shall be imported unless certified to have been free from animals free from disease.

OFFICIAL WASHINGTON WAITS INCLAN'S ARRIVAL

Disposition Is to Receive Envoy Favorably—May Want to Float Big Loan.

Washington, September 5.—Development in the Mexican situation probably will await the arrival in Washington of Manuel de Zamacoia y Insua, personal envoy of the Huerista government, to continue with the Huerista administration the negotiations begun by John Lind, personal representative of President Wilson in Mexico.

Some of the United States officials feel that the United States has made its position sufficiently clear through the actions conducted by Mr. Lind and the disposition of President Wilson to Congress.

## CURRENCY REFORM IS FEASIBLE, SAY BANKERS

Washington, September 5.—(Special)—Bankers assured the senate banking and currency committee today that they thought any problem of credit contraction resulting from the operation of the pending administration currency bill could be worked out so that the country's business would not be seriously affected.

The possible operation of \$1,000,000,000 in the present structure of bank credits was given by James B. Forgan, president of the First National bank of Chicago, as his estimate of the reduction that would result if made in present loans to meet changed conditions.

"If we don't want to scare any one," he added, "this doesn't mean that the thing cannot be worked out. This is simply the amount of contraction that would seem to have to take place to continue the banks on their present condition of credit."

Mr. Forgan, George N. Reynolds, of the Continental and Commercial bank of Chicago, and former Representative E. J. Connelley, took part in the presentation of the bankers view throughout the day.

Mr. Hill emphasized what he called a "fatal defect" the fact that the bill did not make the banks responsible for the issuance of notes and relieve the government of the present condition. Reynolds criticized the features requiring compulsory membership in the national reserve bank and the representation on the federal reserve board.

Mr. Forgan gave figures to demonstrate that under the present banking conditions 18 of credit is given throughout the country on the basis of actual money reserve. He estimated that the banks on their present condition serve were transferred to the national reserve banks notwithstanding the district consists because the purposes of the reserve from the region banks, loans and deposits will have to be reduced by \$1,000,000,000 to maintain the existing credit ratio of 35 to 1.

**Attack on Bankers.** Mr. Hill said no other nation had attempted to make itself liable for the payment of notes issued by the banks and insisted the government would find it impossible to secure an adequate reserve for the purpose of its attempt to supervise the issuance of notes. He said the banks would become final judge as to the individual credit of every bank borrower in the country.

"It was a mistake, he said, to make the national banks liable for the instant payment of their notes. It is a burden through any other regional bank. He advocated notes being guaranteed by the regional banks and payable in gold only at the bank of issue.

## BREAU WILL OPEN ON THURSDAY NEXT; MANY IMPROVEMENTS

Gainesville, Ga., September 5.—(Special)—Breau college conservatory of music, a new building, was opened Thursday morning. The advance registration is the largest in the history of the college, and students are expected from nearly every state in the union.

Dr. Henry G. Hancock is the new department of theoretical music. The department of science has been divided and Miss Ruth Carr, graduate of Simmons college, Boston, Mass., becomes professor of biological sciences, while Dr. E. H. Murfee continues at the head of the science department and professor of the physical education.

The modern language department has also been divided. Miss Leonora Lucas, graduate of Bryn Mawr, and student for several years in Europe, becomes professor of romance languages. Miss Irene Starkins continues in the language department as professor of Germanic languages.

**EUFALA MAY HAVE OWN PUBLIC HOSPITAL**

Eufaula, Ala., September 5.—(Special)—A movement has been launched here to have a public hospital for Eufaula. As the public schools are outgrowing their present quarters, it is proposed to move both the high school and the grammar school to the old Alabama Branch buildings on College hill, which have not been used since the college closed two years ago.

The public school buildings, one a two-story brick structure, and the other a one-story building, would then be remodeled for hospital purposes. Remodeling will be done by one of the buildings if the change is made, and this will be a vote of the people, if the city council first gives its assent.

One of the college buildings is owned by the city, the remainder by the city and the Masonic and Odd Fellows lodges. It is thought that the city will give their assent readily to the project, but the city council has already signified their readiness to subscribe toward an endowment fund for the hospital.

**ATTEMPT MADE ON LIFE OF JAPANESE MINISTER**

Tokyo, September 5.—An attempt was made today to assassinate Moritomo, director of the political bureau of the Japanese foreign office. He was stabbed in the abdomen and is suffering from a serious wound.

The attack came while Mr. Abe was leaving home for the office at 10 o'clock yesterday. He had reached a point opposite the American embassy when a man stepped from the crowd and toward him. One of them seized him by the shoulders, while the other lunged at him with a sword. Mr. Abe was thrown to the ground and his arm was cut. The motive for the attack is not known, but there is a tendency to attribute it to the political excitement here caused by recent attacks on the Japanese foreign office.

Gulls were like babies before his masterful pitching.  
**Chapman's Great Work.**  
Harry Chapman's catching was the greatest piece of defensive work ever performed by a base runner on the local field, no matter what his position. Three times he backed up first base on throws to that bag and when one of them got away, he threw Charlie Starr back to the bag and he was in the field when that Chapman was there until they saw the ball go hard back to the pitcher.

**Must Win Today.**  
The Crackers have tied the Gulls for the pennant. Today's game must be won at any cost. It is up to the fans who have rallied so nobly to the team to strike with them again today. Every fan that was out Friday ought to be on hand again this afternoon.

**Team's Great Start.**  
The Crackers have fought a wonderful uphill battle. They are tied with the Gulls for the pennant. They are tied with the Gulls for the pennant. They are tied with the Gulls for the pennant.

**Home Record.**  
Twenty-seven games have been played. The Crackers won 15, lost 5 and tied 7. They opened up the home-tie very inauspiciously by losing three, winning one and tying one to the Lookouts.

**Continued From Page One.**  
The Crackers started scoring in the first inning. Agler was out on a hard-hit ball. Miller scored on a beautiful play on the rag. Tompkins popped a high fly to Stock. Schmidt hit a double. Starr got a free kick.

## BARONS SIGN MOLEY FOR NEXT SEASON

Birmingham Mogul Will Make Many Changes in the Club's Personnel Next Year.

Birmingham, Ala., September 5.—(Special)—Manager Carlton Molewirth will be retained by the Birmingham club as leader in 1914. Although it was expected, official announcements were not made until this morning. It will be his fifth year as manager. There are 11 directors among the directors in regard to Molewirth's retention.

## NATIONAL LEAGUE

**Reds R. Cubs 4.**  
Chicago, September 5.—Cincinnati today hit the local pitcher expertly and won the first game of the farrow-off series 2 to 0. The visitors were helped by the loose playing of Evans men.

**Giants S. Dodgers 6.**  
New York, September 5.—Brilliant pitching by Demaree and Dorn led to a return by the locals to their mid-season batting and base running form. Led on an easy victory for the first time in the third game of the series with Brooklyn today. The score was 6 to 0. The game was played through a drizzle and it was as dark as the night when the game was called off.

**Phillies L. Braves 4.**  
Boston, Mass., September 5.—Only a full run was scored in the Philadelphia and Boston teams today, the visitors winning the first game of a double-header series by a score of 4 to 0. The game was called off at the end of the tenth inning.

**White Sox L. Browns 6.**  
St. Louis, Mo., September 5.—The Athletics of Cleveland today afternoon while Chicago bunched two runs in the first inning. The score was 6 to 0. The game was called off at the end of the tenth inning.

## Chattanooga May Send Special Trainload Today

It was reported yesterday that the Chattanooga team were going to call a special excursion to Atlanta today in order to bring their roots to the local fans.

ATLANTA'S BIDES FROM DAY TO DAY

All the News of Real Estate and Building.

Prospects for building fall business in the real estate field look good, according to local observers.

One indication that leads to this is the fact that the purchasers of lots in subdivisions opened four or five years ago...

There are any number of contractors in the city who make a specialty of building homes on easy terms.

Several of the best real estate agencies are busy at the present time, arranging for late fall leases.

First Presbyterian Church. The board of deacons of the First Presbyterian church is still discussing the disposal of the church property on Marietta street.

Building Permit Granted. Mrs. A. H. Fuller has been granted a permit to construct a two-story brick store at No. 100 West Peachtree street.

Warranty Deeds. 8000—Charles F. Williams to H. Smith et al. in north side south west corner 20x20 lot.

FIRE CHIEFS OF UNITED STATES IN NEW YORK

Fire chiefs from every big city in the country and from many smaller ones assembled in New York for the forty-first annual convention of the International Association of Fire Chiefs. The purpose of the convention each year is to advance fire fighting by listening to addresses of experts and to the interchange of facts gained by experience. Fire Commissioner Joseph Johnson and Fire Chief John Kenlon of the New York department acted as hosts to the fire chiefs. Everything that is up to the minute about the New York department was shown to the visitors. New automobile apparatus was shown in action, and agents of manufacturers of fire fighting devices from America and Europe were on hand to explain their various inventions. While the chiefs were here the firemen's monument on Riverside drive was unveiled.

NEW HEAT RECORDS ARE ESTABLISHED IN WEST

Kansas City, Mo., September 5.—New September heat records were established in parts of Kansas and Oklahoma today and unusually high temperatures prevailed. In Kansas the average maximum temperature was well above 100 degrees. At Junction City the mercury climbed to 105, within a degree of the season's record. A new heat record for the year was established at Lawrence, where the government thermometer registered 105.1. This was the hottest September day on record at Topeka, the temperature there showing 102. The danger of fire is so great that the Union Pacific railroad is burning every tuft of grass and brush along its right-of-way in Kansas.

RICE TELLS WOMEN ABOUT USEFUL BIRDS

Henry Rice, field agent of the Audubon society, made a brilliant address last night before a large audience at the Atlanta Women's club on "Useful Birds of the World." Mr. Rice was given the clearest attention all night and his address was pronounced one of the most interesting heard this year. He has sent a letter to the Constitution in which he declares that his speech on Thursday night was incorrectly reported where he was quoted as telling farmers that "scuffling" is a bird.

MUTUAL LIFE AGENTS CONVENE IN ATLANTA

Sixty Georgia representatives of the Mutual Life Insurance company of New York attached to the Atlanta General agency of the company under Colonel Robert F. Shelden will begin a two days' convention at the Hotel Ansley at 10 o'clock Monday morning. The principal social feature will be a brilliant banquet on Monday evening. J. A. Jackson, instructor of agents from the home office, and other officials of New York will be guests of the convention.

SOCIAL MEETING HELD BY THE OLD GUARD

A social meeting of the Old Guard was held at the University club last night. Clara and her companions were the order of the evening and quite an enjoyable time was spent by the members.

School Opening Delayed

Waycross, Ga., September 5.—(Special)—The public schools of Waycross will be opened September 11 instead of on September 8, as decided by the board of education in June. The delay of a week was made necessary by the work on the new high school building. Registration of pupils will begin September 11 and Superintendent Miller has made preparations to handle this feature of the school work with ease.

District School to Open

Tifton, Ga., September 5.—(Special)—The fall term at the Second District Agricultural and Mechanical school will open Wednesday. Much preparatory work has been done during vacation. A site has been built, the girls' dormitory calculated and furnished with new mattresses. Over forty applications from students have been received and prospects are flattering for a full attendance.

FOURTH GIN ACCIDENT PROVES FATAL ONE

Dublin Man Dies From Injuries, Three Others Hurt During the Same Week. Dublin, Ga., September 5.—(Special)—M. D. Templey died last night from the effects of wounds received in the fourth gin accident here, in which his arm was horribly mangled and he was injured internally. Mr. Templey was removing some seed that had gathered inside the gin near the saws and in some manner his hand reached too close and was drawn into the rapidly revolving saws. His entire arm was cut and lacerated, and the saws cut into his body near his heart, severing the cords and muscles around that organ, which was the direct cause of his death. Every effort was made to save him, but nothing could be done. He had been a resident of Laurens county for about eight years, coming here from Johnston, S. C., to take a position with W. R. Arnold, who he leaves a wife and several children. A father in South Carolina and a host of friends in Laurens county who regret keenly to learn of his death. His remains will be interred in Northville cemetery in this city Saturday.

Proctor Speaks Sunday

At the First Congregational church, colored, at Houston and Courtland streets, Rev. H. H. Proctor, pastor, will preach at the morning and evening services. In the evening Dr. Proctor will give an address on his trip in New England. Special music will be given by the choir. The speaking school opens September 9 in the Avery Congregational home. Ten lessons will be given for 40 cents.

LONG TIME LAST HOUR OF THE MARKET

Cotton Prices Dropped About Two Dollars Per Bale from the Report From Washington

THAT SENATE CAUCUS APPROVED CLARKE BILL

Market Closed Feverish at Net Loss of 30 to 42 Points. Market Had Rallied From Early Loss.

New York, September 5.—The cotton market was thrown into a state of commotion by a panic in the late session, owing to reports from Washington that the democratic caucus had approved the proposed 100 percent tariff on one-third of the cotton market. It had been more or less nervous and unsettled before the Washington news was received, but early losses had recovered and the market was fairly steady, with prices a shade above last night's closing prices at the early afternoon. This was changed, however, when the renewed fear of adverse legislation, and in the last half hour cotton advanced sharply from all directions.

Prices broke fully \$1 per bale from the last point of the day and the close was feverish at a net loss of 30 to 42 points. Later advices from Washington were rather more favorable, indicating that the proposed law had only been approved after a sharp debate in caucus and predicting that the bill would meet strong opposition in conference; and after the New York close, there was a sharp rally in New Orleans, where prices had also suffered a sensational break.

The opening here was at a decline of 9 to 13 points under realization and in sympathy with relatively easy cables. Liverpool reported that the market there had been influenced by a moderate falling as contrasted with the market in New Orleans, where cotton was selling freely yesterday on an easier basis. There was a good demand on the detailed weather report, after selling about 15 to 20 points net lower during the morning. The market rallied, on the detailed weather report, showing continued dry but weather in Oklahoma, renewed bull support, trade buying and covering of shorts.

Prices not only recovered the early loss, but sold at a higher price, and the demoralization of the last hour was attributed directly to the unexpected influence of the pending tax bill.

GRAIN MARKETS: Profit-Taking Caused Wheat to Lose 3-8 to 1 Cent—Corn, Oats and Rye Lost 1-4 to 3-4 Cent.

Chicago, September 5.—Disappointing cables caused wheat bulls today to lose courage. The market was nervous at the finish with prices down 3-8 to 1 cent. Corn closed 3-4 to 1-2 cent off and oats at 1-8 to 3-4 cent decline. The outcome in provisions varied from 10c loss to a gain of 3c.

Holdings of wheat showed a pronounced disposition to hold profits and to slow. Foreign notices, especially from Liverpool, were very strong as regards the view of the sharp uptick yesterday on this side. It was explained that Russian offers were more liberal and that there was increased selling pressure from Canada into Minneapolis. Duluth sent word of generous arrivals and it was evident that the market still attracted the attention of the new crop. Apparent exports of wheat acted as a decided drag after the Chicago market.
