GIANTS ROUTED BY YOUNGSTER

FREES 1-HR. BRIDE AS PARENTS OBJECT

Unique Testimony in an Unusual Divorce Case—Husband Com-mended by Court.

One of the most unusual divorce cases on record was aired before Judge Ellis Thursday when Robert A. Harper testified that he had willingly relinquished his bride of an hour because the girl's parents thought it best. The court warmly commended Harper for his course.

Judge Ellis' words are calculated to cause much joy among parents who are opposed to the love affairs of their offspring.

Mrs. Bertha Dickenson Harper, the plaintiff in the case, was given a first verdict for total divorce as a result of her husband's dutiful "desertion."

The case was perhaps one of the most interesting in the history of divorce proceedings in Fulton County courts. The defendant, who is barely 22 years old, was ordered to take the stand to testify as to the merits of his wife's suit for divorce.

Young Harper verified the arguments set forth by his youthful bride, who is very pretty, and told the court that he thought it best to separate from his wife immediately after the ceremony because of the opposition of the parents.

The separation, it was stated, followed a family conference held at the home of the girl's parents shortly after the ceremony had been performed.

Following the testimony of Harper, Judge Ellis, addressing the jury, commended the young man for his action, stating that he did the wise thing to yield to the wishes of the parents and leave his bride before further entanglements.

The Harpers were married in March, 1908, without the consent of the girl's parents. Harper was represented by Attorney W. M. Smith.

Blames Mother-in-Law For Troubles; Gets Divorce.

Charging his mother-in-law with breaking up his home, L. C. Thurman was granted a divorce before Judge W. D. Ellis, of the Superior Court, Thursday.

Thurman charged that, at the instigation of his mother-in-law his two daughters, aged 7 and 9 years, went before the Grand Jury and testified falsely against him when he was fighting indictments charging felony. He alleged that the motive was to gain possession of valuable property he owns in Texas. The indictments were found, Thurman said, but later nolle prossed.

It was alleged that Thurman's mother-in-law endeavored to instill into his wife's mind a doctrine of no divorce and no hereafter.

Thurman said his mother-in-law had been married five times, four of her husbands being still alive. The fifth, he declared, died under mysterious circumstances.

President Wilson May Be Invited to Speak in Atlanta

The Chamber of Commerce probably will extend President Wilson an invitation to stop over in Atlanta a few hours on his way to the Southern Commercial Congress at Mobile.

The President is due to pass through Atlanta late in the afternoon of October 26, and it is hoped to get him to stop off here and deliver a short address and be the guest of the Chamber of Commerce at dinner.

The board of directors of the Chamber will hold a meeting Thursday afternoon at 4 o'clock, when the question of extending the invitation will be taken up.

Graft Charges, Made By Club Manager in \$20,000 Suit, Denied

MIAMI, Oct. 9.—Complete denial is made by officials that the Seminole Club, which was raided last March and gambling paraphernalia confiscated, was ever promised protection by the city or county, although Matthew M. Allen, who has brought suit for \$20,000 damages because he was not allowed to operate the club, claims he has receipts showing he paid \$12,000 monthly as hush money prior to the raid.

Allen says the club was closed because he would not pay graft, when business fell off after the tourist season.

Three Slayers Among Eighty-Two Indicted

BIRMINGHAM, Oct. 9.—The Grand Jury this afternoon before taking a recess returned 82 true bills.

Mrs. Priscilla Lutes Butler, accused of killing her husband recently at Woodlawn; Gid Weaver, who shot and killed Dr. Frank Walton at Wylam, when he returned home and found him in the house several weeks ago, and Ed Ellis, gambler, who shot and killed William Louis Roney, of Montgomery, on Second avenue here three months ago, were indicted for murder in the second degree.

Fourth Presbyterian Pastor Leaves Macon

MACON, Oct. 9.—The resignation of the Rev. C. B. Currie, pastor of the East Macon Presbyterian Church, marks the fourth recent change in the pastors of local Presbyterian congregations. Mr. Currie becomes pastor of the churches at Port Valley and Perry.

New pastors who have just taken charge of their respective churches are the Rev. James H. Owens, at Vineville; the Rev. W. S. Milne, at Jeff Davis, and the Rev. L. L. Curtis, evangelist for the Macon Presbyteries.

Shrieking Sirens Warn Against Fire

MEMPHIS, Oct. 9.—Local citizens to-day thought the whole town was on fire when shrieking sirens on automobile fire apparatus were heard all over the city. They learned it was a novel plan of the City Commissioners to advertise fire prevention day.

Fire apparatus formed a parade speeding over the city, tooting and shrieking, full tilt. Each machine in the long line bore banners urging people to clean up their property and remove all rubbish.

Grand Jury Is Probing Alleged Liquor Sales

CHATTANOOGA, Oct. 9.—The Hamilton County Grand Jury is to-day investigating the alleged sale of liquor by local dealers to members of a law and order committee formed here some time ago.

One of the members who appeared before the inquisitorial body had a package said to have contained several bottles of liquor purchased on side streets.

CHARGES PER JURY TO GOV. SULZER

Judge Alton B. Parker, in Im-peachment Arguments, Bitterly Arraigns Executive.

ALBANY, N. Y., Oct. 9.—Judge Alton B. Parker, in the course of a bitter arraignment of Governor William Sulzer before the court of impeachment this afternoon, declared that the Governor had knowingly sworn to a lie when he reported only \$37,400 of proven contributions.

He riddled the Sardecky testimony, declaring it unworthy of belief, and said that the Governor must indeed have been proud of his pupil when he read the report that omitted all of the contributions from the great interests, the liquor dealers or the politicians included in it, and he added:

"The man who read that list, and examined it, knew it was not true. It does not help him for the boy to say he did the best he could; his master knew it was a lie."

For more than two hours Louis Marshall, speaking in defense of Governor Sulzer, attacked the right of the court of impeachment to convict the Governor upon charges that related solely to things transpiring before his term of office began.

In a powerful speech, in so far as its technical legal force was concerned, the attorney hammered this fact at the judges of the high court.

"All of the meat in the impeachment hangs about the one offense of making a false campaign statement which was rendered before the Governor's term of office began, and the court is without power to punish for an act which does not involve official misconduct in office," he said.

A verdict is expected next Monday or Tuesday.

36 Reported Hurt In Louisiana Wreck

NEW ORLEANS, Oct. 9.—Thirty-six persons were injured, twelve seriously, to-day when a New Orleans and Northeastern excursion train jumped the track near Winnboro, La.

The train was loaded with several hundred persons en route to a circus at Natchez, Miss.

Blind Tiger Caught in Early Morning Raid

When two policemen at 2 o'clock Thursday morning saw a cab stop in front of No. 206 1-2 Peters street they peered through a window and saw W. A. Cox delivering a bottle of whisky.

Cox was arrested and a quantity of liquor was seized. Recorder Broyles gave Cox 29 days in the stockade.

BIG DAIRY CONCERN
 GADSDEN, ALA., Oct. 9.—Articles of incorporation of the Attalla Dairy Company were filed here to-day. The company has a capital of \$10,000 and has leased 400 acres of land to be stocked with 200 head of cattle.

American Is Robbed By Mexican Bandits

MOBILE, Oct. 9.—Two more Americans, reduced to distress by the civil war in Mexico, have arrived here. They are Luther Wilhoit, of Cleburne, Texas, a railroad man, and William Battman. Wilhoit says he was robbed of \$1,100 by Mexican bandits, representing themselves to be federal soldiers, while trying to get out of the country in obedience to the advice of the American State Department. He was captured by the rebels in a half-starved condition, after being robbed.

Augusta Again Will Try to Sell Bonds

AUGUSTA, Oct. 9.—Mayor Hayns announced to-day that the third installment of city of Augusta flood protection bonds would be advertised at once and bids will be opened early in November.

These bonds were offered for sale in August, but the condition of the money market was such that no attractive bids were received and the bonds were withdrawn.

Mrs. George Gould's Cousin Seeks Divorce

DURHAM, N. C., Oct. 9.—Mrs. Fannie Debban to-day filed complaint in a suit for divorce and alimony against W. K. Debban, a prominent tobacco buyer of Durham, alleging cruelty.

Mrs. Debban is a first cousin of Edith Kingdon, the actress, who married George Gould.

Girl Burns to Death In Locked Apartment

DECATUR, ALA., Oct. 9.—With her clothing burned entirely off and her body charred, Miss Liddie Richardson, 25 years of age, was found dead on the floor of her room here last night.

People near by who heard her screams rushed to the room and, finding the door locked, broke it open. It is presumed Miss Richardson had attempted to light an oil stove, when her clothing caught on fire.

His Little Joke on Police Cost Him \$15

W. E. Harrison, No. 478 Courtland street, telephoned the police Wednesday night that bandits had held up and robbed two officers at Peachtree and Merritts.

Call Officers Watson and Jones, suspicious of the message, learned from "central" that the call came from No. 478 Courtland. There they found Harrison. Recorder Broyles imposed a fine of \$15.75.

Former Atlantan Drowned in Ohio

News has reached Atlanta of the drowning of Eric Parr, formerly of Atlanta, in Cincinnati Wednesday.

Parr has two sisters in Atlanta—Roberta and Eunice Parr—and one brother—Calvin Parr, of Savannah. The body will be brought to Atlanta for burial.

Postoffice Robbers Blow Luella Safe

Robert E. Barry, United States Postoffice Inspector here, Thursday received a dispatch from the postmaster at Luella, near Griffin, Ga., that the postoffice at that place was entered early Thursday morning, the safe blown and several hundred dollars' worth of stamps secured.

MAYOR BOOMED FOR SENATE.
 ANNISTON, ALA., Oct. 9.—A movement was started here to-day to get D. C. Cooper, Mayor of Oxford and President of the First National Bank of that city, to run for the State Senate. He has not intimated whether or not he would accept a nomination.

BIG JEFF TESREAU IS HIT FREELY, BUT BUSH BEHAVES LIKE CHAMP

By BILLY SMITH.
 Manager Atlanta Team.

POLO GROUNDS, NEW YORK, Oct. 9.—The game to-day wasn't much of a game—not after the second inning.

The Athletics simply piled up a big lead and copped, 8 to 2, in a regular romp over Jeff Tesreau, while Bush, the first of Mack's youngsters to start, pitched like a champion all the way. And the Athletics certainly can hit fast pitching.

That was all there was to it. Bush was good and Tesreau wobbled, while Bush's support was fine and Tesreau's wobbled right at the start, which is the crucial time of the game, to my way of thinking.

Right off the reel, the heavy artillery began working on Mr. Tesreau. Murphy was out, but Oldring, with two strikes on him, singled to center. Then Collins, also with two strikes on him, rapped a single to the same place and Rube went to third. Tesreau's control was good—too good, I guess, for he promptly got two strikes on Frank Baker. Then Frank singled past Fletcher and there was a run over. While McInnis was at bat Baker and Collins pulled a double steal, putting them on second and third. Stuff fanned, but when Strunk hit to Fletcher that unlucky young man heaved the pill ten feet over Merkle's head and two runs came over.

The game was really settled right there, but nobody knew it. So the Mackies came right back in the second frame. Schang and Bush were easy outs, but Murphy, Oldring and Collins shot off singles in a row, and there were two more runs to give Mr. Bush confidence, if he needed it.

Mr. Bush didn't seem to need the confidence, the way he was going. He wobbled a bit in the fifth and again in the seventh, a walk and a steal by Murray being followed in the fifth by McLean's single through Baker, while Shafer's double in the seventh was followed by Murray's single. Murray tried to steal with one out and the Giants five runs behind, which was bad judgment, and anyway he was pegged out by Schang, who caught a fine game.

On the only other occasions when danger threatened Bush, double plays stopped the attack dead.

Merkle was at first base again, but didn't figure much in either attack or defense. McLean caught well and produced a pinch hit. But the big bats of Oldring, Collins, Baker & Co. were rapping away and that was all there was to it.

As a result of to-day's victory, Connie Mack's team has a big edge on the series. The next game will be played in Philadelphia and Chief Bender will be on the mound again, while this time it will be McGraw who has to do the keen thinking, unless he plans to take a chance on Marquard.

The official attendance was 35,000, a much larger crowd than that which saw the second game in Philadelphia. It was also a much sorer crowd, or I'm no judge.

This Is the Way the Giants Lost Another to Mackmen

FIRST INNING.
 With one ball and a strike on Murphy, Fletcher took his bouncer and retired him at first. With two strikes on him, Oldring singled sharply to center. With two strikes called on Collins, he hit a single in the same place, Oldring reaching third. Baker missed two swings and then singled past short. Oldring scoring and Collins stopping at second. Collins and Baker worked the double steal, landing on third and second, respectively. McInnis fanned and the crowd roared, McLean dropping the last strike and throwing him out. Big Jeff's control lever slipped and he wheeled up three balls in a row. Then Strunk fouled one, missed another, and then grounded to Fletcher, who threw the ball over Merkle's head. Collins and Baker scored and Strunk went to second. Barry fled to Murray. THREE RUNS, THREE HITS, ONE ERROR.

SECOND INNING.
 Schang fanned, baffled by Tesreau's jumping spitter. Bush swung once and then fled to Murray. With two strikes and two balls called, Murphy singled to Fletcher, who got the ball too late to make a play. Oldring hit the first ball for a single to right, Murphy taking third. Tesreau seemed to be losing his smoke. Oldring stole second unholstered, after which Collins singled to center, scoring Murphy and Oldring. Baker forced Collins, Doyle making the play unassisted. TWO RUNS, THREE HITS, NO ERRORS.

With one strike on Shafer, Collins tossed him out on an easy grounder. Murray fled to Collins and McLean came to bat. The Scot swung twice, fouling one, and then fouled to

BILLY SMITH PICKS DEMAREE FOR THE GIANTS

JULIERS SUNDAY RICHMOND BANKERS' MEET

Elloquent Plea Extolling Virtues of Mint in "Wet" Town Defeats Atlanta.

ATLANTA, Oct. 10.—The fragment of the mint bill lost Atlanta's support at the convention of the American Bankers' Association. That is the charge of opinion among the delegates here today.

The tedious session, whose purpose was to vote on the bill, was held at the Richmond, Va., hotel, and the convention city of Atlanta admitted the gathering and practically delivered.

After reviewing yesterday's action, it appears almost unbelievable that a body of coldly calculating, unemotional bankers should be swayed by sentimental argument, but the fact remains that at the meeting of the South's most famed bankers the bankers were stampeded. This Atlanta lost.

How It Happened.

Here is how it came about. Atlanta had made a valiant fight. Her delegates ably had been presented by John K. O'Leary. His remarks were seconded by Ed Weller, of New Orleans. Other good speakers from the South followed. Victory was hovering on the banners of the O'Learys. There appeared no hope for any of the rival cities.

Then Thomas B. McAdams took the floor for Richmond. The delegates, out of courtesy, were willing to listen to him, but they did not propose to change their minds in the least. They decided irrevocably upon Atlanta.

Mr. McAdams conceded to Mr. O'Leary all of the claims he had made in Richmond. He was more than twice confirmed in their selection of the city.

"But" he added—and here, the bankers began to take some interest in his remarks—"Richmond has all the advantages of this Southern city and one thing else."

"What could it be?" Every separate banker stirred in his seat and sprang up to his respective care.

"It is the highways and byways of the Virginia valley." This was enough. There was a struggle. Atlanta did give up without a fight. It received two votes, but the mint jumpers were so numerous that they were able to carry the vote.

The convention which had been held in Richmond, Va., was held in Atlanta, Ga., and the mint jumpers were so numerous that they were able to carry the vote.

Praises Heard Pages.

The bulk of Georgia delegates, following the cutting of the mint bill, will leave for their homes to-day. But Atlanta has not yet heard the end of the fight, or any of the statements, at the close of the convention.

At the close of the convention, Mr. O'Leary said: "I am sorry that we were defeated. We would win. The Richmond people put up a bitter fight on the floor of the convention and I congratulate Richmond. I want to see the Hearst papers. I want to see the Hearst papers. I want to see the Hearst papers. I want to see the Hearst papers."

ENGINEER KILLED IN WRECK.

SUNSHINE, Pa., Oct. 10.—An Erie freight train today when it crashed into a string of coal cars, killed the engineer and injured several others. The train had just come from the west and was carrying a load of coal. The wreck was crushed and died soon afterward.

Women in Organized Gang of Thugs, Say Police; Crusade on

Clyde Cox Goes Free By Quick Verdict

Complaints of hold-ups and burglaries in which women figures are pouring into headquarters so fast the detective department is swamped, and the police Friday morning started a systematic effort to break up what they say is the most unusual gang of night-walkers that ever plagued Atlanta.

The police believe the gang is composed of both men and women, most of whom are negroes. Several robberies have been reported lately where a negro held up the victim at the point of a revolver, while a negro woman went through his pockets. It is thought there are at least half a dozen women in the gang, as no two of the descriptions turned in by victims have been the same.

J. R. Bracwell, No. 254 Courtland street, is the latest victim of the gang. He was held up and robbed of a watch and \$150 in bills before midnight Thursday, on Courtland between Cain and Harris streets.

Find Woman's Hand In Bay; Crime Scented

NEW YORK, Oct. 10.—With the finding of a woman's hand in New York Bay today, the police are confronted with another mystery similar to that of the case of Anna A. Muller, to whose murder "Father" Hans Schmidt confessed.

The hand was seen from a ferry boat, picked up and turned over to the coroner of Richmond County. Anna A. Muller's body was dismembered and cast into the Hudson River.

Death Hovers Over Tombs Ordinaries

LYONS, Oct. 10.—The special election to fill the vacancy in Tombs County Ordinance's office, caused by the death of Judge J. Lawson Wilson, resulted in victory for Judge Simon P. Smith over four rival candidates.

This was the third vacancy in the Ordinance's office caused by death within the last two years. Judge George T. Mason died November 3, 1911; Judge Dan T. Gibbs, September 10, 1912; and Judge Wilcox, September 18, 1913.

Many 'Moonshiners' Revenue Men Busy

The open season for moonshiners has begun, and Government hunters report the game unusually plentiful, especially in the mountains of North Georgia. Several revenue men who have been up in the mountains have returned with good bags, and the county jail is harboring between twelve and fifteen lanky moonshiners with a wonderful knowledge of corn whiskey and a supreme disregard for the law.

Quits City Post to Avoid Reprimand

After twenty years' service, William S. Vining, an inspector of the city water works department, has resigned his place rather than submit himself to a reprimand because he accepted pay for doing his half day's work. He said he had done the work on his own time. Vining is eligible to a pension under the city charter, and could have received his half day's pay. The stipend probably he will apply at once for his pension.

LAST SHRED OF SUICIDE DEFENSE GONE

Governor Unmercifully Lashed by Prosecutor as Impeachment Trial Nears End.

ALBANY, N. Y., Oct. 10.—Judge Alton B. Parker lashed Governor Sulzer unmercifully today, the last of the great impeachment trial.

"Even justice must see through his fever eyes something pathetic in this defendant's frantic efforts to cover up the nakedness of his wrongdoing," he began, declaring Sulzer now "stands naked before this court, without a rag of his attempted vindication clinging to his deformed and mutilated manhood."

D. Cady Herrick followed for the defense, claiming the court has no power to convict for offenses prior to Sulzer's taking office.

E. T. Brackett closed for the prosecution.

Lightning Hits Ship; Vessel Almost Sinks

MOBILE, Ala., Oct. 10.—When the schooner Wida L. of the Dunbar, Lopez and Duke fleet, was struck by lightning last night, near Blox, Miss., the entire crew was knocked senseless to the deck and a hole torn in the side of the vessel.

The crew recovered and patched up the stricken vessel, which managed to crawl into Blox this morning. Only fast work kept the vessel from sinking.

Figures \$7,500,000 Worth of Time Lost Watching Ball Score

Man Who Denounced Huerta Disappears

WASHINGTON, Oct. 10.—Seven and a half million dollars' worth of effort is expended by baseball fans watching the World Series results before the various scoreboards in the United States, according to J. S. Pengelly, of Ohio, a statistician.

He figures that two million men, worth an average of two dollars a day, spend two hours and a half each afternoon before the scoreboards.

For the series, Mr. Pengelly figures a total of 30,000,000 hours, or 3,750,000 eight-hour days.

Mr. Pengelly estimates that half a million watch the boards in Philadelphia and New York alone.

With the energy of those actually attending the games computed, Mr. Pengelly says the result would be astounding.

Man Who Denounced Huerta Disappears

MEXICO CITY, Oct. 10.—Senator Belisario Dominguez, who delivered a speech at a secret session of Congress on September 22, in which he denounced General Huerta as an assassin, has disappeared. He is believed to have been assassinated and his friends in Congress will demand an immediate investigation.

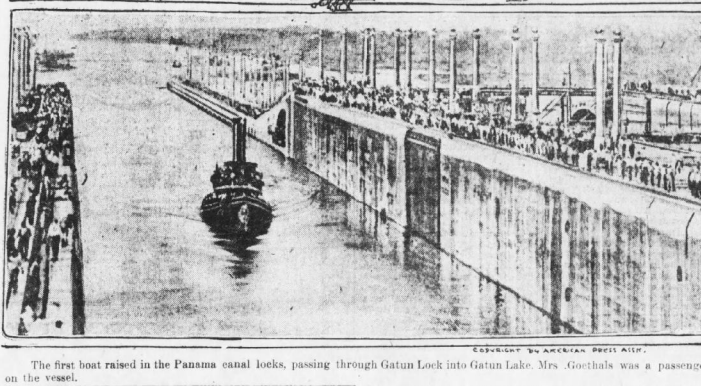

Generals Huero Munguia and Esquivel, the federal leaders, arrested because of the abandonment of Torreón, were brought here on a special train to-day from Sonora to stand court martial.

President Touches Button and 40 Tons of Dynamite Make Panama Canal Reality.

PANAMA, Oct. 10.—The Panama Canal is a reality. The waters of the Atlantic met those of the Pacific in the greatest of man-made waterways today when "Chuchacha" slide, or Gamboa dike, as it was known, the last obstruction separating the waters of the world's two greatest seas, was blown up.

President Wilson in Washington touched the button which set off the explosion.

There was a rumble as of a giant earthquake, a roar like the voice of a thousand pieces of artillery and a torrent of dirt and rock, as 40 tons of dynamite was exploded. The destruction of the slide allowed the waters of the Atlantic and the Pacific

Langworths See Event.

The index of trading waters which followed the bombardment of nature's mammoth minned with the charges that arose from United States army officers, canal workmen and sightseers who were stationed at a safe distance.

Among those who saw this epoch-making event in the history of the \$33,000,000 canal were former Congressman Nicholas Langworth, Mrs. Alice Rosewell Langworth and Phil (Big) Bonni-Vallin, chief engineer of the first canal company, who was the guest of Colonel Goethals.

The explosion was one of the final acts in the actual digging of the canal. One thousand holes had been drilled.

BILLY SMITH HAS IDEA SERIES WILL END THIS WEEK, UNLESS RAINS

By BILLY SMITH, Manager Atlanta Ball Club.

PHILADELPHIA, Oct. 9.—It looks like a big day to-day, at Shibe Park. The weather started off in better shape than any morning since the big series started, and the fans in this sleepy old town are stirred up for once in their lives. They were not very much excited by the Athletics winning the first game away from home, but the victory of yesterday seems to have them going.

Before going into yesterday's game, I will make a crack or two about the prospects for to-day.

McGraw has two choices for pitcher, Marquard and Demaree, and I don't envy him the business of making up his mind. Here is the Rub, who undoubtedly can pitch great ball under certain conditions, begging for a chance at the enemy again. And here is Demaree, who never has started in a world's series game, but who led the National league pitchers, also hoping he will have a chance to stop the American leaguers.

Now, I don't know just what to think about Marquard and his Mexican athletics. I sort of believe the fellow means all he says and is earnest in his statement that he can beat the Mackmen if given another chance. But he certainly hasn't had much luck so far, and he had no better luck in 1911.

On the other hand, Al Demaree is a youngster—but you must remember that a youngster of Connie Mack's did mighty well yesterday, and he didn't look nearly as good in the season's run as Demaree did.

And this Demaree is mighty confident. I can tell you. I had a long talk with him last night, and he told me he felt in his bones that he could lick the Athletics. It wasn't any "Mack" statement, either. The boy knows me pretty well and he was talking without knowing it might get into the paper. He was perfectly honest in his wish to start against Mack's club, and it is my firm opinion that if he does he will give a good account of himself.

Shawkey or Bender to Hur!

You know how Connie is about talking shop—he doesn't do it. He didn't open up a bit last night except to say something about Bush's showing being very gratifying to him, which I certainly think it should have been, and then some. So far as today's pick is concerned, I think it will be either Shawkey or Bender. Mack might figure that here is a fine opening for a youngster, working on his own lot, with a game to the good on the Giants. Then he would have the big ace in the hole for to-morrow in New York, either to pull out in front, if the Giants should win today, or to settle the series, if the old pitcher gets by with it.

Meyers Looks for Bender.

Chief Meyers and some of the other Giants fellows, are pretty certain they will have to face the Indians this afternoon. He was warning up all during the game yesterday, ready to jump in if Bush got into trouble, which he didn't. Mack may have reasons of his own for wanting to start Shawkey, maybe figuring that if Bender wins to-day he would have a better chance of confidence to-morrow, while it is quite possible that Eddie Plank is still in it.

Continued on Page 2, Column 1.

Here's the Line-up For To-day's Game

The line-up for to-day probably will be as follows:

Giants:	Atletics:
Goethals, 2b.	E. Murphy, 1b.
Leary, 3b.	W. O'Connell, 2b.
Shawkey, 4b.	W. O'Connell, 3b.
Shawkey, 5b.	Melvin, 1b.

Eloquent Plea Extolling Virtues of Mint in "Wet" Town Defeats Atlanta.

BOSTON, Oct. 10.—The fragrant and delicious mint jelly lost Atlanta its 1914 convention of the American Bankers' Association. That is the consensus of opinion among the delegates here to-day.

This invidious decision, whose purpose every true Southerner insists would divert the course of empire, was powerful enough to sweep the delegates to vote for Richmond, Va., as the 1914 convention city after Atlanta admittedly had the gathering planned and practically delivered.

While reviewing yesterday's activities, it appears almost unbelievable that a body of coldly calculating, unromantic financiers could be swayed by sentimental argument, but that is what remains that at the magic mention of the South's most famed delicacy the bankers were stampeded. This Atlanta loss.

How It Happened.

Here is how it came about. Heretofore Atlanta had been presented by John K. Otley. His remarks were lauded by Sol Wexler, of New Orleans. Other good speakers from the South followed. Victory was hovering over the banners of the Gate City. There appeared no hope for any of the rival cities.

Then Thomas H. McAdams took the floor for Richmond. The delegates, out of courtesy, were willing to listen though their minds in the least were not decided irrevocably upon Atlanta.

Mr. McAdams proceeded to Mr. Otley's all of the claims he had made in behalf of Atlanta. He was more than generous. The delegates were even more confirmed in their selection of the Georgia city.

But he added—and here the bankers began to take some interest in his remarks—"Richmond has all the advantages of this other Southern city and one thing else."

"What could it be? Every separate banker stirred in his seat and prickled up his responsive ears."

"And here it is."

Then exactly as the psychological moment, McAdams told them. It was the festive mint jelly!

There was an unadmitted whoop of appreciation. McAdams laid the significance of this overwhelming advantage stark into their consciences, and then he subtly suggested that if they came to Richmond they would not have to go to a club every night. He warned the bankers, not to be deceived by the highways and byways of the Virginia capital.

That was enough. There was a sharp short struggle. Atlanta did not give up without a fight. It required two votes, but the mint jelly argument won. The convention which a few seconds before had been almost unanimously of one mind for Atlanta had been changed like magic.

Prizes Heaped Upon.

The bulk of Georgia delegates, following Atlanta's routing at Newport News, will leave for their homes to-day. The Atlanta loss is the crowning of his lieutenant. At the close of the session Mr. Otley said:

"Up to the last minute I believed we would win. The Richmond delegates put up a bitter fight on the floor of the convention. I want to congratulate Richmond. I want to thank the Georgia delegates for their report. They aided us more than I can explain in this interview."

Citizens Declare Promoters Deceived Them With Promise To Cut Rate.

Charging gross deception on the part of representatives of the new Stone Mountain interurban street car line in obtaining grants, rights of way and franchises, about 3,000 citizens of Stone Mountain, Clarkston and every point along the new line from Stone Mountain to Atlanta, a distance of 15 miles, began Friday to wage a relentless battle against the new concern to block its agents when they appear before the State Railroad Commission to have a 35-cent fare between Atlanta and Stone Mountain established. The petitioners claim they were promised the fare would be less than 30 cents.

A petition is being circulated and is expected to contain the name of every property owner and citizen who might travel on the road to Atlanta.

L. B. Greer, a Government employe leading in Stone Mountain, declared Friday morning that T. J. Campbell, Mayor of Stone Mountain, and Ed Wagner, Mayor of Clarkston, sought to obtain the franchise. It is charged that when representatives of the new street car line visited the various property owners and citizens asking for right of way they assured the people they would compete with the Georgia Railroad, and that the competition would result in a reduction of the present rate of 50 cents charged by the Georgia Railroad from Stone Mountain to Atlanta.

At present the new line is well under way and it is estimated that it will be completed by November 1. Several days ago the owners of the new road, who the Stone Mountain people allege are none other than the old Atlanta Commission crowd, presented a petition to the State Railroad Commission asking that they be allowed to charge a rate of 35 cents.

Feeling along the route is running high. It has been stated that the new road will never be allowed to operate unless the alleged pledges of reduced rates are carried out.

The Georgia Railroad makes thirty-one stops between Stone Mountain and Decatur and is, according to commuters, satisfactory in every way, but what annoys them is the fact that after promising they would give the Georgia Railroad competition and that reduce rates the new road plans to fix even a higher rate than that of the Georgia road.

Another argument of the citizens along the route is that the cost of track construction in a city is \$2,000 per mile more than in the country and that the city people set the charge rate.

Still another is that the new road touches the country roads in but a few places and is accessible only at a few points.

The signers of the petition charge that the method employed by agents of the new line as gross deception and fraud and demand that the State Railroad Commission fix a 30-cent rate in accordance with the pledges promised. The signers would give them better service and a cheaper rate.

It is expected that the fight from now will be a hot one.

\$80,000 Paid For Peachtree Home of Col. J. H. James

The sale of another old home place on Peachtree featured Friday's real estate announcements.

John D. Babbage, Jr., and H. L. Harvey have bought from John H. James the former home of Mr. James at No. 214 Peachtree street, a two-story frame house on a 50 by 173-foot lot, for \$80,000. The purchasers will erect a three-story building, the top two floors for bachelor apartments and the lower floor for stores. The improvement will cost \$25,000. The house will be torn down and sold for salvage.

Exciting a strip for an alley, the front foot price was \$1,600, which is a record for the section between Baker street and Porter place.

Colonel James built this house about twenty years ago and lived in it. He is well known as the builder of the old Capital City Club house at Ellis and Peachtree, the Governor's Mansion and other historic structures.

DEAD END KNOCKED OUT BY BENDER; FLETCHER IS UNMOBILE AT START

SHIHE PARK, PHILADELPHIA, Oct. 10.—Bender and Demaree were chosen as the opposing pitchers for the fourth game of the World's Series this afternoon, with McGraw and Mack both eager to take the contest. With Mack, the eagerness arose from a feeling that with three games tucked away, the final punch could be administered with certainty on the morrow.

McGraw, on the other hand, was battling for what looked to be his last chance at the highest of baseball honors in 1913. It was evident from the demeanor of the Giants that no card would be left unplayed to turn the trick to-day.

McLean and Schang did the catching.

The weather was better for baseball than in any of the previous games, although partly cloudy. About 35,000 persons were in the park, a full house when it is remembered that there was no overflow allowed on the playing field. There was much more excitement and enthusiasm than at the second game, played here Wednesday.

Merkle was in his regular place at first base, moving about as if he never had turned an ankle in his life. Fletchler played again at second base.

FIRST INNING.

Snodgrass, leading off for the Giants, swung at a fast ball and then fled to Baker, popping the ball high in the air. Doyle fouled off a fast one, waited for two wide ones and then hit a low fly to Strunk, who pulled it down after a nice run.

Fletcher hit the first pitch for a grounder to Barry and was out at first. The Giants looked pretty soft in this round. NO RUNS, NO HITS, NO ERRORS.

Edgie Murphy was greeted with a roar as he stepped to the plate. He fouled off a fast one and then popped up a high fly that fell to Snodgrass' glove. Oldring met the first pitch on the nose and the ball shot out to right field for a triple. Collins swished a high one past him, fouled off another and then hit to Merkle, who threw Collins out at the plate. On a great play, Rube didn't think he was out and bunted a bit in Egan. Collins promptly stole second, and another runner saluted Baker, who responded by fouling out to Shaffer, who was playing third in Herzog's place. NO RUNS, ONE HIT, NO ERRORS.

SECOND INNING.

Burns led the Chief over a well-aimed strike on him, after which he swung at another, and on the third pitch fled to Merkle. Bender's first pitch to Shaffer was low. The latter missed two hard swings at fast-breaking hooks and fanned at another of the same brand. Bender was going at top speed. His control slipped and he pitched to Merkle. A strike and a ball were called on him. The two wide ones he pitched him in the ribs with a curve. McLean fouled off a low curve and declined to bite at a wide one which Bender wanted, thinking Murray would steal. McLean hit sharply to center for one base, and Murray, starting with the pitch, went all the way to third. Merkle watched a wide one pass him and then popped a fast one to Merkle. NO RUNS, ONE HIT, NO ERRORS.

"Could your husband walk a chalk line?" asked Judge Ellis.

"I don't know whether he could or not," replied Mrs. Haynesworth. "They always brought him home in a cab."

The jury found a verdict for Mrs. Haynesworth without leaving their seats.

Mrs. Haynesworth testified she was married in April, 1911, in Jackson, Va.

McGraw, on the other hand, was battling for what looked to be his last chance at the highest of baseball honors in 1913. It was evident from the demeanor of the Giants that no card would be left unplayed to turn the trick to-day.

Find Woman's Hand In Bay; Crime Scented

NEW YORK, Oct. 10.—With the finding of a woman's hand in New York Bay to-day, the police are confronted with another mystery similar to that of the case of Anna Muller, to whose murder "Father" Hiss Schmidt confessed.

The hand was seen from a ferry-boat, picked up and turned over to the corner of Richmond County. Anna Muller's body was dismembered and cast into the Hudson River.

KANKAKEE, ILL., Oct. 10.—The defense in the \$100,000 breach of promise suit brought by Miss Caroline Bliss, of Oxford, Mich., against William Latham, 72, a retired farmer, spring a surprise at to-day's hearing when it produced three witnesses who had been kept in hiding at Woodstock, Ill. They testified Miss Bliss declared she never intended to marry Latham, and only wanted his money.

JUDGE RUMMY, MACK FAN, GLOATS TO RUTH

By TAD.

NEW YORK, Oct. 10.—Dear Ruth: How are you, Kid? Say, you wrote me something yesterday, didn't you? Said something about me being foolish? That old stuff might go with some of these high kids that you know, but when you scampers around the park to me, let it be regular stuff, children, you've written your last letter to me. The old Giants are ready to tie the lamp around their necks and jump off.

Why, little shrimp named Hush took me in yesterday! What you mean, they have no pitchers? What do they want with pitchers? All they have to do is parade Oldring, Collins and Baker up there, and GO-O-O-O!

Say, the Giants look as fast as a cheater on a cold air road against my birds. They couldn't catch the regulars, don't class, Rube, you're not! Don't class.

ENGINEER KILLED IN WRECK.

BRIDGEWATER, Pa., Oct. 10.—One man was killed in the wreck of a freight train to-day when it crashed into a string of coal cars near the entrance of the mine. The train had just come from the second division. The engine was wrecked and died soon afterward.

Clyde Cox Goes Free By Quick Verdict

Clyde Cox, arrested during Chief Beavers' vice crusade last July, won a complete acquittal Friday from a jury in Judge Cabourg's court after but five minutes' deliberation.

Cox was tried on statutory charges. Hattie Smith, the girl in the case, testified for Cox, and his attorney, L. F. McClelland, led the case against the jury without making a plea, and the defense freeing Cox, who is a well-known young man, was reached without difficulty.

DEMAREE EASY AND GIANTS LOSE

HEALEY TO GET ALL OF VAST ESTATE

Atlanta Woman's Will Makes Son Sole Heir to \$4,000,000. Daughter-in-Law Left Out.

By the terms of the will of his mother, Mrs. Olive M. Healey, just filed for probate, W. T. Healey, head of the Healey Realty and Improvement Company, is named as the sole beneficiary of her estate, valued at between \$3,000,000 and \$4,000,000.

The will was signed March 27, 1908, and names Mr. Healey as executor, with the provision that no bond shall be required of him by the Ordinary's Court. Attorneys C. T. and L. C. Hopkins filed the document.

Besides the son, Mrs. Healey's will names only two beneficiaries, a half-sister and a niece. Mrs. Caroline M. Sharp, of Rochester, N. Y., is given \$500, and Mrs. L. O. Louis, of San Francisco, the niece, is given a similar amount.

Daughter-in-Law Left Out.
The name of Mrs. Ethel Toy Lamar, widow of one of Mrs. Healey's sons, Charles Healey, is left out of the will. This, it is understood, is partly because of the litigation with which Mrs. Lamar greeted the filing of the will of T. G. Healey, her husband's father, who died about ten years ago.

The litigation was settled by the courts awarding Mrs. Lamar a third of her father-in-law's estate; Mrs. Olive Healey, the widow, receiving a third, and the other share going to William T. Healey, who has now received the entire estate of his mother.

With the exception of one lot valued at about \$8,000, all the property which Mrs. Healey bequeathed to her son has been under his management for several years, under the name of the Healey Realty and Improvement Company.

Healey Worth \$7,000,000.
The value of the holdings of this corporation are estimated variously at from \$6,000,000 to \$7,000,000, and include many centrally located pieces of property, of almost fabulous valuation.

Among the property that now becomes the sole property of Mr. Healey is the new Healey Building being erected and the entire block between Forsyth and Broad and Walton and Poplar. In two of the properties of the Healey family, Mrs. Lamar holds a one-third interest. They are the property at 22 East Alabama street and a large tract of land fronting on Johnson, Gray, Victoria, Grant and Davis streets.

Other holdings already under the management of the Realty Company, and which now pass entirely into the hands of Mr. Healey, include practically the entire north side of Broad street between Walton and Poplar; the northwest corner of Marietta and Peachtree streets, now occupied by the Elkin Drug Company; No. 30 Peachtree street; Nos. 11-13-15-17 Marietta street, between Peachtree and Broad; Nos. 2 to 27 Walton street, near Forsyth; Nos. 10 and 12 Walton street; the northwest corner of Ivy street and Magnolia avenue; southwest corner of Marietta and Magnolia streets; northeast corner of Peters and Humphries; northwest corner of Foundry and Haynes; No. 121 Bell street; No. 72 Young street; No. 14 Todd street; Nos. 355-357 Edgewood avenue; No. 117 Young street; Nos. 355-357 Hilliard street; No. 72 Parker street; and the northwest corner of Glendale and DeKalb avenues.

JULEPS WIN RICHMOND BANKERS' MEET

Eloquent Plea Extolling Virtues of Mint in "Wet" Town Defeats Atlanta.

BOSTON, Oct. 10.—The fragrant and delicious mint julep lost Atlanta the 1914 convention of the American Bankers' Association. That is the consensus of opinion among the delegates here to-day.

This insidious deception, whose potency every true Southerner insists would divert the course of empire, was powerful enough to sweep the delegates to vote for Richmond, Va., as the 1914 convention city after Atlanta admittedly had the gathering pledged and practically delivered.

Calmly reviewing yesterday's action, it appears almost unbelievable that a body of coldly calculating, unimaginative jugglers of figures and interest tables could be swayed by any sentimental argument, but the sober fact remains that at the magic mention of the South's most famed libation the bankers were stampeded. Thus Atlanta lost.

How It Happened.
Here is how it came about. Atlanta had made a valiant fight. Her claims ably had been presented by John K. Ottley. His remarks were seconded by Sol Wexler, of New Orleans. Other good speakers from the South followed. Victory was hovering over the banners of the Gate City. There appeared no hope for any of the rival cities.

Then Thomas B. McAdams took the floor for Richmond. The delegates, out of courtesy, were willing to listen to him, but they did not propose to change their minds in the least. They had decided irrevocably upon Atlanta.

Mr. McAdams conceded to Mr. Ottley all of the claims he had made in behalf of Atlanta. He was more than gracious. The delegates were even more confirmed in their selection of the Georgia city.

"But," he added—and here the bankers began to take some interest in his remarks—"Richmond has all the advantages of this other Southern city and one thing else."

What could it be? Every separate banker stirred in his seat and pricked up his respective ears.

And here it is.
Then exactly at the psychological moment, McAdams told them. It was the festive mint julep!

There was an undignified whoop of appreciation. McAdams let the significance of this overwhelming advantage sink into their consciousness and then he subtly suggested that if they came to Richmond they would not have to go to a club every time they desired moist refreshments. Atlanta, he warned the bankers, was a "dry" town. Richmond was not. Besides, the mint julep abounded in profusion in the highways and byways of the Virginia capital.

That was enough. There was a sharp, short struggle. Atlanta did not give up without a fight. It required two votes, but the mint julep argument won. The convention which a few seconds before had been almost unanimously of one mind for Atlanta had been changed like magic.

Indians and Negroes Riot at Fishing Meet

WILMINGTON, N. C., Oct. 10.—News reached here to-day of a riot at Moss Neck, on the Seaboard Air Line in Robeson County, between Indians and negroes, when a crowd had assembled to fish where water was being drawn from a pond. Liquor is said to have been abundant and drunks numerous.

A negro shot twice at Deputy Sheriff Lowery. The officer, it is said, shot at the negro, but missed him and hit a negro woman. Deputy Lowery is reported out and shot. An Indian is said to have fired on an automobile occupied by negroes. Three negroes are reported badly hurt and many beaten with guns and sticks. Sheriff Lewis and deputies have gone to the scene.

Deserters Accused Of Assault Caught

WASHINGTON, Oct. 10.—Privates Joseph E. Dennison and Albert R. Robertson, of Company C, Engineer corps, U. S. A., charged with assaulting Abraham Yockelson, a second-hand clothing dealer, and with desertion, were captured to-day in the dense undergrowth of a wild region on Potomac flats in the park which runs from the White House to the river.

The deserters, it is said, beat Yockelson into insensibility and robbed him.

Clyde Cox Goes Free By Quick Verdict
Clyde Cox, arrested during Chief Beavers' vice crusade last July, won a complete acquittal Friday from a jury in Judge Calhoun's court after but five minutes' deliberation.

Cox was tried on statutory charges. Hattie Smith, the girl in the case, testified for Cox, and his attorney, L. F. McClelland, let the case go to the jury without making a plea, and the decision freeing Cox, who is a well-known young man, was reached without difficulty.

Players' Share for Series \$135,163.89

PHILADELPHIA, Oct. 10.—Here are the official figures on attendance and receipts for to-day's game:
Attendance, 20,568.
Receipts, \$49,846.
Commissioner's share, \$4,984.50.
Players' share, \$26,808.30.
Club's share, \$17,872.20.
To-day's game was the last in which the players get any share of the receipts. Their total for the four games is \$135,163.89. Up to to-day's game they had garnered \$108,255.52. The team which wins the championship will receive \$81,098.32, and the losers \$54,068.56.

\$80,000 Paid For Peachtree Home Of Col. J. H. James

The sale of another old home place on Peachtree featured Friday's real estate announcements.

John D. Babage, Jr., and H. L. Harvey have bought from John H. James the former home of Mr. James at No. 314 Peachtree street, a two-story frame house on a 50 by 173-foot lot, for \$80,000. The purchasers will erect a three-story building, the two top floors for bachelor apartments and the lower floor for stores. The improvement will cost \$20,000. The house will be torn down and sold for salvage.

Excluding a strip for an alley, the front foot price was \$1,600, which is a record for the section between Baker street and Porter place.

Colonel James built this house about twenty years ago and lived in it. He is well known as the builder of the old Capital City Club house at Ellis and Peachtree, the Governor's Mansion and other historic structures.

GIANTS' GAME RALLY AGAINST HEAVY LEAD IS BRILLIANT BUT FUTILE

By BILLY SMITH, Manager Atlanta Ball Club.

SHIBE PARK, PHILADELPHIA, Oct. 10.—Well, it looks to me very much as if the Giants' hopes for winning a world's series this year went out at ten minutes after 4 o'clock this afternoon, when old Chief Bender got Eddie Grant out on a tall foul to Schang.

The score was 6 to 5 in favor of the Athletics, and it looked for six innings as if another walk-over was on the cards. But the Giants came back like a game bunch. They are game—you have to hand them that much. And they mighty near knocked Bender out of his second victory in this queer series.

Demaree failed to come through. The kid had lots of smoke, but it did not blind the batting eyes of Oldring, Barry and Schang, though Collins, Baker and Murphy failed to get their usual hits, and McInnis got only one. That hit, followed by a double by Barry after Merkle had dropped a foul from his bat, counted the first run for the Athletics.

Hitting by Strunk, Barry, Schang and Oldring, with an error, gave the Mackies three runs in the fourth and sent Demaree to the shower bath. Marquard came on and started the fifth by fanning Baker, but a walk to Strunk and hard hits by Barry and Schang scored two runs more, and it turned out that those runs won the game.

After that Marquard pitched some really good ball, while Chief Bender caved in a couple of times under the attack of the Giants. McGraw was driving his men on in spite of the big handicap—and he came mighty near getting away with it, let me tell you.

In the seventh inning, after Bender had held the Giants to two hits that far, Burns singled and Shaffer fied out. Murray singled and Wilson fanned, but the two Giants worked a pretty double steal. Then Merkle did his best to atone for the trouble he had caused earlier. He hit a home run into the left field bleachers. Marquard was an easy out.

The Giants came up for more in the eighth, and jammed the score to within one run of a tie after two were out. Herzog got a hit through Barry, and after two force-outs Burns doubled and Shaffer tripled, but Murray couldn't help any and went out, Collins to McInnis.

Crandall and Eddie Grant appeared as pinch hitters in the ninth, but the old chief was there, and though I could see he was losing his stuff, he didn't lose his head and got the side out without trouble.

The official figures were about the same as for the first game here, a little more than 20,000 persons. The stands and bleachers were crowded, however.

Remember what I said this morning about the series ending this week if it didn't rain. If it doesn't end to-morrow it will Monday, for only Matty seems able to hold the Athletics—and he can't do it all the time.

Details of the Third Mack Victory Exactly as Played

FIRST INNING.
Snodgrass, leading off for the Giants, swung at a fast hook and then fied to Baker, popping the ball high in the air. Doyle fouled off a fast one, waited for two wide ones, and then hit a low fly to Strunk, who pulled it down after a nice run. Fletcher hit the first pitch for a grounder to Barry and was out at first. The Giants looked pretty soft in this round. NO RUNS, NO HITS, NO ERRORS.

SECOND INNING.
Burns let the Chief slip over a called strike on him, after which he swung at another, and on the third pitch fied to Shaffer. Bender's first missed two hard swings at fast-breaking hooks and fanned at another of the same brand. Bender was going at top speed. His control slipped a trifle, and after serving Murray two wide ones he pinked him in the ribs with a curve. McLean fouled off a high one pass him, fouled off another and then hit to Merkle, who threw Oldring out at the plate on a great

play. Rube didn't think he was out and befeud a bit at Egan. Collins promptly stole second, and another roar saluted Baker, who responded by fouling out to Shaffer, who was playing third in Herzog's place. NO RUNS, ONE HIT, NO ERRORS.

ATHLETICS COME BACK AND WIN 3RD GAME

Mack's Men Ever Present With the Mighty Wallop, and Rout Ozarks Giant.

Continued From Page 1.

SCHANG. NO RUNS, NO HITS, NO ERRORS.

THIRD INNING.

McInnis hit the first ball pitched for a fly to Burns. Strunk hit one into the same pocket after a strike and two balls had been called. Barry hit a high one straight up, which McLean captured. NO RUNS, NO HITS, NO ERRORS.

Merkle flied to Strunk, hitting the first pitch. Tesreau batted for himself. He fouled off two pitches and then fanned. With the count one and two, Herzog flied to Collins. NO RUNS, NO HITS, NO ERRORS.

FOURTH INNING.

Schang fouled off a couple of fast ones and then fanned. Two balls were wide of the plate, and then Bush hit a hard drive into right field which Murray failed to reach after a hard run, the hit going for a single. Murphy flied to Shafer, and Doyle then threw out Oldring. NO RUNS, ONE HIT, NO ERRORS.

Doyle watched a ball pass him, swung twice, and then popped up a foul to Baker. Bush wheeled three balls up to Fletcher and then slipped over two strikes, after which Fletcher fouled into the grandstand. Then he singled over second. Burns fanned on three pitches, fouling one. Fletcher stole second—the first stolen base of the series for the Giants. Then Collins tossed out Shafer. NO RUNS, ONE HIT, NO ERRORS.

FIFTH INNING.

Collins fouled off two and then flied to Murray. Baker hit a high foul to Fletcher back of third. McInnis flied to Murray. Tesreau once more looked like a regular pitcher. NO RUNS, NO HITS, NO ERRORS.

Bush was wild on three pitches and then slipped over two strikes. The next pitch was wide and Murray walked. Murray stole second and went to third when Schang threw the ball into center field. McLean singled through Baker, scoring Murray. Cooper was sent in by Manager McGraw to run for McLean. Merkle missed a curve and then flied high and far away to Murphy. Tesreau fouled off two high fast shots, waited out a low curve on the next, and Cooper pliffed second on the chuck. Tesreau hit the next ball to Baker, who threw to McInnis in time, Cooper hustling over to third on the play. Herzog hit in front of the plate and Schang threw him out, ending the flurry. ONE RUN, ONE HIT, NO ERRORS.

SIXTH INNING.

Wilson replaced McLean back of the bat. With the count two and two, Strunk flied to Burns in deep left. Barry singled to right on the first pitch. Schang fouled into the left-field bleachers, pulling the ball just shy of a home run. Then he popped a foul up for Wilson's benefit. With the count one and one, Bush flied to Doyle. NO RUNS, ONE HIT, NO ERRORS.

Bush got Doyle in the hole, after which he splashed to McInnis for an easy out. Bush's control lever got jammed again and his first three pitches to Fletcher were wide. Then he slipped over a strike, but Fletcher walked on the next one. Burns sneared the Giants' hopes by hitting into a double play. Bush to Collins to McInnis—a fine bit of fast fielding. NO RUNS, NO HITS, NO ERRORS.

SEVENTH INNING.

After two balls and a strike had been called on Eddie Murphy, he tickled a fast one for a single to right. With a pair of strikes on him, Oldring hit to Fletcher and Murphy was forced. Doyle. Collins hit a foul into the grandstand. He fouled off two more and Tesreau served him a pair of wide ones which he could not reach and wouldn't try for. The next pitch also was wide, and then Collins tripled to right, scoring Oldring. Baker also came through with a single to center, scoring Eddie, and the game resembled a practice contest. Tesreau was extracted, the game being hopelessly lost, and Otis Crandall, the official relief hurler, was wheeled to the mound. McInnis ended the slaughter with a liner to Doyle, dying with Baker in a two-ply killing, as Larry tagged Frank as he came tearing down the line. TWO RUNS, THREE HITS, NO ERRORS.

With two strikes on him, Shafer hit a screaming double to left—the first real wallop of Bush. With the count two and two, Murray singled to right, scoring Shafer. Wilson fanned on four pitches and Murray went out stealing. Schang to Collins. Merkle drew a base on balls and Wiltsie ran for him. Crandall hit to Collins and was out at first. ONE RUN, TWO HITS, NO ERRORS.

EIGHTH INNING.

Crandall flied Strunk's feeble tap to Wiltsie. Barry died the same way, O'ey's roundhouse curve fooling the slugger. Schang, however, walloped a home run into the grandstand about the same place where Baker's hit landed Tuesday, and the crowd whooped and jeered. Bush fanned. ONE RUN, ONE HIT, NO ERRORS.

Herzog lined to Barry, who made a

YOUNG BUSH HAILED AS NEW DIAMOND HERO

The 20-year-old lad Bush, who was working in his first world's series game, showed a slight attack of stage fright in the first inning, but after that steadied down and pitched like a veteran. He will be hailed as a hero in Philadelphia, where he was secured last year from the Missoula, Mont., club, of the Union Association. During the American League season he won ten games and lost six, but was not regarded as of championship caliber until he went through Thursday's grueling contest.

His admirers have predicted he would develop into another Walter Johnson. Bush's tremendous speed gave him the call over Mack's other youngsters for third game.

McInnis hit the first ball pitched for a fly to Burns. Strunk hit one into the same pocket after a strike and two balls had been called. Barry hit a high one straight up, which McLean captured. NO RUNS, NO HITS, NO ERRORS.

Merkle flied to Strunk, hitting the first pitch. Tesreau batted for himself. He fouled off two pitches and then fanned. With the count one and two, Herzog flied to Collins. NO RUNS, NO HITS, NO ERRORS.

Schang fouled off a couple of fast ones and then fanned. Two balls were wide of the plate, and then Bush hit a hard drive into right field which Murray failed to reach after a hard run, the hit going for a single. RICHMOND WINS 1914 MEETING OF BANKERS

Atlanta Loses in Gallant Fight for Honor of Entertaining Nation's Financiers.

BOSTON, Oct. 9.—Richmond, Va., won the 1914 convention of the American Bankers' Association this afternoon, Atlanta losing the honor of entertaining the delegates after a hard fight.

Atlanta's representatives had worked day and night for the convention since the sessions began in Boston this week and the prospects had appeared more favorable to the Georgia city. The claims of Richmond, however, were regarded as the stronger when they were put forward to-day by a number of her leading citizens.

The Atlanta delegates, while disappointed at the outcome of the hotly contested fight, nevertheless took their defeat gracefully and added to their congratulations of the victors the announcement that they would be in the fight again next year.

Joseph A. McCord, one of the two Southern members of the association's currency commission, helped draft the report which branded the Owen-Glass currency bill "socialistic" and "imposing unwise hardships on the banks and equally unwise hardships on the general public." This severe condemnation of the administration's monetary reform program was adopted as the voice of the convention.

The big feature of the convention Wednesday was the presentation to the convention of resolutions drawn up by the currency commission. These resolutions roundly denounced the Owen-Glass currency bill.

Financial Moses Sought. H. T. Powell, of Macon, discussing the steps taken by the currency commission, voiced the sentiments of a great many of the delegates when he made the following statement to the Georgian representative to-day:

"The financial situation is very perplexing. We are wandering around in a wilderness just at present, so far as any satisfactory solution of the currency problem goes. And the sad part of it all is that there does not appear to be any Moses in sight to lead us out of the wilderness into the promised land.

"What is needed is a man of great financial experience, in whom the people of the country have unlimited confidence. No such shining light appears in sight as yet. We are all looking for a great leader, a financial Moses.

"We think the world and all of Wilson down in Georgia, and we have confidence in his honesty and sincerity. He is a great man as a scholar and a historian. Yet President Wilson is not a great financier. And a financier is what the bankers are looking for.

Need Bankers' Backing. "The people with whom I am acquainted haven't the confidence in President Wilson's financial policies that is a prerequisite to their success. Any currency legislation, to be effective, must have the co-operation of the bankers, with whom reposes most of the ready money of the country. It is like the enactment of a prohibitory law with reference to liquor—you can not make such an enactment a success until you have the people behind you. The Owen-Glass currency bill can not be a howling success in its present form because it is opposed by the great majority of the bankers of the country.

"The intention of the bill is of the best. It aims to make possible an elastic currency. Should it do this, it would prevent panics. Yet it is an experiment at best. The question is: 'Will it do just the things that are intended by it?' It is no time to dally with experiments. We want certainty.

"This currency problem is too big a thing to risk a failure in. We must know how it is going to work out before we risk it.

CONVICT LEASES CANCELED BY GOV. O'NEAL

Commission's Report of Cruelty Causes Alabama Executive to Take Summary Action.

MONTGOMERY, Oct. 9.—Stories of cruel treatment of convicts reported to Governor O'Neal to-day by the commission which investigated conditions at the convict camp of the Huxford-Orvin Naval Stores company, at Atmore, Monday, caused an order canceling the contracts between Mobile and Escambia Counties and the company to be issued by the Governor immediately.

The convicts must be removed at once. Every deal between the counties and the company must be closed. Members of the investigating commission made a verbal report to Governor O'Neal to-day. An official one will contain 30 or 40 pages and will tell of how convicts had been beaten and had been threatened with death if they told, and how they refused to talk with Len F. Greer, convict inspector, last week, because they feared the convict leases.

Gov. O'Neal is out of the city and was communicated with over the telephone. He wired Price Williams, probate judge of Baldwin County, that no longer could the company use county convicts.

City convicts of Mobile and Brewton are not under Governor O'Neal's jurisdiction, but he will recommend that they be removed also. An official report of the investigation will be filed later in the week.

\$1 & \$1.25 Silk Stockings

Our best dealers has favored us with over 73c four hundred pairs of his regular \$1 and \$1.25 silk stockings to sell at 73c.

If you will examine these stockings carefully, as we have done, you will pronounce them the best values you ever seen at 73c.

We say this with full knowledge of the other good sales we've held in the past. The stockings are "Run of the Mill" grade, which means they have not been examined for defects. But we've examined them, and most of them are perfect. The others may show a dropped thread or other slight defect, which will never do anyone any harm.

The stockings are made of a pure thread silk in the rich, crunchy quality. Full, extra plump weight. Full fashioned; finely finished with high spliced heel and hile sole, toes and deep garter tops. Black only.

\$45,000,000 FOR BATTLESHIPS IN AUSTRIA

Besides Four Dreadnoughts Already Laid Down, Two Super-dreadnoughts Are Planned.

SPECIAL Cable to The Atlanta Georgian. VIENNA, Oct. 9.—Austria's naval estimates, made public to-day, include \$45,000,000 for new battle ships to be constructed or already building.

Besides four dreadnoughts already laid down, it is planned to build two superdreadnoughts at a cost of \$11,000,000 each.

The admiralty also contemplates two more superdreadnoughts to be completed in 1917 at a cost of \$10,000,000.

ST. PETERSBURG, Oct. 9.—The Russian Duma has before it new naval estimates raising the total to \$184,000,000.

The increase now proposed is \$12,000,000.

be fit for work in the event things go wrong. It will be Demaree of Marquard against Shawkey or Bender, and it looks like a pretty doubtful layout, to me. No doubt, our combinations like that, especially the way McGraw's pitchers are ex-

Athletics Won in First. Getting back to the game yesterday, there was much more after the first inning, or at least the first two innings. Tesreau started badly and his support started, and that gave young Bush a big margin of confidence, which is a fine thing for any pitcher, young or old, but especially for a youngster. After getting that lead before he ever pitched on the glove, Bush pitched like a champion. I don't say he wouldn't have pitched well anyway, but I suspect the worst was not the worse for the fact that he had a big margin of safety to work from.

Only a few times did the Montana Kid waver, and then he helped himself up in fine style, twice by double plays and a number of times by very classy fielding. The Giants certainly looked weak at the bat.

I couldn't figure out just what was wrong with Tesreau. The big fellow seemed to have plenty of stuff, and his control certainly was o. k. In the first inning, with Murphy out, he had two strikes on Collins and Baker, right down the line, before each one of them walloped the ball. The first four sluggers in Mack's line-up simply crowded in and hit the ball, no matter what was on it.

Most of the fans—maybe all of them—agreed that had throw of Tesreau's in the first inning, the first inning, I don't see it that way at all, and it can even find a case for Fletcher, though I have an idea that Rivington Haland wouldn't have hit the ball that way.

Anyway, Collins and Baker were on second and first, with one run in and one man out. They started a double steal—a most daring one, played because McGraw, usually one of the best throwers in the business, pitched a pitched ball for a second and was not set to make the throw. Fletcher's Throw Was Costly. Right there was the break, in my

PLAY THAT COST ATHLETICS THE SECOND GAME

PHOTO COURTESY BY INTERNATIONAL NEWS SERVICE

The picture shows Strunk of the Athletics being forced out at the home plate in the ninth inning of Wednesday's battle. It would be the closest play of the game, and the decision could have been rendered either way, it was so close. Had Connolly ruled Strunk safe the Athletics would have won, as only one run was needed to decide the issue. Strunk's foot can be seen a few inches from the plate. McLean had just put the ball on him.

opinion. Tesreau lightened up and fanned McInnis, but Strunk hit a tough one to deep short, which Fletcher got by a fine effort. He was playing deep after the hit, and knowing that Strunk was a very fast man, he hurried the play all the more. A short throw, instead of trying to head Strunk, a fast man, by a long throw. That little fumble of Larry McLean's was the "break" of the whole game, I think.

Without that double steal, there would have been a man on first base and an easy play right in front of Fletcher, to force Baker, a slow man, by a short jog, instead of trying to head Strunk, a fast man, by a long throw. That little fumble of Larry McLean's was the "break" of the whole game, I think.

But while it is no use guessing a what might have happened had not Bush been given a nice lead in the first, it is very certain that the heavy artillery of the Athletics' batting order was there with the bat. It was no surprise to me to see how old Doc Cuyler's roundhouse curve mixed up Tesreau's speed and spidee to all corners of the lot. Maybe it was because the change was so great. Anyway, anybody would say that the "barrel hoop" except Schang. He hit a home run, and he was absolutely helpless against Tesreau.

Can't Stop Terrific Hitters. Tesreau's in the line is going very much as I had figured and predicted. I don't see it that way at all, and it can even find a case for Fletcher, though I have an idea that Rivington Haland wouldn't have hit the ball that way. Anyway, Collins and Baker were on second and first, with one run in and one man out. STARS OF CLUBS TELL HOW IT HAPPENED

MANAGER MCGRAW.—We were unfortunate in that Tesreau was hit with stage fright early in the play and allowed the Mackmen to wallop the ball. But there is no need for being discouraged. We'll cop today and even the count. Mack won't use Bender, and none of his youngsters will be able to get on base. I think it will be Marquard or Demaree today—my choice.

CHIEF MEYERS.—Bush's great work in the box and Tesreau's inability to deliver at the right time gave the Athletics the lead in the series, but victory today will even up things. It will be Bender or Shawkey against Demaree, and the latter one is my choice. They are fighters, but they haven't the right stuff to fight our crowd.

CHRISTY MATHEWSON.—I am ready to take the mound today and pitch our club to victory, but I look for Marquard or Demaree to step into the box. No matter who it means a win and evening the count. Bush can't keep a pitcher out of the box, and Tesreau won't be there in the early part of the game. My choice is Marquard.

RUBE MARQUARD.—The Mackmen have an edge on us, but that will be evened today. Demaree or I will face Shawkey, and it means a giant victory. One must not overlook the fact that the Athletics are some players. Collins is the brains of the organization, and they can't have lost yesterday game because Tesreau

Annual Old Guard Ball at Capital City Club To Be Brilliant

The Old Guard will hold its annual ball at the Capital City Club Friday night. A brilliant affair is expected. The clubhouse has been turned into a miniature Elysium with effective combinations of foliage plants, rugs and insignia of the Gray.

Among the guests will be Governor Slaton and Mrs. Slaton, Governor Evans and Mrs. Evans, Colonel Van Cralle and Mrs. Van Cralle, with their staffs.

Every Lawyer Is Invited to Banquet For Judge Newman

John D. Little, chairman of the committee arranging for the banquet on October 25, in celebration of Judge W. T. Newman's seventieth birthday, issued a general invitation to all members of the Atlanta bar.

It is possible that the lists are not complete. Mr. Little said, "and that some of the invitations may be missing. But we want every member of the bar to attend the banquet, and should any lawyer fail to receive a notice I would deem it a favor if he would communicate with me at once."

ed in the dike and in each side from 20 to 100 pounds of dynamite had been placed. It was the largest blast ever used on the canal and was set off by electricity. The dike, which occurred last December, was on the Pacific end of the canal, just south of Cobb Hill. It was nearly 400 feet deep, 400 feet long and over 100 feet wide. Part of it was removed by workers before the dynamite was placed in position. Colonel Gottlieb made final inspection of the arrangements before the wires attached as a means of exploding the dynamite were in position.

After the explosion fourteen vessels of the Atlantic dredging fleet, which had been lying at Gatun lock, started for the second cutting, another cutting along the canal bed. The engineers figure that considerable quantities of earth will be removed from the Pacific side, and Culberson had been filling rapidly from the inflow through the discharge pipe.

One feat of the engineers was that the concussion from the mighty blast would cause another earthquake and perhaps injure some of the nearby machinery. Every precaution possible was taken to prevent this. By November 1, boats probably will be using the canal, and by January 1 the canal will be open to traffic in the big ditch, although the canal will not be opened for public service. When the canal is actually completed it will be protected by a Panama Canal fleet of 25 powerful dreadnoughts. The dredging will lead a procession of battleships through the canal as soon as it is opened.

Columbus Celebrates Opening of Canal

Oct. 10.—Never in the history of Columbus has there been such a celebration as was witnessed last night when the citizens celebrated the blowing up of the last dike separating the waters of the Atlantic and Pacific oceans.

The whistle of every manufacturing plant in the city blew for three minutes beginning at 8 o'clock, with the exception of practically every automobile, motorcycle and every other noise-making device added to the din. The people of Columbus believe that this city will be greatly benefited by the opening of the canal.

New Value In Kimball

Overworked Women

A little too much work soon weakens a woman, physically and nervously. What she needs, then, is a tonic. A tonic takes the place of a rest, as it helps the system to "catch up"—to pick up the dropped stitches and start again into the daily work, in good health and good spirits. The best tonic for you to take is CARDUI, the woman's tonic. Many years of success have proven its real merit, in all cases of female weakness. Cardui contains no dangerous, poisonous, mineral, no habit-forming drugs, no harmful ingredients of any kind. It is simply a mild, vegetable extract, of medicinal, tonic herbs, with great efficacy in the treatment of the ailments and weaknesses peculiar to the female sex. Please try Cardui. It cannot hurt you. It is sure to do you good. It may be the very thing your system most needs.

Take CARDUI The Woman's Tonic. "A PERFECT WRECK" I was a perfect wreck from female trouble. I had pains in my right side, and suffered from fainting spells and dizziness; then I would have numb, cold feelings. Sometimes my feet were swollen, so I could not walk a step. I had so much backache and was so nervous and weak. My appetite was irregular, and my kidneys troubled me at times. After 20 years of suffering, a friend advised me to give CARDUI a trial. I did so, and found great relief, after taking the first bottle. I continued to take it until I was completely cured. Now I am a well woman and do almost all my household work. WHY SO MANY DREAMS OF THE BAR BETWEEN OCEANS; CAN BE BECOMES REALITY

PANAMA, Oct. 16.—The Panama canal is a reality. The waters of the Atlantic meet those of the Pacific in the greatest of man-made waterways today when Guacharaca, a side of Gamboa dike, as it also was known, the last obstruction separating the waters of the world's two greatest seas, was blown up.

President Wilson in Washington touched the button which set off the explosion. There was a rumble as of a giant earthquake, a roar like the salvo of a thousand pieces of artillery and a torrent of dirt and rock, as 40 tons of dynamite was exploded. The destruction of the dike allowed the waters of the Atlantic and the Pacific to unite in a constructed ditch for the first time in history.

Lengthy Peace Event. The noise of training vessels which followed the bombardment of nature's rampart mingled with the cheers that arose from United States army officers who were stationed at a safe distance. Among those who were in the making event in the history of the Panama canal were former President Roosevelt, long-time Panamanian Juan Vial, chief engineer of the first canal company, who was the first to be killed in the canal, and the first to be killed in the canal, and the first to be killed in the canal.

Explosion was one of the final acts in the actual construction of the Panama canal. The dike was blown up last December, was on the Pacific end of the dike, nearly 400 feet long and over 100 feet in width. State Marshal Tells Household How To Prevent Fires

Rules for householders who would avoid fire are contained in a bulletin issued by State Fire Marshal W. R. Joyce, through the office of the State Insurance Commissioner. He says: Examine your chimneys and flues. See that the mortar is not crumbling. Don't put ashes in wooden receptacles, nor let them come in contact with wood. Don't allow rubbish or combustible material to accumulate where sparks can drop into it. Examine your gas connections and put them in good condition. Don't allow your kerosene light to burn in poor condition. Have it put in good condition through wooden partitions or close next wood at any point. Don't allow your chimney to rise on wood, build them from the ground up. Elevate your flues to at least five feet above the flat roof and two feet above the highest point of a peaked roof.

A Message To Think Weak, Scrawny Folks

An Easy Way to Gain 10 to 30 Lbs. of Solid, Healthy, Permanent Flesh. Thin, nervous, undeveloped men and women everywhere are bound to say, 'I can't understand why I do not get fat. I eat plenty of good nourishing food. The reason is just this: You can not get fat unless your body is in good condition. You must use your digestive organs and get rid of the waste products of your food instead of passing them out through the body as waste. What is needed is a means of gently urging the assimilation of the food and the elimination of the waste products. This is the purpose of the Little Sargol. It is a powerful laxative and purgative, and it is recommended to all who are thin, nervous, and undeveloped. It is a safe and reliable remedy, and it is the only one of its kind. It is the only one of its kind. It is the only one of its kind.

Express Men Doubt Hold-up Confession

MOBILE, Oct. 16.—The confession of Herbert Thomas, a suitcase thief, made voluntarily, that he had participated in the holdup of the Alabama Great Southern train near Rhineville, Ala., two weeks ago, is not given much credence by the Southern Express officials here. General Superintendent W. S. McFarland does not believe in the man's statement. Thomas caused Detective Birch, of the local department, to make a trip to New Orleans, where he spent several days looking for the other two men. He returned to Mobile empty-handed.

New Value In Kimball

Another triumph by the W. W. Kimball Co., the world's largest manufacturers of Player-Pianos. New features of construction in case design at a price that challenges competition. This new style Player-Piano is made by the world's largest manufacturers of pianos—by the largest number of skilled workmen, and marketed direct through this Branch Store, eliminating the intermediate profits of the jobber, dealer and agent, and consequently at a material saving in price to the buyer. Our unlimited facilities for manufacturing naturally reduce the cost of production, which means greater value for less money. This is the reason why we are able to offer you such a remarkable Player-Piano at such a remarkable price. \$460.

A Standard Kimball Player action, built in a genuine Kimball piano, at a price without parallel in the annals of piano purchasing. A \$700 value—as compared to prices asked by dealers and agents. We could reduce the cost of manufacture, gloss over the short-comings, and sell for less money, but we won't because our reputation is involved. We could charge more, but we couldn't give you a Player-Piano with better qualities of tone, greater durability, or increased facilities of expression. It is true that we have more expensive instruments, but the difference comes largely in the case.

The Kimball Player is the very embodiment of new life and happiness. It helps to entertain your friends, and is always ready to respond to the musical tastes of every member of your family. No home is hardly complete without a Kimball Player.

ABINGDON, VA., Oct. 16.—The Rev. Joseph Owens, who deserted his family and eloped with the wife of the Rev. J. W. Blankenship to West Virginia, was convicted today of violating the Mann white slave law. He was sentenced to serve one year and a day in the Federal prison at Atlanta.

Chief's Close Call Stirs Fire Fighters

The narrow escape from death of Fire Chief Cummings Thursday night formed the topic of conversation in the fire department circles Friday. The chief was near a night charged electric wire when it fell to the ground during the fire at the O. W. C. C. warehouse and renovating factory at Logan and the streets. The loss to the warehouse and renovating factory will total about \$1,000. The fire was in progress Thursday night and the chief was in the building when it was destroyed.

Seaman Has Right To a 'Celebration'

SAVANNAH, Oct. 16.—Recorder Schwarz has ruled that if a common sailor has served without pay for one year at any place, to his liking, he is at liberty to celebrate his release, or transfer in any way he chooses. The ruling was made today in a case involving a sailor who had served for a long time, and was the subject of the ruling.

Gadsden Gets W. C. T. U.

GAZDEN, ALA., Oct. 16.—An organization of women, known as the W. C. T. U., was organized in Gadsden today. The organization is dedicated to the promotion of moral reform and the betterment of society.

STARS OF CLUBS TELL HOW IT HAPPENED

MANAGER M'GRAW.—We were unfortunate in that Tereau was hit with stage right early in the play and allowed the Mackmen to walk the ball. But there is no need for being discouraged. We'll cop to-day and even the count. Mack won't win, he'll lose. We'll give him another chance to prove that my work wasn't an accident. CHIEF MEYERS.—Bush's error work in the box and Tereau's inability to deliver at the right time gave the Athletics the lead in the series, but victory today will even up things. It will be Bender or Shawkey against Demaree, and the latter can win. This will leave Mack to face for Saturday, when we will take the lead. Tereau was off form, but I finished strong. CHRISTY MATHEWSON.—I am ready to take the mound today and pitch our club to victory. But I look for Marquard or Demaree to step into the box. No matter who, it means a win and evening the count. Bush was surely a puzzle to our boys, and Tereau wasn't there in the early stages. We probably were a bit too confident when the fight began. Watch the Giants today. RUBE MARQUARD.—The Mackmen have an edge on us, but that will be evened today. Demaree or I will face Shawkey, and it means a clear victory. One must not overlook the fact that the Athletics are quite players. Collins is the brains of the organization, and they can fight. The fact yesterday came because Tereau couldn't get his best ball working at the start. CONNIE MACK.—I have only to repeat that I have gauged the Giants. I have studied the situation carefully, and McGraw's squad will never overcome our lead. Be it Shawkey, Bender or some stranger to-day, we have the Giants' number, and will win again to-day. We'll show New York how to play baseball before this series is over. JOE BUSH.—If beating the Giants is the hardest task I must confront, then baseball is my middle name. When Herzog, Fletcher and Doyle looked no different to me from a minor leaguer, and I treated them to balls that were puzzles. I only hope Mack will give me another chance to prove that my work wasn't an accident. EDDIE COLLINS.—We know too much baseball for McGraw's men and our speed is far too much for the New Yorkers. They believed our pitchers all in. We've given them a taste of class and this will continue until the pennant is ours. We think too fast for McGraw. They sure are confident when the fight began. Watch the Giants today. FRANK BAKER.—The New York pitchers haven't anything we can't hit. Schang proved that by cutting a homer, and I'm in for one or two of those four-baggers to-day. I've got it. I can't get any more, but we couldn't give you a Player-Piano with better qualities of tone, greater durability, or increased facilities of expression. It is true that we have more expensive instruments, but the difference comes largely in the case.

wide one, which Bender wasted, thinking Murray would steal. McLean hit sharply the center for one base, and Murray, starting with the pitch, went all the way to third. Marquard was able to slip over on the roller to Merkle. A strike and then topped a pop to McLean. NO RUNS, NO ERRORS.

McLean's decline to bunt at a high one, and on the next strike started to center. Strunk pitched sacrifice on a roller to Merkle. A strike and a ball were called on Barry. Then he sent up a high foul which Merkle dropped for an error. But Marquard's performance was called into question when he pitched the third strike and throwing him out at first. COLLINS, NO HITS, NO ERRORS, ONE RUN, TWO HITS, ONE ERROR.

THIRD INNING. Demaree took a "healy" at the first strike and then hit by Marquard. He tried to bunt and went out on a pop to Barry, who pitched to McLean. With the count two strikes and a ball, Demaree pitched to Strunk. The Chief looked invincible. NO RUNS, NO HITS, NO ERRORS.

Rube Olding went out on a drive to third base, and then hit by Marquard. Demaree bled, and the next one went to the plate. Marquard pitched to the plate, and Bender pitched to the plate. Marquard was the better and worked a double steal, landing on second and third. Marquard pitched to the plate, and Bender pitched to the plate. Marquard was the better and worked a double steal, landing on second and third.

FOURTH INNING. Fletcher took a called strike, waited out a ball, and then hit by Marquard. Burns tried to rush the Chief and swung on the first pitch, getting only a fly to Barry. Marquard pitched to the plate, and Bender pitched to the plate. Marquard was the better and worked a double steal, landing on second and third.

85 CENT FARE ON STONE MOUNTAIN'S FOUGHEE

Citizens Declare Promoters Deceived Them With Promise to Cut Rate. Charging gross deception on the part of representatives of the new Stone Mountain interurban street car line in obtaining grants, rights of way and franchises, about 3,500 citizens of Stone Mountain, Charlston and every point along the new line from Stone Mountain to Atlanta, a distance of 16 miles, began Friday to wage a relentless battle against the new concern to block its agents when they appear before the State Railroad commission to have a 25-cent fare between Atlanta and Stone Mountain established.

It is charged that when representatives of the new street car line visited the various property owners and citizens asking for rights of way, they assured the people they would be allowed to charge a rate of 25 cents, and that the competition would be a reduction of the present rate of 85 cents carried out by the Georgia Railroad from Stone Mountain to Atlanta.

At present the new fare is well under way and it is estimated that the new fare will be allowed to charge a rate of 25 cents. Several days ago, the owners of the new road, who the Stone Mountain interurban is now being built by the old Atlanta Consolidated road, presented petition to the State Railroad Commission asking that they be allowed to charge a rate of 25 cents.

Another argument of the citizens along the route is that the cost of construction in a street car line is more than in the country. It is estimated that the cost of construction in a street car line is more than in the country.

State Marshal Tells Householders How to Prevent Fires

Rules for householders who would avoid fires are contained in a bulletin issued by State Fire Marshal W. H. Joyce, through the office of the State Insurance Commissioner. He says: Examine your chimneys and flues. See that the mortar has not fallen out. Don't put ashes in wooden receptacles, nor let them come in contact with wood. Don't allow rubbish or combustible material to accumulate where sparks can drop into it. Examine your electric light wiring and have it put in good condition. Don't allow your stoves pipes to pass through wooden partitions or floors. Don't allow your stoves to rest on new wood at any point. Examine your flues for fire at least once a year. FIRST PICTURES OF ACTUAL PLAY IN THE WORLD'S SERIES

MERKLE SCORING FIRST RUN OF THE GAME FOR THE GIANTS. Fred Merkle, the Giants' first baseman, is shown above registering the initial tally of the World's Series in the third inning. Captain Larry Doyle brought Merkle home with a single to right after the New York first-sacker got on first through an error by Barry.

EDDIE COLLINS STEALING SECOND BASE. The Athletics' second baseman sliding into second on a pilfer trip in the fifthinning. Fletcher of the Giants is lying on the ground with Doyle in the background watching the play.

"HOME RUN" BAKER BEING THROWN OUT AT THIRD BASE. This play occurred in the fourth inning. Baker brought in Collins by knocking out a single. Stuff McInnis sacrificed the home-run hitter to second, but when he tried to take third on Strunk's hot smash, Marquard tossed to Herzog, who is shown tagging him out.

POSTPONEMENT IN FRANK CASE MADE CERTAIN

Letter From Dorsey Requests Judge Roan to Let Arguments Go Over.

A letter received in Atlanta Thursday from Solicitor Dorsey made certain the postponement of arguments for a new trial for Leg. M. Frank, which were to have been heard Saturday by Judge Roan.

The letter intimated that the Solicitor and his assistant, A. E. Stephens, who are now in Valdosta, would not return to this city before next Wednesday or Thursday. Mr. Dorsey requested that Judge Roan be asked to postpone, in addition to the Frank arguments, hearings on five other motions which were scheduled for Saturday. This will clean the Solicitor's slate and will not necessitate his return.

Defense Doesn't Object.

The postponement is wholly within the discretion of Judge Roan, and the defense in all probability would interpose no objection, even if it did not entirely suit their wishes. It is understood, however, that Frank's lawyers are satisfied with the delay, as it affords them time to obtain additional evidence of reported bias on the part of A. H. Henslee, Marcellus J. Jernigan and one or two other Frank jurors.

The Solicitor, who, with his assistant, A. E. Stephens, has been going over the voluminous amended motion of the defense with its 115 reasons for a new trial since its filing last week by Frank's lawyers, refuses to discuss the case except to express his confidence that a new trial will be denied. He stands firmly by his original declaration that the defense is without adequate grounds to ask for a new trial.

He and Attorney Stephens, isolating themselves in Valdosta, where they will not be interrupted by office visitors, have given their entire time to the preparation of their argument against any movement which will reopen the sensational murder case. While the hearing before Judge Roan, set originally for October 4, will have few of the spectacular features that marked the trial of Frank, the law-

yers are making ready for a titanic struggle.

Dorsey Is Determined.

The Solicitor is determined that the verdict of guilty shall stand. He is using every means to stave off what he regards as the remote possibility of a reversal of the verdict that brought the death sentence to the defendant.

Solicitor Dorsey prepared his request Wednesday for a delay of another week in the hearing. Judge Roan already had made known his willingness to extend the time if it was needed by the Solicitor. When he learned that Dorsey would not be ready next Saturday he promptly announced that the delay would be granted in accordance with his promise.

While the Solicitor is busily engaged reviewing the reasons of the defense, Frank's lawyers are seeking more witnesses who are said to have heard Henslee and other jurors make remarks before the trial indicating their violent prejudice.

Red Cross Stamps To Go on Sale Soon

Plans for the sale of Red Cross Christmas Seals are being made by the trustees of the Raoul Foundation, which has been appointed agent for Georgia.

Bernard Suttler, of Atlanta, has been selected State chairman for the campaign. He is being aided by Dixon Van Blarcom, of New York, representing the National Tuberculosis Association, who is now in Atlanta.

Last year the sales of the stamps in Georgia totaled 700,000, and this year it is hoped to sell 1,000,000.

'North of 53' Films Highly Interesting

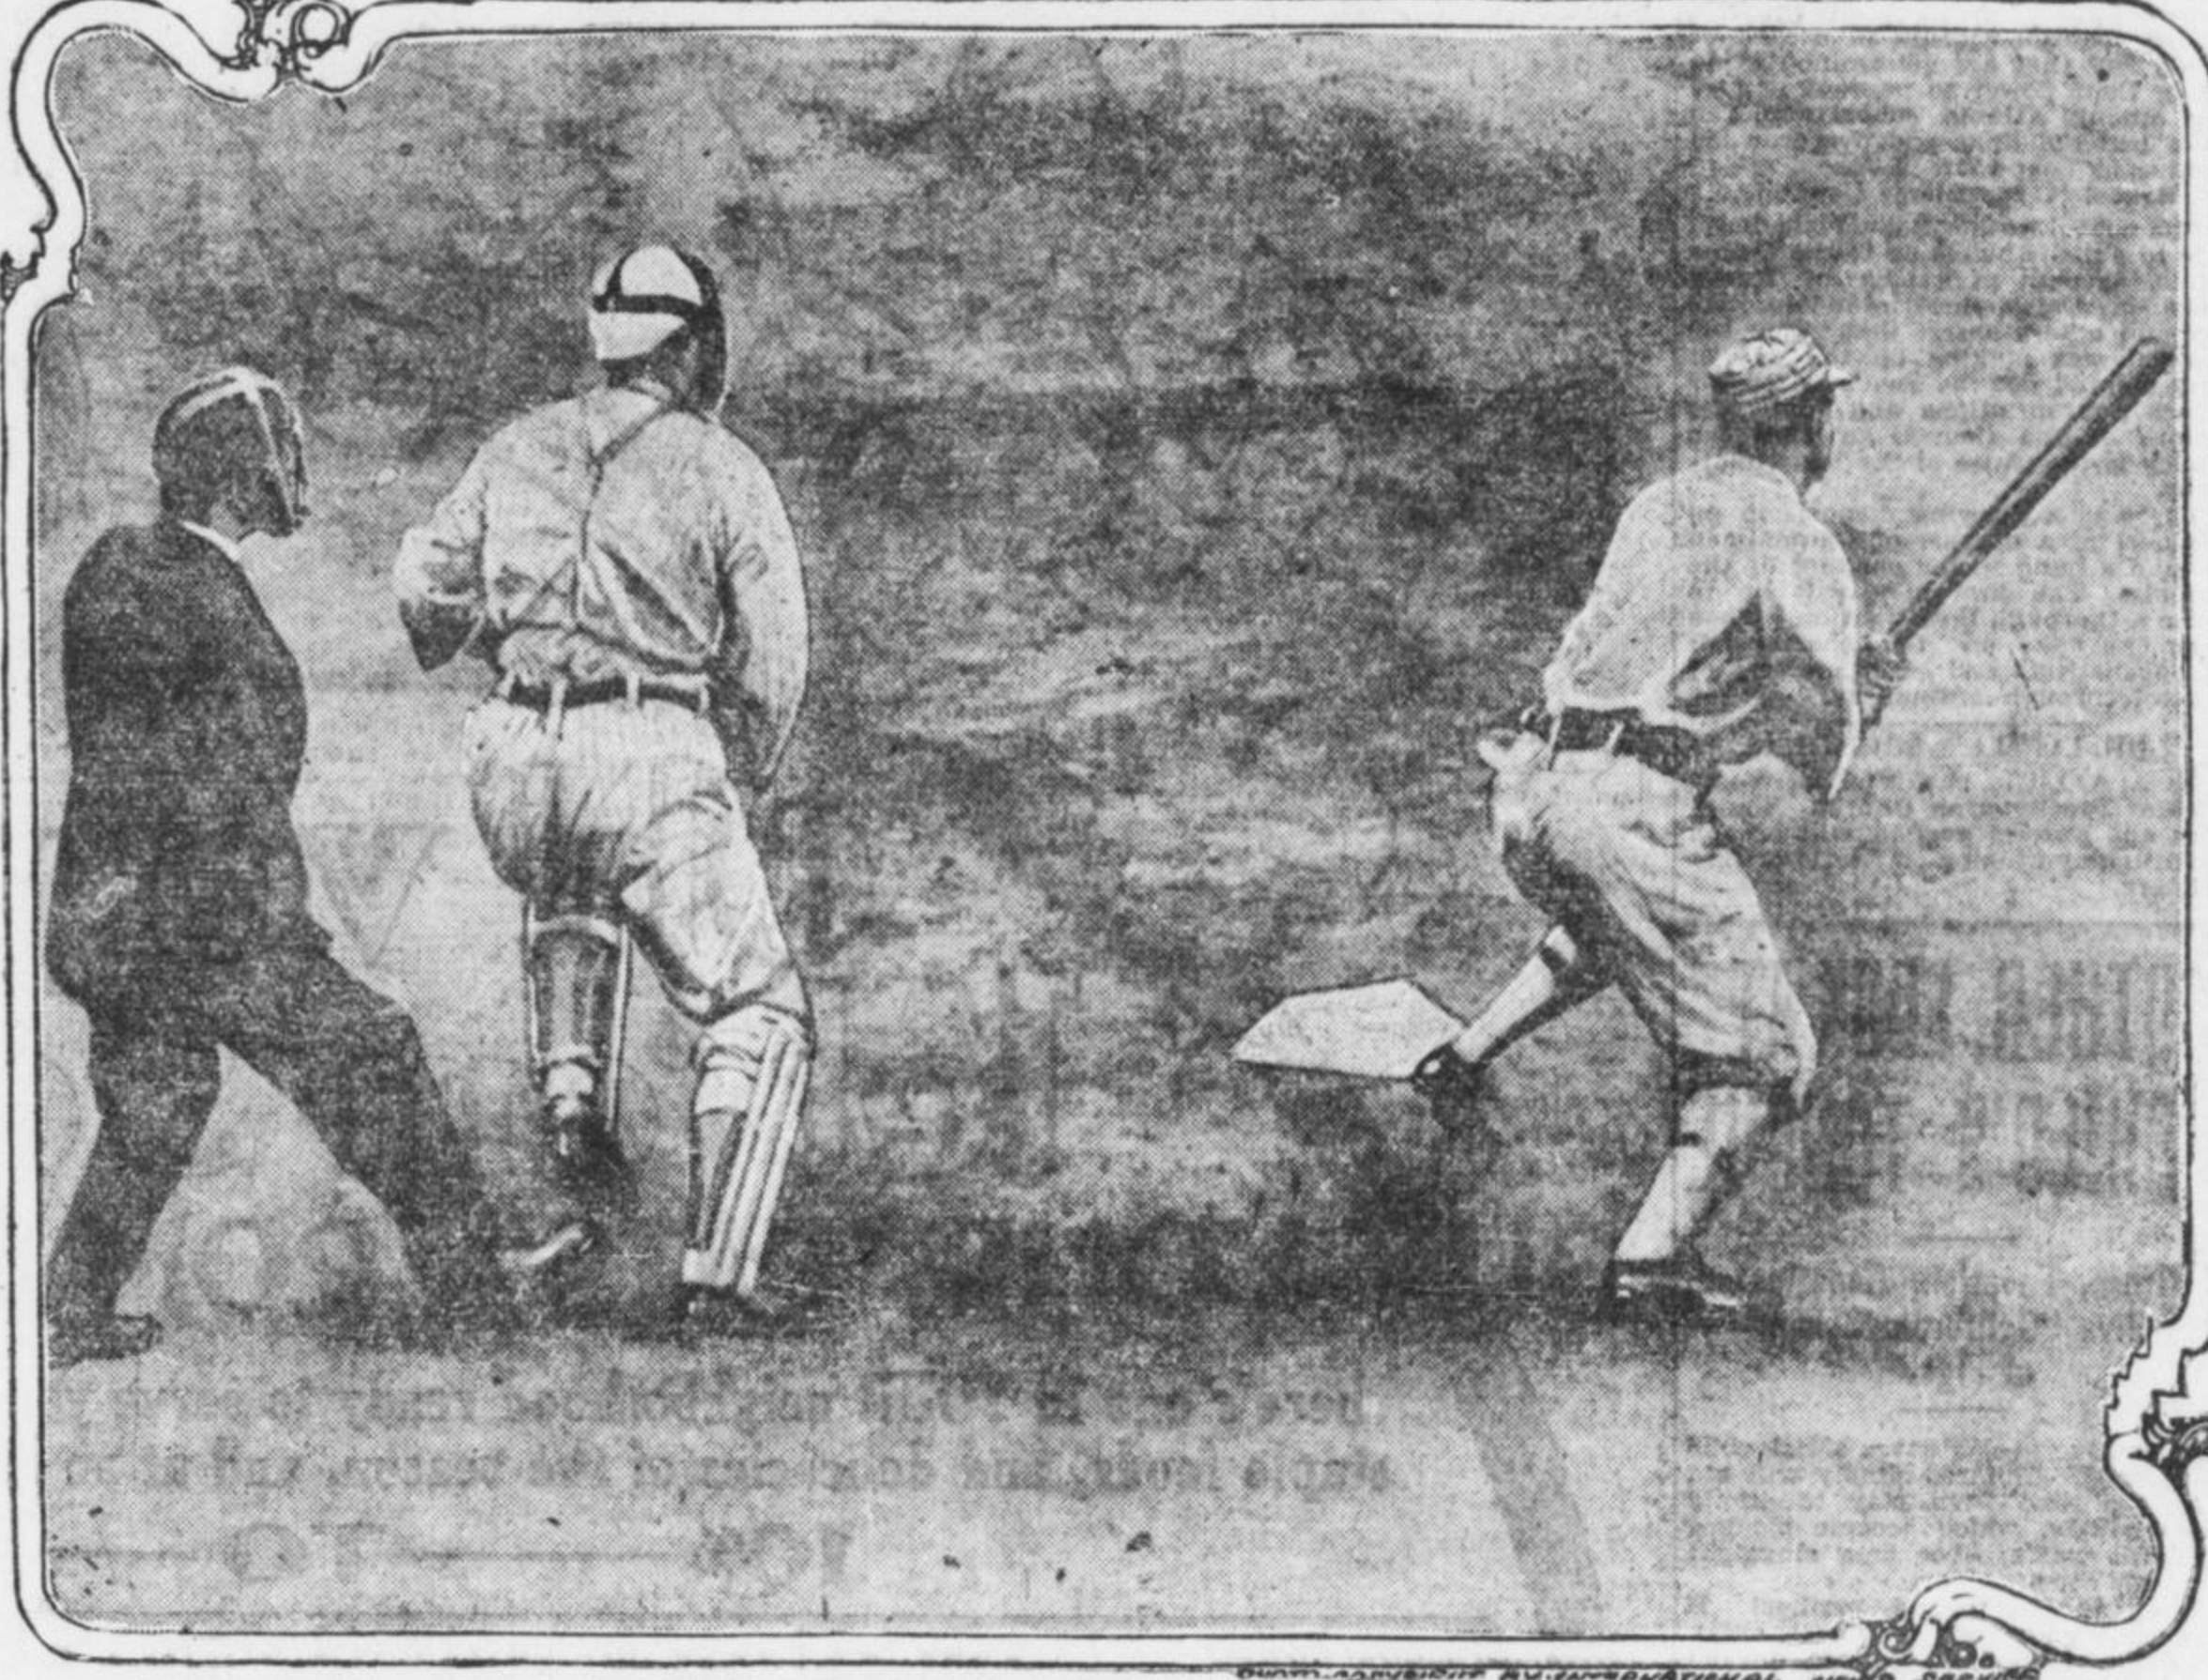

The most genuinely interesting and enthralling entertainment the Atlanta theater has offered this season is a set of moving pictures. As displayed Wednesday, the films, "North of 53," have caught much of the romance of adventurous effort and of achievement that has marked life in Alaska.

The pictures will be shown the remainder of the week, evening and afternoon.

Canal Lieutenant's Condition Unchanged

BALTIMORE, Oct. 9.—The condition of Lieutenant David DuBois Gaillard, of the Isthmian Canal Commission, who has been a patient at the Henry Phipps clinic, having suffered a nervous breakdown, is in no way improved to-day.

His collapse is laid to his strenuous work on the canal.

FRANK BAKER SMASHING OUT HIS TERRIFIC HOME RUN. The King of the Home Run Swatters just after having duplicated his feat of the 1911 World's Series. With two out in the fifth inning and Collins on second, Baker smashed one of Rube Marquard's slants into the lower tier of the grand stand. It was off Marquard that Baker made his first home run in 1911.

FEW MOMENTS! NO INDIGESTION OR SICK STOMACH — PAPE'S DIAPEPSIN

Digests All Food, Absorbs Gases and Stops Fermentation at Once

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if you're easy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate indigestible food; breath foul, tongue coated—just take Pape's Diapepsin, and in five minutes you will wonder what became of the indigestion and

distress. Millions of men and women to-day know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps the stomach regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easy that it is astonishing. Please don't go on and on with a weak, disordered stomach; it's so unnecessary. —Advt.

BUILDERS WARNED TO CLEAR STREETS

Chief Beavers and Councilman Hall Begin War Against Obstructors of Traffic.

Chief of Police Beavers said Thursday that his new order respecting the clearing away of debris and barriers in the principal streets would be rigidly enforced against all contractors and builders.

The order followed a conference Wednesday with Councilman Orville H. Hall, chairman of the street committee. Mr. Hall pointed out to the chief a half dozen places in the center of town where traffic was impeded or practically blocked by piles of lumber and other building material.

The police were instructed by Beavers to make cases against all contractors who failed to remove the obstructions after being served with notice.

Prison System All Wrong, Says Osborne

AUBURN, N. Y., Oct. 9.—"It is our firm opinion that our present prison system needs renovation from the old methods and many alterations in the new. It seems all wrong."

This statement was made to-day by Thomas Mott Osborne, millionaire head of the Prison Reform Commission, who spent a week in Auburn to make a prison study of the needs of the system from the viewpoint of a voluntary convict.

'Billy' Williams on Anti-Liquor Crusade

MAYOR PRO TEM RACE GROWS WARMER

Launching of Campaign by Alderman Ragsdale Makes Spirited Fight Certain.

The race for Mayor Pro Tem of Atlanta, to be elected by Council the first Monday in January, loomed up Thursday as the most important issue in city politics with the launching of an active campaign for Alderman I. N. Ragsdale, of the Tenth Ward.

Alderman James R. Nutting, with strong support, has been making a vigorous canvass for the place for some weeks, and the activities of Alderman Ragsdale and his friends means a hot fight. Not enough members have committed themselves to make the outcome of the race the least bit certain.

Alderman J. H. Harwell, of the First Ward, also has announced for the place, but he has conducted a very quiet campaign so far. The terms of James E. Warren, Mayor Pro Tem and Alderman from the Third Ward, both expire on January 1, and he can not be a candidate for re-election.

'Joker' in Patent Law Can Cost Us Millions

WASHINGTON, Oct. 9.—A "joker" that might cost American manufacturers millions of dollars has been discovered in the Kahn bill recently passed by Congress to protect patents on foreign exhibits at the Panama-Pacific Exposition.

The State Department has withheld formal notification of the enactment of the law pending an effort to have it amended.

SUFFRAGISTS OF ATLANTA GAIN 77 MEMBERS

Game Warden Mercer Tells League Only Cowardice Prevents Women Getting Franchise.

The Woman Suffrage League Thursday announced a gain of 77 new members following the semi-monthly meeting Wednesday afternoon, which was held in the assembly room at the Carnegie Library. The announcement is one more indication of the rapid growth of the woman suffrage cause in Georgia.

Mrs. Frances Whiteside said that many of the new members were young women. After a clear-cut speech by Mrs. Whiteside, who gave a brief history of the suffrage growth in America, Jesse E. Mercer, State Game Warden, gave a talk in which he declared that he believes woman suffrage is coming in Georgia soon.

He said that it was only cowardice that held the politicians back from opening the doors of the law and ballot to women.

Mrs. Albert Howell, vice president of the league, made a witty talk on how her husband had gradually taken an interest in the movement.

Mrs. Alice E. Cook, who spent the summer in Europe, told of the great suffrage meeting she had attended in Hyde Park, London, where she heard the noted Lady Florence Drummond speak from one of 25 booths, each of which had a noted speaker at the same time, and each with twelve sponsors carrying banners topped with the crown of liberty and guarded by a number of policemen. It was at that meeting that Miss Roach was converted to the cause.

Conductor Is Shot On Crowded Car

H. J. Dodson, a conductor on the East Point car line, who was shot by an unknown white man Wednesday night was reported to be resting well at Grady Hospital Thursday morning. Dodson was shot in the arm near the shoulder.

The car was crowded. According to witnesses the man accused the conductor of carrying him by his station.

IN ONE MINUTE! CLOGGED NOSTRILS OPEN—COLDS AND CATARRH VANISH

Stops Nasty Discharge, Clears Stuffed Head, Heals Inflamed Air Passages and You Breathe Freely. Try "Ely's Cream Balm." Get a small bottle, anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning! the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head, and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately. Don't lie awake to-night struggling for breath with head stuffed; nostrils clogged, hawking and blowing. Catarrh or a cold, with its running nose, food mucus dropping into the throat, and raw dryness is distressing but truly needless. Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

PLANS MADE TO ENTERTAIN 28 CONVENTIONS

Auto Roads to Battlefields and Stone Mountain Embraced in Bureau's Scheme.

Extensive plans for improvements in and around Atlanta in order that the 28 conventions scheduled for this city in 1914 can be properly entertained are under way by the Atlanta Convention Bureau. The project was broached at a meeting of the executive committee of the bureau at the Piedmont Hotel Thursday night, when the eleven members were guests of Manager H. N. Dutton at dinner.

Realizing that the old battle-grounds are Atlanta's greatest asset, the bureau plans the construction of an automobile boulevard that will completely circle the historic places, so they can be seen clearly without getting out of the automobiles or other vehicles.

This road, it is proposed, will start at the outskirts of Atlanta and encircle the grounds where the Battle of Atlanta, the Battle of Peachtree Creek and the Battle of Ezra Church were fought. It is hoped to have the road completed by July 22, 1914, when the fiftieth anniversary of the Battle of Atlanta will be celebrated.

The bureau also has under way plans for the establishment of a permanent roadhouse and barbecue grounds at Stone Mountain, which is one of Atlanta's most famous attractions. It is also planned to build a first-class automobile roadway to the mountain, which will enable motor enthusiasts to make the trip in comfort.

At Thursday night's meeting a committee was appointed to arrange the details of the proposition that will be made to the executive committee of the American Good Roads Congress to induce the organization to hold its 1914 meeting in this city. The committee is composed of the following:

Wilmer L. Moore, president of the Chamber of Commerce; Shelby Smith, of the Board of County Commissioners; C. D. Knight, of the City Council; Olin Stamps, of the Wholesale Grocers' Association; Frederick J. Paxon, of the Retail Dealers' Association; H. N. Dutton, of the Atlanta Hotel Men's Association, and Fred Houser, secretary of the Atlanta Convention Bureau.

Blease Wants Good Racing and Gaming

WASHINGTON, Oct. 10.—"I want plenty of good horse racing, chicken fighting and honest poker playing in my State," said Governor Cole L. OAKLAND, CAL., Oct. 10.—In February, 1912, William Walker, serving three months in the Alameda County charging for vagrancy, escaped with 26 days of his sentence to run. He returned to-day, married and wealthy and surrendered himself at the Central Police Station.

Loss of Memory Costs Man \$3,800

PHILADELPHIA, PA., Oct. 10.—A lapse of memory on the part of E. R. Wood, which caused him to forget he had purchased a \$3,800 property in 1887 until that fact was brought to his attention a few days ago, has resulted in his losing the ownership. A jury has sustained the claim of William and Mary Cole, who purchased the house for \$100 in 1903 after it had been occupied by squatters for fifteen years.

LEAHY WILL PUSH SIGNBOARD PLAN

Atlanta Industry Statistician to Have Bulletins in Depots and Hotels Soon.

Active work on the project to place signboards and bulletins filled with information about Atlanta's resources in the railway stations and hotels has been begun by W. H. Leahy, secretary of the Industrial and Statistical Bureau of the Chamber of Commerce.

Because of the illness of Mr. Leahy this work has been delayed several weeks, but now that he is back at his office it is expected that it will be completed soon.

The information that will be placed on the boards and bulletins will contain everything anyone needs to know about Atlanta, including the altitude of the city, figures proving the healthfulness of the climate, the bank clearings, the weekly payroll, the population and the rate of growth, figures showing the manufacturing industries located here and the magnitude of their products, and other data that stamps Atlanta as one of the foremost cities of the country.

Mr. Leahy said Friday morning that he expects to have some of the bulletin boards and signboards in place within a few weeks. He is now preparing the data, and will have the boards painted as soon as this task is completed.

PARIS, Oct. 10.—Americans visiting Paris will learn with delight that in future they may eat oysters here with impunity. A scientific commission, including distinguished members of the Academy of Medicine, will pronounce upon the beds. All that the visiting American will have to do is to ask for the committee's certificate of control.

Stereotyped Physical Exercises Are Interspersed With Graceful and Unique Folk Dances.

Several scores of sprightly and attractive young women nearly every afternoon are transforming the gymnasium at the Wesley Memorial Building into a scene of interesting activity since the opening of the "sym" classes this week. Garbed in immaculate sailor waists, "knickers," and silent "sneakers," novice and adept are going through the calisthenics, dumbbell exercises and other maneuvers with an exuberant enthusiasm that makes up for any lack of precision in the first few days of the classes.

That there may be no tedium or dullness the stereotyped gym exercises are interspersed with the graceful and unique folk dances of many lands. Staid business women may be seen engaging in these dances with as much enjoyment as the gayest and liveliest schoolgirls.

In order that all may be accommodated in the gymnasium, the afternoons during the week have been divided and allotted to different classes and for different purposes.

SIDELIGHTS on GEORGIA POLITICS

At a banquet to be tendered him Saturday night by citizens and admirers who reside in Brunswick and Glynn County, former Congressman William G. Brantley will be presented with a handsome silver service.

The fund with which the service was purchased was made up entirely within the county of Glynn, and the service is very handsome, notwithstanding the fact that the subscriptions were rigidly limited to \$1 each.

Practically every business man in Brunswick contributed, and the farmers thereabouts, with whom Mr. Brantley always has been very popular, also responded immediately and generously.

Mr. Brantley has decided to make Brunswick his headquarters, although his new legal duties will carry him all over the South, and it may be that he will find it impossible to remain in that city a great deal of his time. His new duties concern every railroad of importance in the South, and his work will touch every system penetrating Dixie.

It generally is agreed that Mr. Brantley's retirement from Congress left a vacancy in the Georgia delegation hard to fill. He was by many considered the strongest man in Congress, and certainly there has not been a time within the last ten years when he was not looked upon, by those associated with him most intimately at least, as one of the real, constructive leaders.

Mr. Brantley followed one of the greatest Congressmen Georgia ever sent to Washington—Henry G. Turner—but he filled the former Congressman's place eventually to the satisfaction of that great man's constituents. And when Brantley retired from Washington he went out with little, if any, less prestige than Mr. Turner.

Brantley is out of politics forever now, however, and expects to devote the remainder of his active life to the practice of law. It always was a great financial sacrifice to him to remain in Congress, anyway.

The only objection I can hear to the proposed currency bill is that it will make times too good," said Congressman Gordon Lee, who is in Georgia for a few days.

Mr. Lee expects to see the bill enacted into a law at the present session of Congress.

The object of Mr. Lee's visit to Georgia at this time is to close up with the counties of Whitfield, Gordon, Bartow and Catoosa, the contract which will see the construction of the proposed Government highway through those sections.

Although expressing disappointment that injunctions have been filed in Catoosa and Gordon Counties to restrain the officials from collecting taxes for the building of the road, Mr. Lee optimistically expressed the belief that all these matters would be adjusted amicably and the road started at an early date.

The Georgian is accompanied by James T. Voshell, from the Bureau of Public Roads, and Mr. Kennedy, the Government engineer, who will supervise the construction of the road.

Governor Slaton has honored signally the Atlanta Chamber of Commerce thus far in his Executive appointments.

He has named Robert F. Maddox a

member of the State Board of Health, Wilmer Moore a trustee of the Georgia Home for the Training of Girls, Fred Paxon Chief of Staff in the Military Department, and Asa G. Candler a member of the personal staff of the Governor. These are all popular and approved appointments.

The Governor, indeed, appears to have been altogether happy in his appointments made to date, although it never will be possible for him—as it never has been possible for other Governors—to make an appointment at any time that suits everybody.

The question of providing a new Executive Mansion is sure to come up for definite action before the Legislature soon—if not before the present General Assembly next summer, then before the next one sure.

The present mansion is, so everybody agrees, not at all fit for the purpose for which it was intended. It is physically impossible, and to patch it up generally is conceded to be worse than a waste of good money. In addition to that, its location is not at all such as any private gentleman would select for a home—and, after all, while the Governor's Mansion is an official residence, in a way, it is primarily designed as a home for the Executive.

The next Legislature perhaps will dispose of the present prosperity—which may be done most advantageously, of course—and a new and handsome residence will be erected somewhere else in the city.

The question of an exact new location is not one particularly interesting to Legislature, as there are a dozen or more locations that would answer admirably.

Governor Slaton says the Bartow County Fair is a crackerjack and he advises all who can to visit it.

"I wish it were possible for me to visit all the fairs to which I have been invited this fall," said the Governor. "There are to be many in Georgia, and I doubt that there will be one which is not a distinct credit to the community holding it, and might well worth seeing."

"If I attempted to visit all of them, however, I would have no time left for anything else. I shall visit quite a few as it is, perhaps, for there are some invitations I have in hand that I can not yet decide what to do with."

"I would like to encourage the county fair habit in any community interested. I believe in county fairs. They do genuine good, not only in bringing the people together, but in endangering a keen, healthy and friendly rivalry in agricultural, live stock and domestic products."

"The more county fairs, the merrier, and the better, I think!"

SNOBBISSNESS CAUSE OF SCORNBODDING MAYOR, AFB, DIST

Mayor James G. Woodward, after a personal inspection of several of Atlanta's overcrowded public schools, declared Friday that snobbiess is a cause of the bad condition. He said the Board of Education has been yielding to class prejudice for years in building schools and assigning pupils and that a large study of the school districts will indicate to any fair-minded man that the schools are being run in the interests of particular castes rather than for the whole people of Atlanta.

"I went out to make personal investigation of the schools so I could have what reliance to put in the reports of bad management and to determine the truth of sensational published statements of acts of overcrowding. I want the people to know what I found," says the Mayor.

"First, I went to the Highland Avenue school, reported to be the most overcrowded in the city. It is overcrowded. The new five-grade Moreland Avenue school, built to relieve the Highland Avenue school, has not yet taken its full quota of pupils. There was much complaint.

"When I had my eyes opened as to reaching the Boulevard school. There were 127 vacant seats in it.

Takes Full of Pupils.
"Next we visited the new Forrest Avenue school, near by. It is reported as a school of 'mix' and is full. When it is so near the Boulevard school, we proceeded to make a deeper investigation. By polling the pupils in the various grades we found that there are enough pupils in the Forrest Avenue school who live nearer the Boulevard school to fill the Boulevard school comfortably.

"The Forrest Avenue School is near the Highland Avenue, then the Boulevard. If all the school children attend reasonable numbers of Boulevard School were required to attend there, it would provide sufficient room in the Forrest Avenue school for all the excess pupils in the Highland Avenue School.

"I don't see why the Forrest Avenue school was ever built. The Boulevard school would contain the same number of pupils as the Forrest Avenue school. There are vast areas in several sections of the city where no school at all.

FRANK CHEERFUL ON DATE FRIDGE SET FOR END

Prisoner Helps Lawyers in Fight for New Trial—Dorsey Works Hard.

Undisturbed by the thought that if his sentence had not been stayed by the appeal of his attorneys for a new trial he would some time during the day pay out his life on the gallows, Leo M. Frank sat in his cell in the Tower Friday, quietly and cheerfully engaged in working on a number of the details of his greatly involved case.

Frank was convicted of murder August 25. On August 26 he was sentenced by Judge L. R. Ransom to be hanged by Saturday. The hearing of his attorneys' motion for a new trial was set for October 4, but the vast amount of work necessary in the preparation of the arguments led to a request by solicitor Dorsey for more time. Frank's delay was granted by Judge Ransom, with the understanding that he would extend the time still further if desired.

Hearing October 18. Solicitor Dorsey and his assistant, E. E. Strickland, secluded themselves in Yalobusha, where they would be insured against interruptions, and began their review of the 115 reasons for a new trial submitted by the defense. Within a few days they say that they could not complete their work by Saturday. Another request for more time was granted by Judge Ransom. The hearing will take place October 18. In all probability, the Solicitor is unable to conclude his preparation by that time.

In the meantime, Frank's excitement, set for today, has been indefinitely postponed. The prisoner continues to work on the case with the same quietness and determination. He has been heard to say that he was much surprised by a jury that was swayed by influence outside the evidence.

Frank Aids Lawyers. He is taking a most active interest in the movements in his behalf and is himself assisting the attorneys materially along certain lines. He is visited constantly by his relatives and friends, and is maintaining the same optimistic demeanor that has marked his bearing since he was first taken to the Tower.

Frank's counsel are centering their efforts at present upon an investigation of the evidence which has been alleged against a number of the jurors in the case. They have already had a profitable conference with H. Hendrix and Marcelus J. J. Hendrix, who have depositions indicating that two other jurors which will probably be filed before the hearing on the new trial.

BUSINESS MEN SHOWER MORE PRAISE ON SUNDAY AMERICAN AND GEORGIAN

More congratulations are published today, of representative men, on THE SUNDAY AMERICAN's great achievement—a net paid circulation every Sunday NOW of over 100,000 copies.

to a newspaper, but the fact that this far exceeds that of any other Southern newspaper, I believe is one of the most remarkable accomplishments of the times.

Distinctive leadership has been assumed by HEARST'S SUNDAY AMERICAN since its entrance in the Southern field. Its spectacular growth in circulation insures it a most powerful and beneficial influence.

The leadership of THE SUNDAY AMERICAN, as well as THE GEORGIAN, is of an entirely positive and constructive nature. It is a healthy, vigorous, and aggressive, militantly for the right.

THE SUNDAY AMERICAN has shown itself to be for Atlanta and that means for the entire South. It is probably one of the greatest constructive forces that this section possesses.

THE SUNDAY AMERICAN has the same well-earned reputation of being the best newspaper in Atlanta. It is a credit and an honor to Atlanta and the South along with the entire South.

As a citizen of Atlanta, I want to congratulate THE SUNDAY AMERICAN upon the magnificent success it has achieved.

At your request the Prison Commission ordered this stopped in Georgia, leaving only eight States which thus degrade their prisoners. To-day a judge who can save a first offender.

Convicts, you found, clothed in stripes without regard to conduct. As your request the Prison Commission ordered this stopped in Georgia, leaving only eight States which thus degrade their prisoners.

To-day the convict can rid himself of the degrading stripes by proving worthy. You give him hope. This summer you opened day schools in your buildings for children.

Daily Vacation Bible Schools, they were called. Fifty-seven teachers were employed. And day after day twenty-five hundred eight-two children came without money to be taught.

You gathered these before they had become wayward, incorrigible or fit for probation or the jail. But over all was a shadow. Again and again in fighting vice, helping prisoners, teaching children you came upon the trail of that monstrous evil, the liquor traffic.

"IT SENDS THE INDIVIDUAL TO THE GUTTER. RUINS THE HOME. CORRUPTS POLITICS, AND IN SOME RESPECTS IS THE MOST POWERFUL FOE OF THE CHURCH OF CHRIST."

"Above the cradle of every baby in America hovers the vulture, the saloon." And yet, complainous ones urge that you be recant on your duty.

"Preach only the gospel," they say, forgetting that the good news which brought our Lord and Saviour to the cross is the very light which makes it impossible for you to be silent in sight of the sin and shame and suffering caused by the liquor traffic.

You must cry out. If silent you would share the guilt. For in the pocket of every citizen of a community that licenses these curses is a part of the price of the tears and blood of women and children.

God's light will lift this shadow. Across the ages He calls: "Go forward!" You have the power. Let us obey!

Last year your Committee disbursed the following sums:

TRY THIS PIE CRUST (Written especially for the Cottolene Cook Book by Mrs. Lincoln)

Mix 1 scant half-teaspoon salt with 1-2 cups pastry flour. Chop in, with a knife, a scant half-cup of chilled lard. When well cut together, mix in very gradually 3 tablespoons milk, mixing evenly.

stand one roll on end, pat the fat and roll to a round a little larger than the pie plate, cover plate and fill with pie material. Roll other half of paste in same way, making it 1-2 inch larger than plate, make several incisions in top crust, lay it loosely over pie, wet edge of lower crust and press the two together, marking a fork. Baking varies great from puffing and helps to keep in the juice.

While you think of it, drop a postal for HOME HELPS, this FREE Cook Book, written by five of America's greatest cooking experts. It also tells, clearly, how to use Cottolene successfully in the recipes you have always used.

Death Hovers Over Tombs Ordinaries

LYONS Oct. 10.—The special election to fill the vacancy in Tombs County Ordinar's office, caused by the death of Judge J. Lawson Wilkes, resulted in victory for Judge Shelton P. South over four rival candidates.

Many Moonshiners' Revenue Men Busy

The open season for moonshiners has begun, and Government hunters report the same unusually plentiful, especially in the mountains of North Georgia. Several revenue men who have been kept in the mountains since returned with good bags, and the county jail is crowded with twenty and fifteen lanky moonshiners with a wonderful amount of corn whisky and a supreme disregard for the law.

Dentist Used His Child to Swindle

LOS ANGELES, Oct. 10.—"My little girl stole and pawned the checks, but as my daughter." This was the confession today of Bruce D. Kimball, dentist, incident to the arrest of a ten days' term of the 13-year-old daughter, Brinella. The child was discovered in a credit fraud forgery in department store here.

JACKSON SCORES BLALOCK FOR INTERVIEW

Former Revenue Collector Declares His Successor Is Either Ignorant or Has Falsified.

Charging that A. O. Blalock, his successor as Collector of Internal Revenue, is playing to the public for political notoriety, Henry S. Jackson, in a letter to The Georgian, sharply scores him for published statements criticizing Jackson's administration of the office and his alleged discrimination in favor of the negro.

Blalock declares that Jackson's charges of discrimination, and his statements that the negroes employed in the Internal Revenue Department were "political negroes and carried a large vote for Mr. Jackson at the national convention," are absolutely false.

"I have nothing to do with Mr. Blalock's negro policy, or with his desire and efforts to remove negro watchmen and elevator men from their positions in order that he may appoint some of his political allies and friends to fill those jobs.

Statement Called False. "I desire to say that if Mr. Blalock stated that I had ever discriminated against white men in favor of negroes in any appointments I made while Collector or Custodian, he stated what was absolutely false, and he made the statement either in ignorance or in disregard of the recorded facts.

"If he is correctly reported in saying that there was \$20,000 a year paid to negroes under my administration of the office, while competent white men were forced to accept work suitable for the negro only, I desire to say that there is not one word of truth in the statement. Mr. Blalock, if he made that statement, made it in either ignorance or utter disregard of the facts which are matters of record.

Further, in his statement that charges had been preferred against the night and day watchmen and forwarded to Washington, if Mr. Blalock is correctly quoted in saying that these negroes in question are political negroes and carried a large vote for Henry S. Jackson at the last national convention, he states what is absolutely untrue. At no time during my administration did either of these two watchmen, or any other man under me as Collector or as Custodian carry any vote, either large or small, for me at the national convention or elsewhere.

Long in the Service. "The men Mr. Blalock is now trying to remove were in the service before I became Collector or Custodian. When I took control, I found their records good, and while I remained in charge they performed their work faithfully and well. They are under the rules and regulations of the Civil Service, and the appointing officer or head of a department can not remove any classified man without charges preferred and sustained.

"Perhaps Mr. Blalock will be able to change all this, and so arrange it that he will be able to remove competent men who are supposed to be under the protection of the Civil Service, and further he may arrange to have the commission certify to him only white applicants, and to change the entire policy of the commission and the entire laws of Congress, in order that he may carry out the policy he has declared would be existing hereafter.

"In conclusion I desire to say that while I was collector and custodian inspectors were sent from Washington at certain intervals, both from the Revenue Department and from the Custodian's Department, to make regular inspections. In every instance the inspectors reported the custodian's force under me as being competent and attentive to duties, and in the performance of them, and the building, while in my charge and the force under me, always received a rating of first class from these inspectors. This would absolutely disprove Mr. Blalock's assertions that incompetent men were retained."

Court Fight to Give Mother School Job

NEW YORK, Oct. 9.—Declaring that the removal of Mrs. Bridget C. Peixotto from the rolls of New York's public school teachers because she bore a child shows that "public and private morality in this country is at its lowest ebb," Attorney A. J. Tallely, who is working for the woman's reinstatement, said to-day that her case would be carried to the higher court.

A writ of mandamus will be asked for in the Supreme Court to compel the reinstatement of the teacher who had been in the school service eighteen years.

Animals Escape From Circus; Kill Flocks

Special Cable to The Atlanta Georgian. BERLIN, Oct. 9.—The destruction of the flocks and herds in the mountains of Styria, Austria, caused by wild beasts that escaped from a menagerie in September has been so great that the Austrian Government has ordered an expedition to kill them.

A reward of \$750 is offered for the head of the lioness, and smaller rewards for the heads of the other animals. "Pantalettes" are back, says Lady Duff Gordon in her weekly review of fashions in next Sunday's American. Anti-Jewish Feeling Stirred by Priest

Special Cable to The Atlanta Georgian. KIEFF, RUSSIA, Oct. 9.—Anti-Jewish feeling which threatened to get beyond control of the military authorities to-day followed the reading of the indictment in the ritual murder case of Mendel Bellis, a Jewish priest, who is charged with slaying a 13-year-old boy as a human sacrifice during a religious celebration.

High feeling was aroused by the details as set forth by the attorneys for the prosecution.

Kills Herself Rather Than Live in a Jail

NEW YORK, Oct. 9.—Because she dreaded the prospect of spending her life behind prison bars as the wife of a jail warden, Mrs. Henry O. Schlieb to-day killed her 4-year-old son and then committed suicide in the warden's apartments of the Queens County Jail.

Schlieb has been warden of the jail for twelve years and was soon to be appointed keeper of the Ludlow Street Jail. The monotonous life preyed upon his wife's mind.

Hooper in Memphis To Urge 'Dry' Laws

MEMPHIS, Oct. 9.—Governor Ben W. Hooper is here to-day to address a mass meeting of laymen and citizens who will adopt measures asking for the passage of prohibition law enforcement bills at the special session of the Legislature next week.

The mass meeting is preliminary to special services in the Protestant churches next Sunday, when prayer will be offered for the passage of the law enforcement legislation.

2 Magistrates Under Charges in Savannah

SAVANNAH, Oct. 9.—A justice of the peace scandal will be aired before the Grand Jury for the November term.

Justices A. H. Lane and F. S. Van-Gleason are under charges of gross misconduct in using their offices as collecting agencies. About 1,500 warrants said to have been issued by them, for the purpose of collecting the fees, after which the warrants were supposed to have been destroyed.

MAYOR BLAMES MANAGEMENT OF SCHOOLS

Probably Will Urge Redistricting of City—Would Remodel Buildings to Relieve Crowding.

Mayor Woodward, with Alderman J. H. Harwell and Councilman Claude L. Ashley, made an inspection of a number of Atlanta's public schools that were reported as being most overcrowded Thursday morning.

The Mayor intimated that he would issue a formal statement on his observations which would be in the nature of advice to the Board of Education and Superintendent William M. Slaton.

The party made the tour as the guests of Councilman Ashley in an automobile.

"I am inclined to believe that most of the trouble is due to the management actively in charge of the schools," he said.

"I am convinced that the overcrowding is not as bad as it has been pictured. The greatest trouble seems to me to be the districting of the city. There doesn't seem to be much system in the division of the pupils among the schools."

Would Remodel Buildings. Mayor Woodward's idea is that about \$50,000 spent on remodeling old buildings would give relief for the next year. He likely will advocate an appropriation for this purpose before the new Council.

Members of the Council have become much interested in the situation, and at the next meeting a special committee to investigate conditions probably will be appointed.

Councilmen say that while they are powerless to do much before the start of the year on account of a lack of funds that they are determined to do all in their power to prevent suffering among Atlanta school children from bad buildings and overcrowded conditions next year.

School Heads Blame Council.

The school authorities do not hesitate to put the blame up to the Council on account of a lack of funds. President Daley, Superintendent Slaton and others assert that when the Council was making up the budget they pointed out the serious need for larger appropriations.

DR. LITTLE'S SERMON.

Dr. A. A. Little, pastor of the Westminster Presbyterian Church, Boulevard and Forrest avenue, will preach next Sunday evening on "Serving Two Masters."

MOTHER, LOOK AT CHILD'S TONGUE

If Cross, Feverish, Constipated, Give "California Syrup of Figs."

A laxative to-day saves a sick child to-morrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company." Don't be fooled!—(Adv.)

T. L. Bishop, Veteran Atlanta Lawyer, Dies

Thomas L. Bishop, 61 years old, No. 427 South Boulevard, died Thursday morning. He was a member of the Atlanta Bar Association and was a resident of Atlanta all his life.

He is survived by his wife, two sons, Julius and George Bishop, of North Carolina; one daughter, Mrs. Frank Shumate of Atlanta; his mother, Mrs. Martha Bishop, and one sister, Mrs. Sarah Frost.

OBITUARY.

The funeral of Ellen, the 11-month-old daughter of Mr. and Mrs. John W. Shannon, who died Tuesday night at the family residence, No. 8 Anna street, was held at Poole's chapel Thursday morning at 9 o'clock, and the body was sent to Tilton, Ga., for interment.

The funeral of Herbert Vandiver, the 5-month-old grandchild of Mr. and Mrs. L. M. Moffett, who died at the residence, No. 5 Ethel street, Wednesday, was held at Poole's chapel Thursday afternoon at 3 o'clock, and the body was sent to Corinth, Miss., for interment.

The body of Lucy N. Mackin, 2-year-old daughter of Mr. and Mrs. M. C. Mackin, No. 254 Clark street, who died Wednesday night, was sent to Stone Mountain Thursday for funeral and interment.

Mrs. Kate Beynon, 53 years old, died at the residence of her daughter, Mrs. A. Massar, No. 134 Mill street, Thursday. Mrs. Beynon is survived by her son, Harry Beynon, and another daughter, Mrs. Abe Smith, both of Carnegie, Pa. Funeral arrangements will be announced later.

There's a woman who would rather dance than be a duchess. This remarkable romance of Mile. Trouhanowa, of the Imperial ballet, will be told in next Sunday's American. A glowing portrait of her in colors, drawn especially for this newspaper by Leon Bakst, the marvelous Russian master of color and form, will appear also.

BUSINESS MEN SHOWER MORE PRAISE ON SUNDAY AMERICAN AND GEORGIAN

More congratulations are published, on-the-day, of representative men, on the SUNDAY AMERICAN'S great achievement—a net paid circulation every Sunday NOW of over 100,000 copies: COL. FRED J. PAXON, Merchant, Philanthropist, and Church Worker:

Distinctive leadership has been assumed by HEARST'S SUNDAY AMERICAN since its entrance in the Southern field. Its spectacular growth in circulation insures it a most powerful and beneficial influence.

The leadership of THE SUNDAY AMERICAN, as well as THE GEORGIAN, is of an admirable sort. There is a kind of passive or negative goodness that I heartily despise. The spirit of the Hearst newspapers, however, is aggressively, militantly for the right.

THE SUNDAY AMERICAN has shown itself to be for Atlanta and that means for the entire South. It is probably one of the greatest constructive forces that this section possesses. It is patriotic and unflinching in its stand. It is working for the up-building of the South along commercial and industrial lines. It is urging ceaselessly for a better citizenship. It is seeking to minimize and eliminate the evils that afflict us here no less and no more than in any other part of the country. For this I most cordially commend the paper, congratulate it on the remarkable success it has attained and wish for it the continued success it merits.

FORREST ADAIR, Real Estate Operator, Developer, and Mystic Shriner.

As a citizen of Atlanta, I want to congratulate THE SUNDAY AMERICAN upon the magnificent issues gotten out since its establishment here. Typographically, editorially and in every way it seems to have reached perfection in the art of newspaperdom. And in my opinion it is doing a wonderful work toward building up not only Atlanta but our entire Southeastern territory.

J. F. LETTON, Manager Hotel Ansley:

The achievement of THE SUNDAY American in building up a circulation of 100,000 within so short a time after its establishment is one of the most remarkable examples of enterprise I have ever seen. It marks a red letter day in the history of the South, and should be an inspiration to all business men of Georgia and Atlanta. The influence of Mr. Hearst's newspapers in Atlanta, THE SUNDAY AMERICAN and THE GEORGIAN, can hardly be estimated. They already have done much toward the advancement of the State and city, and have been consistent boosters for Atlanta since the day they were established. Each of them can be

numbered among the best newspapers of the country and I am confident that they will continue to grow both in circulation and in influence, until there are none better.

WILLIS E. RAGAN, Capitalist and Merchant:

I am indeed glad to know that THE SUNDAY AMERICAN has made such wonderful progress. Undoubtedly it is due to its splendid management in giving the people just what they want. It is an illustration of the Atlanta spirit, and is like all other businesses here which have brains and energy behind them, success is the sure reward. I have no intimate knowledge of just what 100,000 net paid circulation means to a newspaper, but the fact that this far exceeds that of any other Southern newspaper, I believe is one of the most remarkable accomplishments of the times. Mr. Hearst is to be congratulated on the progress of THE SUNDAY AMERICAN and THE GEORGIAN.

L. W. ROGERS, Leading Grocer:

It has been with interest that I have watched the growth of THE SUNDAY AMERICAN and THE GEORGIAN. I know the Hearst newspapers have made many wonderful strides, but I doubt if any of them has anything to its credit like THE SUNDAY AMERICAN'S growth to a 100,000 net paid circulation within six months after the beginning of publication. It is just like everything else in Atlanta and Georgia. You know, if you plant anything in this Georgia soil and work it right, there is no telling to what growth it will attain. The same careful management of a business in Atlanta will have the same result. I am a reader of both THE GEORGIAN and THE SUNDAY AMERICAN and the day would not be complete without them. The Hearst Atlanta newspapers are very much in demand.

E. M. HUDSON, Sales Manager of the Steward-McCord Company:

It makes one feel good to see an Atlanta paper meeting with the success as THE SUNDAY AMERICAN, and while the 100,000 mark in net paid circulation has broken all Southern records, I predict that this newspaper will continue taking on subscribers until the 100,000 mark will simply look like the half-way station. THE GEORGIAN AND THE SUNDAY AMERICAN are live newspapers, and their success is nothing more than expected of any Atlanta enterprise. There are great possibilities in Atlanta and the Hearst newspapers here are an illustration of what success is awaiting the energetic man.

A. L. ANDERSON, of W. A. Baker Company, Real Estate:

I want to congratulate you on the wonderful success you have made in securing over 100,000 net paid circulation for THE SUNDAY AMERICAN. My hat is off to you. I want to shake your hand in congratulation. You have certainly won a great victory.

State Marshal Tells Household How To Prevent Fires

Rules for householders who would avoid fires are contained in a bulletin issued by State Fire Marshal W. R. Joyner, through the office of the State Insurance Commissioner. He says: Examine your chimneys and flues. See that the mortar has not fallen out. Don't put ashes in wooden receptacles, nor let them come in contact with wood. Don't allow rubbish or combustible material to accumulate where sparks can drop into it. Examine your gas connections and put them in good condition. Examine your electric light wiring and have it put in good condition. Don't allow your stove pipes to pass through wooden partitions or come near wood at any point. Don't allow your chimneys to rest on wood; build them from the ground up. Elevate your flues to at least five feet above the highest point of a peaked roof.

Yom Kippur, Jews' Most Solemn Day, Starts at Sunset

Yom Kippur, the Day of Atonement, the most solemn day on the Jewish calendar, will be celebrated in Atlanta beginning Friday at sundown. The fast continues until the same hour on Saturday.

From sundown Friday until the close of the day Saturday, no orthodox Jew will touch food of any kind. Instead, he will go to the synagogue, where he will commune with his God and make silent confession of his sins. The rabbis at the synagogue will chant sacred prayers, all fraught with the deeper emotions relative to true repentance.

According to the Jewish calendar, the year 5774 of creation is opening. The solemn season began with Rosh Hoshanah a week ago Wednesday.

35 ASK NEW SEATS ON ATLANTA BENCH

Five To Be Chosen When Appeals Court Settles Frank Case and Hill Retires.

The five judges for the municipal court created by the last Legislature will be named by the four Superior Court judges just as soon as Judge Ben Hill, now of the Court of Appeals, takes his place on the county bench. Judge Hill will resign from the Court of Appeals immediately after the disposition of the Frank case. These facts became known Friday.

Judge George L. Bell, one of the four Superior Court judges who will make the appointments, declared Friday that 35 applicants are in the field for the new judgeships.

"As only five men are to be selected from this number," said Judge

Woman Voter, 103, Is Relative of Lincoln

EUGENE, OREG., Oct. 10.—"Grandma" Sarah Todd, sister-in-law of Mrs. Abraham Lincoln, aged 103, to-day was a registered voter. Mrs. Todd, whose husband was the war President's brother-in-law, is as sprightly as a woman 30 years younger. "Why shouldn't I vote?" she asked to-day. "I'm old enough."

Bell, "and as all of the applicants are men who no doubt, would make good judges, it is obvious that we face rather a hard problem. However, I expect the appointments to be made soon after Judge Hill takes his place on the bench. The appointments will be sent to the Governor, who will pass on them and then name a chief judge from the number."

Among the prominent applicants for the new judgeships are L. F. McClelland, Judge Edgar H. Orr and Judge F. M. Powers, of the present justice courts; Walter R. Daly, James B. Ridley, T. O. Hatcock, Don K. Johnston and Eugene Thomas.

The new court also will require the appointment of a chief marshal and a clerk. John D. Steward, T. C. Miller and Clarke Lewis are being mentioned for the clerkship.

Chief's Close Call Stirs Fire Fighters

SNOBBISSNESS CAUSE OF SCHOOL GROWING, SAYS MAYOR, AFTER VISIT

Mayor James G. Woodruff, after making personal inspection of several of Atlanta's overcrowded public schools, declared Friday that snobbishness is a cause of the half condition. He said the Board of Education has been yielding to class prejudices for years in building schools and in assigning pupils and that a little study of the school districts will indicate to any fair-minded man that the schools are being run in the interests of particular castes rather than for the whole people of Atlanta.

"I went out to make personal investigation of the schools so I could know what reliance to put in the reports of bad management and to determine the truth of sensational published statements of acute overcrowding. I want the people to know what I found," says the Mayor.

"First, I went to the Highland Avenue school, reported to be the most overcrowded in the city. It is overcrowded. The new five-grade Moreland Avenue school, built to relieve the Highland Avenue school, has not yet taken its full quota of pupils. There was much complaint.

"When I had my eyes opened as to reaching the Boulevard school,

There were 137 vacant seats in it. Takes Poll of Pupils.

"Next we visited the new Forrest Avenue school, near by. It is reported as a school of 'class,' and is full. Since it is so near the Boulevard school, we proceeded to make a deeper investigation. By polling the pupils in the various grades we found that there are enough pupils in the Forrest Avenue school who live nearer the Boulevard school to fill the Boulevard school completely.

"The Forrest Avenue School is nearer the Highland Avenue than the Boulevard. If all the school children within a reasonable radius of the Boulevard school were required to attend there, it would provide sufficient room in the Forrest Avenue School for all the excess pupils in the Boulevard school.

"I don't see why the Forrest Avenue School was ever built there if it is anyway. A half-mile circle drawn in the neighborhood of the Boulevard school, capable of accommodating between 400 and 500 pupils, would come pretty near the Boulevard school. There are vast areas in other sections of the city with no school at all.

"Another example is the Eighth Street School. It is a new eight-grade school, capable of accommodating between 400 and 500 pupils. It has been in operation for a few weeks. The Board of Education has to allow children to attend other schools, overcrowding them.

"The laxer of the schools are paid by the amount of the tax. When people have complained that for one reason and another they wanted their children to go to another school because the school was so near, the Board of Education has to pay the school district out there so that it is crowded.

"The school authorities have not lived up to this principle. When people have complained that for one reason and another they wanted their children to go to another school because the school was so near, the Board of Education has to pay the school district out there so that it is crowded.

This fact is revealed in a statement made Thursday by Mrs. Amelia R. Woodall, president of the Atlanta Equal Suffrage Association.

Authorities Still Far From Solution Of Express Robbery

Detectives are a bit deeper in the mire of mystery in their effort to discover the thief who looted an express car of \$75,000 recently between New York and Savannah.

During the last week a few of the many persons under suspicion have been cleared, following intensive search by the Pinkertons and special agents of the Adams Express Company. By the end of another week it is believed the suspects will have dwindled to a few.

"These persons frankly admit they are more puzzled than ever, but nevertheless are holding out hopes of obtaining evidence within the next few days to warrant an arrest."

Bartlett's Objection To Series Bulletins Amazes Georgians

Basford fans who are constituents of Representative Charles L. Bartlett, of Georgia, were amazed Friday over the reports that he tried to restrain the World's Series enthusiasm which prevailed as the scores were announced in the House by Representative Mann.

"It is beneath the dignity of the House," said Representative Bartlett. "You are disagreeable," retorted Representative Mann, who continued to read the results.

The scores were being read while a large number of the members of the House were patiently awaiting the arrival of enough Representatives to constitute a quorum. The sympathy of the other Congressmen was entirely with Mann.

BACKACHE A WARNING YOU SHOULD HEED

It is One of Nature's First Signs of Kidney Troubles, if Neglected, Serious Diseases May Follow.

When the kidneys are clogged up and inactive, nature has a way of warning you.

Backache is one of the first symptoms. You may also be troubled by dizziness, headache, moving bladder disorders, have attacks of lameness or rheumatism, become nervous, tired and feel all sorts of puffy swellings about under the eyes or in the feet and ankles, and many other symptoms are noticed if they are neglected, dropsy, diabetes, or Bright's disease, which so often prove fatal, may result.

Backache is not only dangerous, but needless for you to suffer and endure the tortures of these troubles when a little Croxone now will quickly and surely end all such misery.

There is no more effective remedy known for all such troubles than Croxone, because it reaches the cause. It soaks right into the kidneys through the walls and linings, cleans out the clogged up pores, neutralizes and dissolves the poisonous uric acid and waste matter that lodge in the joints and muscles and cause those terrible rheumatic pains, and makes the kidneys filter and drive the poison out of the blood and stir it from the system.

You will find Croxone different from all other remedies. It is practically impossible to take it without result.

An original package costs but a trifle, and all druggists are authorized to return the purchase price if Croxone should fail in a single case. Three doses a day for a few days is often all that is ever needed to end the worst backache, relieve rheumatic pains, or overcome urinary disorders.

Women Aid Fight on School Congestion.

Men Charles J. Haden, president of the Federation, has called a meeting day morning at 11 o'clock when some definite plan of action probably will be formed.

The settlement of the women in the city for better school conditions is the result and the natural outcome of the children's criticism, based upon personal investigation, of the last few weeks, together with the admissions of school heads that facilities were very poor. It is planned to enlist every woman's organization in the city in the campaign.

Mrs. Haden stated Friday that many of the members of the Federation had inspected the schools and expressed the desire of the women's organization to aid in any way possible in the solution of the problem, and declared that a large number of remedies would be suggested at the meeting Monday.

Garbage Problem Makes Mayor Ill

WARNING ISSUED TO HUNTERS ON GAME LAWS

Mercer Explains Changes in Letter to Wardens Urging Rigid Enforcement.

The game laws Georgia hunters must obey in the future are set forth in a letter State Game Commissioner Mercer has issued to State game wardens.

Many changes are shown in the national game law, which went into effect October 1, and which protects a number of birds either by shortening the season or preventing their destruction.

One of the most important changes relates to migratory ducks. The Georgia law has had an open season for ducks from September 1 to April 20, but the national law limits it from November 20 to February 15.

The State wardens will enforce the national law as well as the State law. Under the national law hunters are not permitted to kill insectivorous birds before sunrise or after sunset.

The season for quail, doves, wild turkey gobbler and plover runs from November 20. Wild female turkeys must not be slain. Only three turkey gobbler may be killed in one season by one hunter. Woodcock may be killed during December only.

Under the national law the open season for marsh hens, rails, coots and gallinules is from September 1 to December 1. Field and meadow larks are protected now under the national law.

A bag limit for one day's hunt is 25 quail, summer duck and plover, 25 doves and snipe, and 50 migratory ducks. Hunters' license is \$1 for the county and \$3 for the State. Non-residents will be forced to pay \$15. Permission must be had from the landowner.

More Workers Than Ever Will Give Day's Earnings Saturday, Home Trustees Say.

Saturday, October 11, will be the annual "Work Day for the Orphans." The board of trustees of the Decatur Orphans' Home has issued, through its secretary, W. E. McCalla, a plea to every man in Georgia to give the value of one day's work to that institution.

Sunday, October 12, will be "Orphans' Rally Day" in a number of Atlanta churches, and in many churches in other parts of Georgia. Sermons will be preached on the orphans, to drive home to the people generally the needs of the various institutions and of the Decatur home in particular.

The board of trustees of the Decatur institution hopes to raise \$25,000 by this means next Saturday. The plan of asking one day's work each year has proven a greater success each year since it was started in 1901. The donations have increased from \$800 the first year to \$16,000 in 1912, and with the greater enthusiasm that the workers are manifesting this year it is thought the \$25,000 will be easily raised.

The Decatur home now has on its rolls about 130 children, which at times increases to 190 or 200. Since its establishment it has cared for 2,500 children, educating them and sending them out into the world equipped to make a living.

Some of these children have achieved success and occupy high places of trust and importance. The monthly expense of the institution ranges from \$1,600 to \$2,000, which includes food, clothing, education, salaries for matrons and teachers, etc.

The home was established 42 years ago by Dr. Jesse Boring, and for many years was located at Norcross, where nineteen orphans were cared for in 1871.

In 1873 the home was burned and the institution was re-established at Decatur, where its fifteen buildings now stand on a farm of 225 acres. A good school and kindergarten are maintained, and the children are given as good an education as they could get at the public schools.

Bernhardt Protege Boomed Making Debut

NEW YORK, Oct. 9.—Mme. Sarah Bernhardt will no doubt pause before she commends another youthful protege to the good graces of an American audience when she learns what befell Miss Betty Callish, a pretty, young Dutch artist she sent to this country with a letter praising her talents and bespeaking the attention of the American public.

Upon the occasion of her first appearance in this country in the Colonial Theater, Miss Callish was subjected to the indignity of being booed.

Ask Administrators Of \$7,000,000 Estate

Attorneys for parties interested in the \$7,000,000 estate of the late J. P. Williams, president of the Georgia, Florida and Alabama Railroad, will file application for the appointment of Green Sharp Johnston and Robert C. McTyre as administrators.

Williams died intestate August 5, leaving his wife as sole heir. It was said a number of educational institutions, including Emory College and the Andrew Female College at Cuthbert, were cut out of large amounts, which, it is claimed, had been promised to them.

SMITH REFORMS IN COTTON WIN EASY VICTORY

New York Exchange Frightened Into Voluntarily Adopting Threatened Changes.

NEW YORK, Oct. 9.—Frightened by the recent Congressional agitation against trading in cotton futures, the New York Cotton Exchange has bowed to the inevitable and now plans to make voluntary reforms which will have practically the same effect as the bill which Senator Hoke Smith, of Georgia, and Representative Oscar Underwood, of Alabama, came near making law.

Congress, at the last moment before passing the tariff bill, dropped the amendment regulating the cotton exchanges, but it was evident such a measure would pass almost without opposition at the next session. Now the New York Exchange will do its own housecleaning, hoping, of course, that such action will prevent any further lawmaking.

Leopold Bache, of J. S. Bache & Co., one of the board of governors, states frankly that the exchange hopes to disarm all criticism by reforming the methods of handling business, the grades recognized by New York contracts, and the method of settling grade differentials.

He says the exchange can not adopt the Government grades, because they are based on Gulf cotton, and make no recognition of the upland types grown in Georgia and other Southeastern States. He believes, however, that grades can be adopted which will please all concerned.

Seven members of the exchange have been appointed a committee to go into the entire question and report not later than October 20, to a special meeting of the board of governors.

Years of protest from all the cotton growing States, the English and New England spinners and all consumers of actual cotton against the unfair New York contract availed nothing.

Then Senator Clarke, of Arkansas, introduced a bill in Congress which would have wiped out all the cotton exchanges. This was defeated when Senator Hoke Smith presented his substitute, which would have hit only at the New York exchange. With some changes made by Oscar Underwood, this amendment is acceptable to Congress and to all the cotton trade except New York.

Before all this pressure the exchange had to give way.

Dr. Hutchinson Holds Drink Divorce Cause

SPECIAL Cable to The Atlanta Georgian. LONDON, Oct. 9.—Dr. Woods Hutchinson, in a lecture before the National Council of Morals on Human Misfits, said drunkenness should be a sufficient cause for divorce.

He referred to the case of a woman, a victim of alcoholism, of whose 700 descendants two-thirds became public charges; of 600 descendants from the same father, who married another woman, only five became public charges.

Ball Lost 38 Years Turns Into Stone

NORFOLK, NEB., Oct. 9.—A baseball batted over into a cornfield 38 years ago by E. K. Ballantyne, later sergeant at arms in the United States Senate, was found yesterday when excavations were being made for a new building.

The ball had completely turned to stone, but the seams and stitches were perfectly visible. A slight dent on one side marks the terrific wallop given the ball by Ballantyne.

Chicago Council to Investigate Tango

CHICAGO, Oct. 9.—Alderman George Pretzel introduced in the Council a resolution for an "investigation of the tango dance." His suggestion was welcomed almost with cheers. A committee will be named by the Mayor to visit dance halls and take notes. Then something may be done.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe, which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark, glossy, soft and abundant.

ROOF FALLS AS LAST BOARDER FLEES FIRE

Occupants of Hunter Street House Barely Escape Death. Firemen Painfully Burned.

Occupants of Mrs. Sarah Freeman's boarding house at No. 291 East Hunter street narrowly escaped death in a fire which destroyed the upper story of the building Thursday morning, and were forced to flee into the street clad in their night clothes. One fireman was hurt in fighting the flames.

The fire was discovered at 2 o'clock by Mrs. Olive McAllister, a daughter of Mrs. Freeman. She was awakened by the crackling of the flames. The whole roof was ablaze and the fire was eating into the bedroom.

She awakened her husband and the two aroused the other occupants. Just as the last person left the house the roof collapsed.

Fireman Jasper Tulin, of No. 10 company, was burned about the hands and arms when he fell through the roof. He was forced to grasp a hot gas pipe to save himself from a more serious fall.

The contents of the top story of the house were destroyed and the lower floor was badly damaged by water.

The fire is thought to have been caused by rats igniting loose matches in a closet.

EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts can not injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

PLANS MADE TO ENTERTAIN 28 CONVENTIONS

Auto Roads to Battlefields and Stone Mountain Embraced in Bureau's Scheme.

Extensive plans for improvements in and around Atlanta in order that the 28 conventions scheduled for the city in 1914 can be properly entertained are under way by the Atlanta Convention Bureau. The project was broached at a meeting of the executive committee of the bureau at the Piedmont Hotel Thursday night, when the eleven members were guests of Manager H. N. Dutton at dinner.

Realizing that the old battle-grounds are Atlanta's greatest asset, the bureau plans the construction of an automobile boulevard that will completely circle the historic places, so they can be seen clearly without getting out of the automobile.

This road, it is proposed, will start at the outskirts of Atlanta and encircle the grounds where the battle of Atlanta, the battle of Peachtree creek and the battle of Ezra Church were fought. It is hoped to have the road completed by July 25, 1914, when the fifth anniversary of the battle of Atlanta will be celebrated.

The bureau also has under way plans for the establishment of a permanent roadhouse and barbecue grounds at Stone Mountain, which is one of Atlanta's most famous attractions. It is also planned to build a first-class automobile roadway to the mountains, which will enable motor enthusiasts to make the trip in comfort.

A Thursday night's meeting a committee was appointed to arrange the details of the proposition that will be made to the executive committee of the American Good Roads Congress to induce the organization to hold its 1914 meeting in this city. The committee is composed of the following:

Wm. L. Moore, president of the Chamber of Commerce; Shelby Smith, of the Board of County Commissioners; C. D. Kitchens, of the City Council; Otto Stamm, of the Wholesale Grocers' Association; Frederick J. Paxon, of the Retail Dealers' Association; H. N. Dutton, of the Atlanta Hotel Men's Association; and Fred Wagner, secretary of the Atlanta Convention Bureau.

LEAHY WILL PUSH SIGNBOARD PLAN

Atlanta Industry Statistician to Have Bulletins in Depots and Hotels Soon.

Active work on the project to place signboards and bulletins filled with information about Atlanta's resources in the railway stations and hotels has been begun by W. H. Leahy, secretary of the Industrial and Statistical Bureau of the Chamber of Commerce.

Because of the illness of Mr. Leahy this work has been delayed several weeks, but now that he is back at his office it is expected that it will be completed soon.

The information that will be placed on the boards and bulletins will contain everything anyone needs to know about Atlanta, including the altitude of the city, accurate proof of the healthfulness of the climate, the bank clearings, the weekly payroll, the population and the rate of growth, figures showing the manufacturing industries located here and the magnitude of their products, and other data that stamps Atlanta as one of the foremost cities of the country.

Mr. Leahy said Friday morning that he expects to have some of the bulletins boards and signboards in place within a few weeks. He is now preparing the data, and will have the boards painted as soon as this task is completed.

SIDELIGHTS on GEORGIA POLITICS

By JAMES B. NEVIN

At a banquet to be tendered him Saturday night by citizens and admirers who reside in Brunswick and Glynn County, former Congressman William G. Branley will be presented with a handsome silver service.

The fund with which the service was purchased was made up entirely within the county of Glynn, and the service is very handsome, notwithstanding the fact that the subscriptions were rigidly limited to \$1 each.

Practically every business man in Brunswick contributed, and the numerous theobas, with whom Mr. Branley always has been very popular, also responded immediately and generously.

Mr. Branley has decided to make Brunswick his headquarters, although his new legal duties will carry him all over the South, and it may be that he will find it impossible to remain in all city a great deal of the time.

His new duties concern every rail road project in the South, and his work will touch every system penetrating Georgia.

It generally is agreed that Mr. Branley's retirement from Congress last year was a great loss to the State, and that he was not looked upon by those associated with him justly, or, at least, as one of the real constructive leaders.

Mr. Branley followed one of the greatest Congressmen Georgia ever produced, and that was Henry G. Turner, who followed him to Washington. Mr. Branley's retirement from Washington he went out with him, if any, less prestige than Mr. Turner.

Mr. Branley is out of politics forever, however, and expects to devote the remainder of his active life to the practice of law. It always was a great financial sacrifice to him to remain in Congress, anyway.

The only objection can be heard to the proposed currency bill is that it will make times too good," said Congressman Gordon Lee, who is in Georgia for a few days.

PLAN UNDERWOOD CLUB. HUNTSVILLE, Oct. 10.—Political friends of Congressman Oscar W. Underwood are planning the organization of a club here to boost his candidacy for the United States Senate.

He has named Robert F. Maddox a member of the State Board of Health.

Wm. Moore a trustee of the Georgia Home for the Training of Orphans, and Fred Moore, chief of staff in the Military Department, and Asa G. Chandler a member of the personal staff of Governor Underwood.

The Governor, indeed, appears to have been altogether happy in his appointments made to date, although it never will be possible for him—as it never has been possible for other Governors—to make an appointment at any time that suits everybody.

The question of providing a new Executive Mansion is sure to come up for definite action before the Legislature soon—if not before the present General Assembly next summer. Then before the not one sure.

The present mansion is so, as everybody agrees, not at all fit for the purpose for which it was intended. It is physically impossible, and to patch it up generally is regarded as worse than a waste of good money.

In addition to that, its location is not at all such as any private gentleman would select for a home—and, after all, while the Governor's mansion is an official residence, in a way, it is really designed as a home for the Executive.

The next Legislature perhaps will dispose of the present property—which may be done most advantageously, of course—and a new and handsome residence will be erected somewhere else in the city.

The question of the new location is not one particularly interesting to Legists, as they have a hundred or more locations that would answer admirably.

Governor Stanton says the Bator County Fair is a crackerjack and he advises all who can to visit it.

"It will be possible for me to visit all the fairs which I have been invited this fall," said the Governor. "There are so many in Georgia and I doubt that there will be one which is not a distinct credit to the community holding it, and, rightly, it is worth seeing."

"If I attempted to visit all of them, however, I would have no time left for anything else. I shall visit quite a number of them, but I have not received some invitations I have in hand that I do not feel disposed to neglect."

"I would like to encourage the county fair, as an annual good, not only in bringing the people together, but in inaugurating a keen, healthy and profitable trade in agricultural, live stock and domestic products."

"The more county fairs, the merrier, and the better, I think!"

Quaker Fans Can Not Occupy Housetops

PHILADELPHIA, Oct. 10.—The Chief of the Bureau of Building Inspection today notified owners of properties surrounding Shibe Park that they should not, because of the danger involved, permit persons to occupy their housetops during the playing of the World's Series in this city.

It was estimated that 10,000 saw the game from outside the park. Tickets were sold for seats on housetops, 25 generally being charged.

Prefers Jail to Any Other Drink Cure

As a temporary substitute for the gold cure and all the other cures for inebriates has been tried with success by H. Holman, of Miami, Fla. WESLEY MEMORIAL GYMNASIUM IS POPULAR WITH GIRL ATHLETES

Group of young women forming class in Indian club practice at Wesley Memorial gymnasium.

Stereotyped Physical Exercises Are Interspersed With Graceful and Unique Folk Dances.

Several scores of sprightly and attractive young women nearly every afternoon are transforming the gymnasium at the Wesley Memorial Building into a scene of interesting activity since the opening of the "gym" classes this week.

Started in immaculate sailor waists, "knicker" and silent "mop-tops," boys and girls are going through the calisthenic, dumbbell exercises and other maneuvers with an exuberant enthusiasm that makes up for any lack of precision in the first few days of the classes.

That there may be no tedium of dullness the stereotyped gym exercises were interspersed with the graceful and unique folk dances of many lands.

Staid business women may be seen engaging in these dances with as much enjoyment as the gayest and liveliest schoolgirls.

In order that all may be accommodated in the gymnasium, the afternoons during the week have been divided and allotted to different classes and for different purposes.

PROSPERITY SIGNS SEEN BY OIL MEN

Standard Salesmen Predict Generous Circulation of Funds in Georgia This Year.

High signs of prosperity are seen by the Georgia traveling salesmen of the Standard Oil Company of Kentucky, who are holding a three-day convention at the Georgian Terrace.

More than a score of Standard Oil men are attending. The meeting opened Thursday, and will extend through Saturday.

Reports read by various salesmen of the company who traveled through Georgia show that the coming year will be one of the most prosperous in its history. Indications all over the country, these men declare, point to a generous circulation of funds.

The meeting, which is an annual one, is the third to be held at the Georgian Terrace.

The principal business will be to ripen acquaintances between salesmen and officials of the company and to perfect the policy of the organization.

Atlanta Chamber Joins State Body

The Atlanta Chamber of Commerce is now a bona-fide dues-paying member of the Georgia State Chamber of Commerce.

It had virtually been a member since the State body was organized in Macon, and in fact was instrumental in bringing about its formation, but not until Thursday afternoon, when the board of directors met, had it formally joined.

Wife Tells Tale of Wonderful Thirst

A ship in the face and other cruelties are the allegations in a divorce suit filed in the Superior Court Friday by Mrs. Susie J. Moody against Henry Moody.

The petitioner charged that Moody not only treated her cruelly, but also drank "all the whisky he could get."

Jap Warship Boilers Explode; 2 Killed

SPECIAL Cable to The Atlanta Georgian. TOKIO, Oct. 16.—Two sailors were killed outright and sixteen were injured, most of them fatally, when the boiler of a Japanese warship exploded during a trial trip in Amoy Bay today.

The explosion occurred in the hull of a vessel named, and it sank.

CONDEMNED MAN APPEALS.

CADSDEN, Oct. 16.—The fight to save J. Smith, convicted of the murder of Patrolman Patterson, of Atlanta, shifted from the courts of Stowak County to the Supreme Court of Alabama when Judge A. Billro overruled a motion for a new trial, the sentence of Smith to hang on Friday, November 23. Notice of appeal was given.

DANCING.

Miss Mosley is bringing from New York the very latest styles in the fashionable ballroom dances, including the Scotch Highland Marine, the hesitation waltz, the tango and the one-step and the new and latest fashions in dress.

SAVE YOUR HAIR! F FALLING OUT OR DANDRUFF—25-CENT DANPERINE

Ladies! Men! Here's the Quickest, Surest Dandruff Cure Known.

This brittle, colorless and scraggy hair is sure evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life, eventually producing a feverishness and itching of the scalp.

which, if not remedied, causes the hair roots to shrink, loosen and die, then the hair falls out fast. A New York City hairdresser says: "Any time I will surely save your hair."

Danperine from any drug store or toilet counter, and after the first application your hair will take on that life, luster and luxuriance which is so essential. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness, but what will please you most, will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.—Advt.

CHAMBERLIN-JOHNSON-DuBOSE CO. ATLANTA NEW YORK PARIS

Here Is Fine Glove News!

Women's \$1, \$1.50 and \$2 89c Short Kid Gloves 'Are . . . 89c

Perhaps we should say Women's \$2.00, \$1.50 and \$1.00 short kid gloves are 89c.

For these are the facts— There are more \$2.00 gloves than \$1.00. And there are approximately two hundred seventy-five pairs in all.

There are two and three-class gloves. The colors are tan, gray, red, green, black and white. All sizes from 5½ to 7¼.

Every pair from our own stock—the famous Bondy and Tre-fousse makes.

Now the reason— They are hurt as to looks, meaning that all the wear and worth are in them, but that you will find a tarnished clasp here, a mussed pair there, a somewhat soiled pair now and then, little hurts that came from handling.

We would not sell them at the price we must sell perfectly fresh gloves of the same qualities, so to-morrow, 89c the pair.

The Vogue for Ribbons Is Splendidly Reflected in This Display

And yet we are told that many stores are experiencing great difficulty in securing the ribbons so fashionable this season.

One would never think so did one judge by this display of ribbons. It is wonderful what ribbon makers have done this season!

How they could ever spin out such glorious, intricate patterns in such rich and diversified patterns!

Ribbons that seem lifted from the Orient—that some Bulgarian brigand might have afforded.

—that seem to be strips of ancient tapestries.

—that a modern cubist artist would call triumphs of imagination.

—ribbons of Persian colors, soft Japanese colors and gay Roman stripes. Velours, Ottomans, bengalines, satin moires, satin faille and satin tafeta.

How are such ribbons to be used? As things of beauty always are—in many, many ways.

Women are buying several sashes for one dress! Sashes to be worn differently; at one time after the fashion of the Chinese, again simulating the Japanese, the Turks and the military.

The ribbons are a sight worth seeing.

And Now a Beautiful Display of Children's Millinery

Junior Department--Third Floor

An exposition of the fall fashions of millinery for children!

Were this an initial display of millinery for women, bringing as authentic styles for them as it does for children, it would be looked upon by women in the light of an event.

This miniature millinery is beautiful! It is novel, it is charming.

There are little hats here that will surprise the grown-ups. Who evolved such styles, combined such colors, twisted brim so fancifully, placed little clusters of fruits and French flowers so daintily, twined ribbons so gracefully, wrought such novel shapes in hats—for children?

Specialists! People who give their whole time and attention and hearts to making prettier hats for children.

We might tell you much of the distinctive points of the new soft crowns, the ones of furs, plushes and velvets and all that, but we would like all mothers to bring little daughters with them to-morrow to a display of children's millinery that surpasses all former efforts.

Girls' Coats at \$5.00--Unusual Values

Sizes six to fourteen years. The range of styles and colors and fabrics is greater than we have ever shown at this price, also the values are greater.

There is more distinction to them than we have yet seen in \$5.00 coats. Choose from chinilla, zibeline and Scotch mixtures, blue, grey, brown, red, green.

Close-buttoning collars and collars with revers, belted backs and plain backs.

Sturdy, fine coats for the girl going to school. Then come

The Coats at \$6.50, \$7.50, \$10, \$15 to \$30

And Miss Atlanta puts on more style when she dons one of these. A great many of them are long-waisted, with a belt placed very low, others are smart affairs with silk sashes in the back.

Luxurious broadcloths, corduroys, zibelines, chinchillas, boucles and plushes are the fabrics.

In all, we believe a better selection to choose from could not be found in a day's search.

PLANS MADE TO ENTERTAIN 28 CONVENTIONS

Auto Roads to Battlefields and Stone Mountain Embraced in Bureau's Scheme.

Extensive plans for improvements and around Atlanta in order that the 28 conventions scheduled for this year in 1914 can be properly entertained are under way by the Atlanta Convention Bureau.

Realizing that the old battlefields are Atlanta's greatest asset, the bureau plans the construction of an automobile boulevard that will completely circle the historic places.

Thursday night's meeting a committee was appointed to arrange the details of the proposition that will be made to the executive committee of the American Good Roads Congress to induce the organization to hold its 1914 meeting in this city.

Man Who Denounced Huerta Disappears

MEXICO CITY, Oct. 10.—Senator Belmont Dominguez, who delivered a speech at a secret session of Congress on September 22, in which he denounced General Huerta as an assassin, has disappeared. He is believed to have been assassinated and his friends in Congress will demand an immediate investigation.

Senators Brayo Manuella and Escudero, the federal leaders, arrested because of the abandonment of Torreón, were brought here on a special train to-day from Monterrey to stand courtmartial.

Quits City Post to Avoid Reprimand

After twenty years' service, William V. Vining, an inspector of the City Water Works Department, has resigned his place rather than submit to a reprimand because he accepted pay for doing plumbing work. Vining admitted he has taken the money, but said he was not doing it on his own account.

Vining is eligible to a pension under the city law, but he has only received on half pay three years ago. It is probable he will apply at once for his pension.

Figures \$7,500,000 Worth of Time Lost Watching Ball Score

WASHINGTON, Oct. 10.—Seven and a half million dollars' worth of effort is expended by baseball fans watching the World's Series results through the various scoreboards in the United States, according to J. S. Pengelly, of Ohio, a statistician.

He figures that two million men spend an average of two dollars a day, and two and a half each afternoons before the scoreboards.

For the series, Mr. Pengelly figures a total of 20,000,000 hours, or 275,000 eight-hour days.

Mr. Pengelly estimates that half a million watch the boards in Philadelphia and New York alone.

With the energy of those actually attending the games computed, Mr. Pengelly says the result would be astounding.

Annual Old Guard Club at Capital City Ball To Be Brilliant

The Old Guard will hold its annual ball at the Capital City Club Friday night. A brilliant affair is expected.

The clubhouse has been turned into a miniature Elvistan with effective combinations of foliage, lights and instead of the Gray.

Women in Organized Gang of Thugs, Say Police; Crusade On

Complaints of hold-ups and burglaries in which women figure are pouring into headquarters so fast the detective division is swamped, and the police Friday morning started a systematic effort to break up what they say is the most unusual gang of highwaymen that ever plagued Atlanta.

The police believe the gang is composed of both men and women, most of whom are negroes. Several robberies have been reported lately, where a negro held up the victim at the point of a revolver, while a negro went through his pockets. It is thought there are at least half a dozen women in the gang, as no two of the descriptions turned in by victims have been the same.

J. B. Krawford, No. 216 Courtland street, is the latest victim of the gang. He was held up and robbed of a watch and \$1.50 a little before midnight Thursday, on Courtland between South Cain and Harris streets.

Every Lawyer Is Invited to Banquet For Judge Newman

John D. Little, chairman of the committee arranging for the banquet on October 25, in celebration of Judge W. T. Newman's seventieth birthday, Friday, issued a general invitation to all members of the Atlanta bar.

"It is possible that the lists are not complete," Mr. Little said, "and that some of the invitations may be mislaid. But we want every member of the bar to attend the banquet, and should any lawyer fail to receive a notice I would deem it a favor if he would communicate with me at once."

CLEAN-CUT, HIGH-CLASS VAUDEVILLE THAT PLEASURES AT THE BONITA THEATER

A vaudeville bill of four numbers that will please and interest old and young alike is being presented at the Bonita this week.

"The acts are all good, all high-class and clean-cut, but there is one feature that deserves special mention, and that is the banjo number. If you have not heard Mr. and Mrs. Stilling, you have missed a treat. It is worth the price to hear them play. 'The Strain and Stripes' alone. They bring out all the music there is in it. Their repertoire runs from rag to class—from 'Robert E. Lee' to 'William Tell.' And there's real music in every number."

Foreign Producers Acclaim Our New Tariff Bill, Which Neglects Reciprocity

Why these ringing huzzas throughout Europe over our new tariff bill, now in operation, with generally lowered rates and no adequate reciprocity provisions?

To the London Daily Express a year ago, William R. Hearst said: "Mr. Wilson says that we have grown to such a point of production that we overflow our own markets and that we must extend our markets and open up foreign markets to our produce."

"This is quite true; but one reason that we fill and overflow our own markets is because legitimate protection has prevented the product of foreign manufacturers and foreign cheap labor from invading our markets and crowding our manufacturers and our own laborers out of business."

"We can not secure the markets of foreign nations merely by reducing our own tariff wall. We must reduce the tariff wall of foreign nations."

"If we sacrifice our protective policy we sacrifice our one opportunity to lower the tariff bars of foreign countries. IT IS ONLY BY PROTECTION THAT THE TARIFF BARS OF FOREIGN COUNTRIES CAN BE LOWERED."

A new tariff law without adequate reciprocity provisions and one hundred million dollars' worth of foreign-made goods turned loose on this country at lower rates, or no rates at all, from bonded warehouses and waiting ships within a few hours of its signing!

A hundred million dollars' worth already, from foreign factories, with foreign rents, foreign cheap wages and foreign standards of opportunity and civilization!

And in return not a single brick out of any foreign tariff wall not a single foreign market an inch wider open to any product of any American manufacturer, of any American workman!

No wonder that in London, Paris, Berlin and all other trade centers of Europe they are penning psalms in honor of "the new epoch." No wonder that in the great German capital, as The Georgian's dispatches tell us, the merchants are already organizing to take advantage of our "new freedom," the freedom to sell more freely to the Americans, but not to buy more freely from the Americans.

Letters From the Readers of The Georgian

THE BIBLE AND U. S. MAILS. Editor The Georgian: I notice in your paper of September 23 that a petition has been sent to Postmaster General Burleson urging him to have the Bible excluded from the United States mails on the ground that it contains obscene and immoral matter. I have never seen anything so ridiculous in my life, and would like very much to know what set or crowd of people was behind the movement.

The title of the Atlanta organization, in my mind, is a misnomer. Just what I proposed for it is just what the Rev. Mr. Wallace suggested—Associated Investigators. INOXGATED. Atlanta.

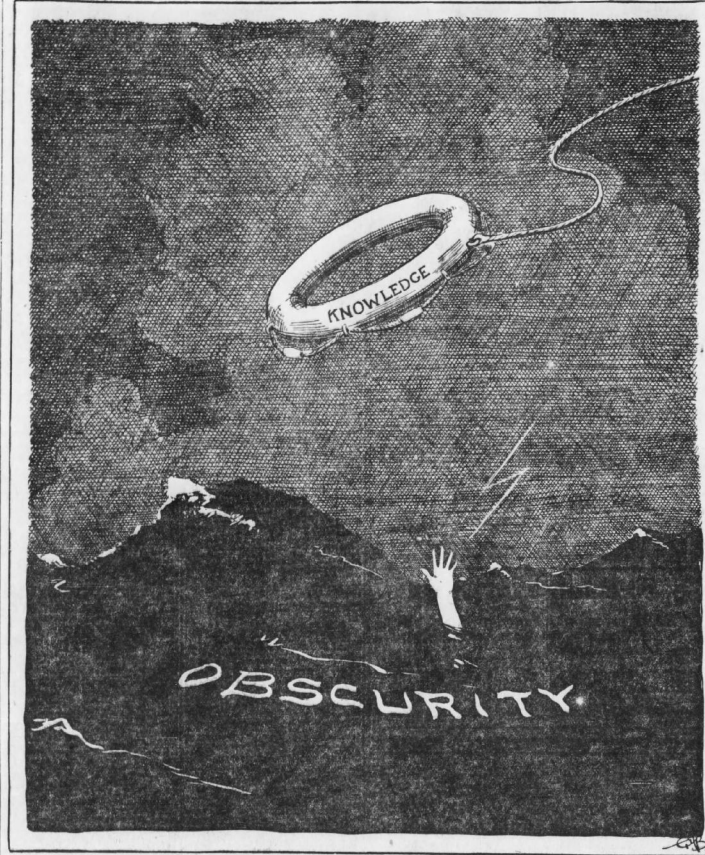

LABOR CONDITIONS. Editor The Georgian: I dare say labor conditions in Atlanta are as bad as elsewhere, but in every city you will find men higher up. Instead of the "new" Highways, we have the "old" for better conditions in the labor market, they may be the defense of the other side. Let us have a bill that will make an effort to accomplish this. It will be done in 15 minutes here on earth, and make for better conditions among men and women. We have to do it. M. E. PIERCE. No. 823 Parker street, Jacksonville, Fla.

COTTON AND WEATHER. Editor The Georgian: In the fall of 1911, when the farmers realized that they had made a bumper crop, many of them felt too rich to work hard in gathering it. Bad weather came on in October, and the bumper crop resulted in a curse to the cotton grower. Why not urge them to hurry—don't stop to gin, unless forced to do so, but gather the cotton. Let the slogan be "Pick the Cotton Now." J. A. DAVIS. Sardis, Ga.

THE REV. MR. WALLACE'S SERMON. Editor The Georgian: I read with no little degree of interest the excerpts from the sermon of the Rev. Mr. Hugh Wallace. I think they were the best I have ever read, and I am glad and disgraced as they are. His closing remarks about the Associated Charities were significant.

Stars and Stripes. The new tariff is hailed as a great boon to business in Europe. A Washington girl wears riding "boots." Must ride a ponyette. Surgeon makes a girl a new nose out of two of her fingers. Hope she won't wear a ring in it.

The Fascination of Archaeology

By EDGAR LUCIEN LARKIN

THIS is my twelfth attempt in twelve years, striving by means within my power to interest people in the great historic study of archaeology. Part of these articles were written on American archaeology, especially of the prehistoric ruins in Mexico, Yucatan and Western South America, of Peru, Bolivia, Ecuador. One or two were on island ruins in the Pacific ocean, and upon the Swastika symbols in the prehistoric solar-worship case on Catalina Island. And Maya antiquities in Central America were written up. These were of interest, but they all fall short of fascination and of literary and historic value in comparison with archaeology of the Orient.

At no time since the key to the cuneiform writings on clay bricks and in rock-hewn inscriptions in Babylon and Nineveh was discovered, nor since the hieroglyphs were read in Egypt, Nubia and Mesopotamia has there been a more intense interest manifested than at the present. See "Waning of Light of Meropis." Scholars, antiquarians, linguists, religionists, artists, sculptors, literary, architects and historians, even wealthy men and governments, notably the German, these and others are absorbed in the exciting subterranean explorations.

THE GARRET

DUSTY and dingy, where small mice roam; The highest room in a lowly home; But up in the eaves where Chatterton crept When a furtive sunbeam comes to play, It knows no rest, no festival, And is shunned alike by the great and small. But up in the eaves where Chatterton crept, Breathless genius has laughed and wept. Up in the garret under the skies The poet starves and the painter dies; And the staidest hall where royalty reigns Is not so grand as the Room of Brains.

Reincarnation

Writes on Reincarnation The Sayings of Christ Are Filled With It; the Teaching Was Lost Only for a Time, but Poets and Philosophers Have Never Forgotten It, She Says.

Written for The Atlanta Georgian By Ella Wheeler Wilcox (Copyright, 1915.)

OUR philosophy, our science, our religion, have only worth as they make us more useful members of the Brotherhood of Man.—Anna Beeson. The sayings of Christ were replete with references to incarnation. In John and Matthew and Mark such references may be found relative to John the Baptist, and there are many more.

The doctrine was for certain reasons put aside in the sixth century. But it was preserved by many Christian sects.

Speaking of this, an earnest student of Theosophy says: "In the eighteenth century there is a regular outburst of this doctrine; and, strangely enough, two years ago I came across a rare and little known book, printed in 1768, written by the Rev. Capel Berrow, rector of Rossingham, Nottinghamshire. It is called 'A Lapse of Human Souls in a State of Purgatory; or, The Only Original Sin,' and the author gives all the arguments for reincarnation, with which some of you may be familiar from the mouths of Theosophists to-day, all along the line of Christian belief."

Proved the Doctrine Was Once an Integral Part of Christianity. He declares that Mr. Brockley, "a man of most prodigious learning," had published a book in 1768, proving this doctrine to be an integral part of Christianity, and he quotes a number of great names of his own time, all of whom believed this doctrine to be part of Christianity.

He declares that Mr. Brockley, "a man of most prodigious learning," had published a book in 1768, proving this doctrine to be an integral part of Christianity, and he quotes a number of great names of his own time, all of whom believed this doctrine to be part of Christianity. Dr. Butler, the Bishop of Durham—so that we even have a Bishop on our side in dealing with the orthodoxy of this in the Christian Church, and no one, I think, will challenge the authority of Dr. Butler—Dr. Henry Moore, Dr. Cheryne and the Chevalier Ramsay. So that the teaching only disappeared for a time in the flood of ignorance that swept over Europe after the decay of the Roman Empire.

Nor has the teaching faded out of the minds of philosophers and poets. Need I remind you of those well-known words of Wordsworth: "Our birth is but a sleep and a forgetting. The soul that rises with us, our life's star, Hath had another time, and shined before us. And cometh from afar. Not in our first birth, but in a better life, he'll enter in, and shall no more be troubled. For so the poet says, and so the poet says, and so the poet says."

From God, who is our home." All the teachings of this philosophy are for the good of the human race. They are for the moral uplift of society.

One who understands the very refinements of reincarnation and Karma must know that every thought of his mind is helping to shape his destiny here on earth, in the realms beyond and on the earth when he returns.

The Holy League

By REV. THOMAS B. GREGORY.

THE "Holy League" was signed by the various contracting parties four hundred and two years ago—October 4, 1511. The organizer of the league was Julius Second, the "Fighting Bishop" of Rome. Jealous of the French rule in Italy, which seriously threatened his temporal dominion in the peninsula, Julius induced Maximilian, Ferdinand, Henry the Eighth of England, and the Swiss to join with him in expelling the French from their Italian possessions. It was in the war following the formation of the league that the young French knight, Gaston de Foix, made his great fame as a battle-winner; and it was largely owing to De Foix's death at the battle of Ravenna, at the early age of 21, that the league, after a

four years' contest, got the better of the French. It is not, however, with the final result of the war, or even with the brilliant career of Gaston de Foix, that we are especially concerned here, but with the very important fact that it was out of the Holy League that there grew the famous theory known as the "Balance of Power," a theory that dominated European diplomacy from the days of the league right down to the Berlin Congress of 1878.

Oh, Gloom! Two Wheels Gone, Watch Your Wheels! By Tom Powers

WAGG PLOCKED WINNER FROM YOUNG STAFF

His Keen Eye Spotted Bush as Best Hurler While All of Them Were Warming Up.

By Damon Runyon.

P HILANDALE, Oct. 18.—Squatted in a little concrete coop the Polo grounds, he stared sharply outlined among the dull, dusty-looking uniforms of his men by his invasive garb of funeral black, Cornelius McGillicuddy—"Connie Mack"—the lean Jewell of baseball, struggled with a desperate problem yesterday afternoon.

Before him in a long line stood half a dozen young pitchers, "warming up" above the shelter of 40,000 feet regular post-spat of ball against globe lenses upon smuggy atmosphere in a mighty effort to impress the soft eyes of the white-haired manager.

Frank had been beaten, and Bender was done, at least for the time being. It had to be a youngster, and so this Malmouth of the White Elephants watched that eager line, but he drew a blank to a pliantive pocket about his nose.

Then suddenly the eye of Cornelius McGillicuddy caught the "top" of a fast ball delivered by one particularly eager youth, and the lean index finger of "Old Sober" beckoned.

"You," he said, laconically. "So young Leale Bush, thirteen years of age, and a little bit below the girls, followed the back of Connie Mack into the Hall of Baseballers, where he inscribed his name before the names of 'Babe' and 'Big Boy' of Pittsburgh, and Hugh Bellard, of Boston."

Had Cornelius McGillicuddy foreseen that that young fellow of 13 might have decided to pitch the game, it is doubtful if he would have been so ready to let him in. But the low-statured old gentleman detected nothing from the work of Leale Bush. He may have been a little nervous in the beginning, this young person who parts his name in the middle, but confidence is easily born of a five-run lead, and that was Leale's portion after the second inning.

"All Southern Elevens Stronger" Heisman Reviews Recent Games

By J. W. Heisman.

A LTHOUGH the best teams of former years in the South look better than ever this year, while the second and third rate teams would appear to have improved but little, if any, the class of ball that Vanderbilt, Auburn, Georgia, Sewanee, and Tech will play this year will, in my opinion, bring Southern football to a higher level than it has ever been in the case before.

With a veteran crowd, Birmingham College, Howard, Rushdon, Atlanta, South Carolina and possibly Chattanooga do not appear to be in line this year for any very considerable advance in standing, it is well worth noting that two teams that have been rather out of the running the past few years but promise and threaten to come back into the fold with a rush. I refer to Clemson and Tennessee.

Clemson makes no secret of the fact that they have "looked" of good material on hand this year, that they have better coaches, that their men are experienced and have the necessary "know-how" to "go" in them, and that they expect to give more than one good team in the S. I. A. a jolly good time of it before the season is run down on Turkey Day. We will all be very glad to see Clemson get back in the running for them as good sports, and it is all the more to be regretted that they are so backward even temporarily.

Clemson falls far behind in the South, at least for the time being. If anybody expected them to do so it is only because that party known as the "White Elephants" of the Philadelphia Athletics. Frank had been beaten, and Bender was done, at least for the time being. It had to be a youngster, and so this Malmouth of the White Elephants watched that eager line, but he drew a blank to a pliantive pocket about his nose.

TESREAU'S SPITTER JUST WOULDN'T BREAK

By Paul Attnstrom. (Atlanta's Famous Playgirl).

PHILADELPHIA, Oct. 18.—And now comes a tragedy. The tragedy of the "spitter" is that all the long-whiskered scientists in the world have decided that the "spitter" is a scientific impossibility. Long years ago these same theorists, meeting in some obscure conference, decided that there was no such thing as a curve ball.

It could not be done—absurd. But some bats did not give up. In 1876, we were told with a love for truth and a contempt for whistlers, coaxed one of the scientists into a ball yard, hid him four feet back of a post so that he could not be hit.

"Then turned loose what was known in "them glad, ignorant days" as the "spitter." It has come to be known as the "roundhouse," and the "curve" has been the "out" there. Well, it surprised round the post and threw enough whistlers-out of that scientist's board to make an Oster-mattress for a family, and since then the long-whiskered boys have revised the science and admitted the curve ball possible under certain conditions.

"No-no, there is no truth in the tale." As a matter of fact, no science, the "spitter" is a deadly affair—it works. The idea is this: A dry ball with wet on one portion—the rest being dry—will, when it reaches an atmosphere packed to a certain density, slip or float on the wet surface from a straight line. It may defy the long-whiskered boy's most sacred law of gravity, and taking itself by the nose from the line on which it has been thrown.

Again, it's all according to where the wet spot is, up, down or to the right or to left—it's—curve from the line. "Tesreau was put in some damn day" yesterday, and the "spitter" was "breaking" like a hysterical skyrocket.

He was put in yesterday, with the sun brightening every minute, and the "spitter" line would NOT break. It came on the line it was thrown like a shoe. Perhaps it "broke" a few inches, but never—never did it act like a well-trained "spitter" ball. Yesterday was the day for the long-whiskered boys to win the argument. It never did "break" yesterday.

In Collins you see itself; he, the best second baseman that ever played the ball, old-timers try to think of some long game player with whom to compare Collins, but in vain. Always trying, forever talking, fear as a snub and (frees as a motor) he keeps the game alive. He hits like a bat.

Bush Receives Wire Of Congratulation From Home Friends

BRAINARD, MINN., Oct. 18.—One hundred and six enthusiastic citizens of Brainard gathered at the telephone office yesterday afternoon and signed their names to the following telegram to their fellow townman, Leale Bush:

"The undersigned extend our hearty congratulations for your victory today, and also the work of your able manager, Bender, both of Brainard. The old town is and will be wide open in celebration—you know how! An invitation is extended to you and Bender to come to Brainard as soon as released, when the celebration will be completed."

Cards Get One Hit And Defeat Browns

ST. LOUIS, Oct. 18.—"Slim" Sallee was right yesterday, and the Cardinals triumphed over the Browns, 1 to 0, in a hot struggle. Wellman, on the hurling hit by the Browns, also had one of his good days, allowing Huggins' men but one strike, that being made by Magee.

Pirates Trim Naps In Fourth Battle

PITTSBURGH, Oct. 18.—The Pirates evened up their post season series with the Naps yesterday by taking the fourth game, 2 to 0. This gives each team two victories.

Fifty First-Choice Lots in Carey Park for Only One Dollar Down and One Dollar a Week Until Paid For Without Interest or Taxes

ANNOUNCEMENT: In a few days I shall announce the opening sale of fifty choice lots in CAREY PARK, on the new line of the Atlanta Electric Railway system...

I have selected Carey Park, all of the suburban properties investigated around Atlanta, for the satisfactory reason that a greater amount of road and street railway development work has been planned and definitely decided upon...

I have sold more than two million dollars worth of suburban properties in the leading Southern cities, and I have never sold a property that failed to make money for the investor...

Carrey Park is reached by a five-cent car fare; is within the five-mile circle from the Union Depot; is just west and almost adjoining the magnificent Grove property known as "Fortified Hills," in which several hundred thousands of dollars have been spent and as much more will be spent...

The investigator, therefore, will see that no other subdivision around Atlanta is the center, to-day, of more development work that absolutely assures enhancing values, than Carey Park.

I shall sell the first fifty lots at only Two Hundred Dollars each, no addition for corners, with the exceptions that corners will be sold on terms as stated above. The next fifty lots will be sold at 1 1/2 to 2 percent advance, and so on...
